cream coffins on a stick There were costume parties too You had to wear something blue because that was the colour people went when they were buried under the sea You could paint your hands and face if you liked or even dye your hair That s what people did in Moon Beach Turned blue once a year And then they turned blue forever **Adventures from the Psyplex**

David M. Cotner,2010-12-28 This is Tsa Sohone s second assignment from the Psyplex central core of the collective consciousness and this time the former Caddo Xinesi s Shaman s life energy is sent to the body of Logan Gortner and is directed by the Psyplex to take control of the body of the retired financial advisor after sixty two years of being a subordinate soul within Joining Tsa Sohone and Logan are several other life energies from the Psyplex some familiar ones like Old Blue the mule from his first adventure and some new and interesting ones ones that will play important roles as Tsa Sohone struggles to carry out his assigned task again in Arkansas but now in the year 2012 The mission assigned to him this time revolves around the jaguar pendant that was found in little Jenny s hand the day she was born in 1878 and was passed down in her family all the way to its current owner and relative Logan Gortner The mysterious appearance of the pendant in the infant s hand was never solved but now Tsa Sohone has the chance to find out the origin of the necklace and the importance it will play during the second half of the Sun s life that starts the day after the end of the Mayan calendar on December 21 2012 Tsa Sohone must first determine the role the pendant plays and then unlock the secret the pendant holds to

successfully complete the mission assigned him by the Psyplex As in his first adventure from the Psyplex he encounters many obstacles and endures several trials in his quest to solve the mystery of the jaguar pendant An Edgy Realism Jerome

Schaefer,2015-09-04 Similar to the way in which the new waves of the 1960s and 1970s had been characterized by new forms of cinematic realism cinema since the turn of the millennium has pointed into the direction of a new edgy realism Art film movements such as Dogma 95 and the New French Extremity as well as shaky cam horror films like The Blair Witch Project and Paranormal Activity provide evidence of the fact that the proliferation of the digital since the 1990s has profoundly changed not only contemporary media culture and the social role of film as seen for example in the case of amateur film and the phenomenon of mobile reporting and its distribution via YouTube and the like but also notions of realism and authenticity As modern film theory has struggled to keep pace with the developments of contemporary cinema this book draws on actor network theory and its material semiotic mindset to allow a thorough understanding of the innovative character of cinema at the turn of the millennium It is argued that the ongoing digitization has finally allowed cinema to return to a material semiotic mode of perception one side of this being the spectacle of the blockbuster while the other side might best be described as an edgy realism the realism of material semiotic relationality *The Child's*
