Families in War and Peace Sarah C. Chambers,2015-05-29 In Families in War and Peace Sarah C Chambers places gender analysis and family politics at the center of Chile s struggle for independence and its subsequent state building Linking the experiences of both prominent and more humble families to Chile s political and legal history Chambers argues that matters such as marriage custody bloodlines and inheritance were crucial to Chile s transition from colony to nation She shows how men and women extended their familial roles to mobilize kin networks for political ends both during and after the Chilean revolution From the conflict s end in 1823 until the 1850s the state adopted the rhetoric of paternal responsibility along with patriarchal authority which became central to the state building process Chilean authorities Chambers argues

garnered legitimacy by enacting or enforcing paternalist laws on property restitution military pensions and family maintenance allowances all of which provided for diverse groups of Chileans By acting as the fathers of the nation they aimed to reconcile the greater Chilean family and form a stable government and society **The Connoisseur** ,1924 *Including Families and Communities in Urban Education* Catherine Hands,Lea Hubbard,2011-04-01 The work of school family and community partnerships is complex and messy and demands a thoughtful and deep investigation Currently parent and community involvement does not draw on school reform and educational change literature and conversely the school change literature often ignores the crucial role that communities play in educational reform This edited volume focuses on structural considerations regarding education and the school communities school level and family culture and the interrelationships between the agency and actions of school personnel family members community citizens and students This book extends the dialogue on school reform by looking at parent and community engagement initiatives as part of the school reform literature The contributors illustrate the negative impact on students and their education when assumptions made by school personnel regarding the organization of education the nature of families and the contributions they should make to their children s education are not challenged *Of Irish Descent* Catherine Nash,2022-09-01 What does it mean to be of Irish descent What does Irish descent stand for in Ireland In Northern Ireland In the United States How are the categories of native and settler and accounts of ethnic origin being refigured through popular genealogy and population genetics *Of Irish Descent* addresses these questions by exploring the contemporary significance of ideas about ancestral roots origins and connections Moving from the intimacy of family stories and reunions to disputed state policies on noble titles and new applications of genetic research Nash traces the place of ancestry in interconnected geographies of identity familial ethnic national and diasporic Underlying these different practices and narratives are potent and profoundly political questions about who counts as Irish and to whom Ireland belongs Examining tensions between ideas of plurality and commonality difference and connection that run through the culture and science of ancestral origins *Of Irish Descent* is an original and timely exploration of new configurations of nation and diaspora as communities of shared descent *A Companion to the Huguenots* Raymond A. Mentzer,Bertrand Van Ruymbeke,2016-02-02 The Huguenots are among the best known of early modern European religious minorities Their suffering in 16th and 17th century France is a familiar story The flight of many Huguenots from the kingdom after 1685 conferred upon them a preeminent place in the accounts of forced religious migrations Their history has become synonymous with repression and intolerance At the same time Huguenot accomplishments in France and the lands to which they fled have long been celebrated They are distinguished by their theological formulations political thought and artistic achievements This volume offers an encompassing portrait of the Huguenot past investigates the principal lines of historical development and suggests the interpretative frameworks that scholars have advanced for appreciating the Huguenot experience **Multiethnicity and Multiethnic Families** Hamilton McCubbin,Krystal Ontai,Lisa Kehl,2010-01-19 This

book and its contributing scientists address core theoretical conceptual developmental identity and policy issues surrounding the changing ethnic profile of American families Guided by the increasing number of cross cultural adoptions interracial marriages and the resulting multiethnic families and children social and behavioral scientists provide both scientific documentation and insights about and into these emerging family systems their dynamics challenges and interactions with society and in so doing legitimate this line of scientific inquiry Their work organized and presented in a coherent form sets the stage for the advancement of theory research public policy and practice in pursuit of understanding and addressing their needs Lesbian Step Families Ellen Cole, Esther D Rothblum, Janet M Wright, 2013-11-12

