Subcommittee on Early Childhood, Youth, and Families, 1999      **The Midshipman Culture and Educational Reform** Todd A. Forney, 2004 The Midshipman Culture and Educational Reform examines the effect of educational and professional reforms on the culture of Annapolis from 1945-76 The Naval Academy has juggled the competing priorities of training and education throughout its history Proper balance was a perennial problem since the academy was limited to a four year timetable to graduation Bancroft Hall was the focal point for professional indoctrination and the heart and soul of the academy culture Its traditions and activities often competed with academies for the midshipmen's time and attention technology and operational requirements forced the school to reevaluate the emphasis paid to academics Outside groups such as the Folsom Board and Admiral Hyman Rickover also acted as a catalyst for reform The culmination of these efforts was the academic revolution of the 1960s which transformed Annapolis into an elite engineering college Midshipmen and their officers occasionally resisted changes that undercut their most cherished traditions including plebe indoctrination Ironically most core values of the academy culture remained similar to what they had always been including the emphasis on career service and loyalty to one's shipmates Fomey's book uses all original sources including a thorough survey of graduates from these years

Montgomery, 2018-12-05 Celeste Parrish and Educational Reform in the Progressive Era South follows a Civil War orphan s transformation from a Southside Virginia public school teacher to a nationally known progressive educator and feminist In this vital intellectual biography Rebecca S Montgomery places feminism and gender at the center of her analysis and offers a new look at the postbellum movement for southern educational reform through the life of Celeste Parrish Because Parrish s life coincided with critical years in the destruction and reconstruction of the southern social order her biography provides unique opportunities to explore the links between southern nationalism reactionary racism and gender discrimination Parrish s pursuit of higher education and a professional career pitted her against male opponents of coeducation who regarded female and black dependency as central to southern regional distinctiveness When coupled with women s lack of formal political power this resistance to gender equality discouraged progress and lowered the quality of public education throughout the South The marginalization of women within the reform movement headed by the Conference for Education in the South further limited women s contributions to regional change Although men welcomed female participation in grassroots organization much of women s work was segregated in female networks and received less public acknowledgement than the reform work conducted by men Despite receiving little credit for their accomplishments by working on the margins women were able to use the southern movement and its philanthropic sponsors as alternate sources

of influence and power By exploring the consequences of gender discrimination for both educational reform and the influence of southern progressivism Rebecca S Montgomery contributes a nuanced understanding of how interlocking hierarchies of power structured opportunity and influenced the shape of reform in the U S South      Quality and Qualities: Tensions in Education Reforms Clementina Acedo, Don Adams, Simona Popa, 2012-09-07

Quality and Qualities Tensions in Education Reforms is a provocative call for understanding and further exploring the elusive concept of quality in education Although education quality has acquired high priority in the past few decades the multiplicity of conceptualizations of quality also reflects the concerns and foci of multiple stakeholders Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it Two main questions persist who benefits from particular policies focused on quality And what are the potential tradeoffs between a focus on quality equitable distribution of education and inclusion of various traditional expectations This book explores notions of quality as understood within various systems of national formal and nonformal education Also it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries In all cases specific national issues and concerns compete with global agendas Challenges to quality that are given particular attention in the book chapters include changing definitions of quality high expectations for education and issues with implementation and the introduction of English as a means to achieve quality in a globalizing world Special attention is also given to possible actions that support a more equitable education without ignoring the requisite of quality The final chapter suggests three models choices for seeking higher quality and guiding the educational future of nations      The Politics of Educational Reform in Ghana Maxwell A. Aziabah, 2018-07-09

This book comprises six main chapters and addresses the core research question How can the endurance of academic bias in Ghana s secondary education system be explained in the context of educational reform versus change of government concurrence Six sub questions have subsequently been derived from the core research question enabling a comprehensive and rigorous treatment of the subject matter of investigation The manuscript adopts an historical institutionalism approach combining path dependency with partisan theory in explicating structural persistence in the secondary school system in Ghana A case study methodological design procedure has been employed in the investigation of three episodes of educational reform anchored on qualitative content analysis as the main data reduction mechanism      *Education Reform and Education Policy in East Asia* Ka-ho Mok, 2006-06-28

The Politics of Structural Education Reform Keith A. Nitta, 2008-01-07 Education policymaking is traditionally seen as a domestic political process The job of deciding where students will be educated what they will be taught who will teach them and how it will be paid for clearly rests with some mix of district state and national policymakers This book seeks to show how global trends have produced similar changes to very different educational systems in the United States and Japan Despite different historical development social norms and institutional structures the U S and Japanese education systems have been restructured over the past dozen years not just incrementally but in ways that have transformed traditional power arrangements Based on 124 interviews this book examines two restructuring episodes in U S education and two restructuring episodes in Japanese education The four episodes reveal a similar politics of structural education reform that is driven by symbolic action and bureaucratic turf wars which has ultimately hindered educational improvement in both countries

**Education Reform in Japan** Leonard James Schoppa, 2002-03-11 The Japanese education system while widely praised in western countries is subject to heavy criticism within Japan Education Reform in Japan analyses this criticism and explains why proposed reforms have failed The author shows how the Japanese policy making process can become paralysed when there is disagreement and argues that this immobilism can affect other areas of Japanese policy making