Lesbian Step Families An Ethnography of Love explores five lesbian step families definitions of the step parent role and how they accomplish parenting tasks cope with homophobia and define and interpret their experiences An intensive feminist qualitative study the book offers guidelines for counselors and lesbian step families for creating healthy functioning family structures and environments It is the first book to concentrate exclusively on lesbian step families rather than on lesbian mothering in general In Lesbian Step Families An Ethnography of Love you ll explore in detail the different kinds of step relationships that are developed and what factors may lead to the different types of step mothering in lesbian step families The book helps you understand these relationships and parent roles through in depth discussions of how a step mother and legal mother who live together negotiate and organize parenting and homemaking tasks how members of lesbian step families define and create the step mother role strategies family members use to define and cope with oppression how sexism is transmitted within the family and how mothering may limit and or contribute to female liberation the opinions and viewpoints of the children of these families The findings in Lesbian Step Families An Ethnography of Love challenge traditional views of mothering and fathering as gender and biologically based activities they indicate that lesbian step families model gender flexibility and that the mothers and step mothers share parenting both traditional mothering and fathering tasks This allows the biological mother some freedom from motherhood as well as support in it With insight such as this you will be prepared to help a client a loved one or yourself develop and maintain healthy family relationships Family Life Now Kelly J. Welch, 2020-10-08

Family Life Now is a candid thoughtful examination of marriages families and intimate relationships that follows the Family Life Education framework Written in a student friendly conversational style the text encourages readers to draw upon their own backgrounds and experiences to understand theories and concepts vital to the family sciences Author Kelly J Welch incorporates scholarship from the social and behavioral sciences to cover topics that are important to students today such as LGBTQ individuals and relationships cohabitating and financial compatibility with a partner This title is accompanied by a complete teaching and learning package **Centuries of Child Labour** Marjatta Rahikainen, 2017-07-05

Most historical studies of child labour have tended to confirm a narrative which witnesses the gradual disappearance of child labour in Western Europe as politicians and social reformers introduced successive legislation gradually removing children from the

workplace This approach fails to explain the return or continuance of child labour in many affluent European societies Centuries of Child Labour explains changes in past child labour and attitudes to working children in a way that helps explain the continued survival of the practice from the seventeenth through to the late twentieth centuries Centuries of Child Labour conveys a richer sense of child labour by comparing the experiences of the Northern European periphery to the paradigmatic cases of Britain and France The northern cases drawing heavily on empirical evidence from Sweden Finland and Russia test received ideas of child labour through comparisons with Britain France Germany Italy and Spain Presenting the children themselves as the main protagonists rather than the law makers industrialists and social commentators of the time Marjatta Rahikainen provides fresh information and perspectives offering revelations to readers familiar only with the situation in France and Britain

New forms of transnational mobility and diasporic belonging have become emblematic of a supposed global condition of uprootedness Yet much recent theorizing of our so called postmodern life emphasizes movement and fluidity without interrogating who and what is on the move This original and timely book examines the interdependence of mobility and belonging by considering how homes are formed in relationship to movement It suggests that movement does not only happen when one leaves home and that homes are not always fixed in a single location Home and belonging may involve attachment and movement fixation and loss and the transgression and enforcement of boundaries What is the relationship between leaving home and the imagining of home itself And having left home what might it mean to return How can we re think what it means to be grounded or to stay put Who moves and who stays What interaction is there between those who stay and those who arrive and leave Focusing on differences of race gender class and sexuality the contributors reveal how the movements of bodies and communities are intrinsic to the making of homes nations identities and boundaries They reflect on the different experiences of being at home leaving home and going home They also explore ways in which attachment to place and locality can be secured as well as challenged through the movements that make up our dwelling places Uprootings Regroundings Questions of Home and Migration is a groundbreaking exploration of the parallel and entwined meanings of home and migration Contributors draw on feminist and postcolonial theory to explore topics including Irish Palestinian and indigenous attachments to soils of significance the making of and trafficking across European borders the female body as a symbol of home or nation and the shifting grounds of queer migrations and creole identities This innovative analysis will open up avenues of research an
