**The Production of Difference** David R. Roediger, Elizabeth D. Esch, 2012-06-01 In 1907 pioneering labor historian and economist John Commons argued that U S management had shown just one symptom of originality namely playing one race against the other In this eye opening book David Roediger and Elizabeth Esch offer a radically new way of understanding the history of management in the United States placing race migration and empire at the center of what has sometimes been narrowly seen as a search for efficiency and economy Ranging from the antebellum period to the coming of the Great Depression the book examines the extensive literature slave masters produced on how to manage and develop slaves explores what was perhaps the greatest managerial feat in U S history the building of the transcontinental railroad which pitted Chinese and Irish work gangs against each other and concludes by looking at how these strategies survive today in the management of hard low paying dangerous jobs in agriculture military support and meatpacking Roediger and Esch convey what slaves immigrants and all working people were up against as the objects of managerial control Managers explicitly ranked racial groups both in terms of which labor they were best suited for and their relative value compared to others The authors show how whites relied on such alleged racial knowledge to manage and believed that the lesser races could only benefit from their tutelage These views wove together managerial strategies and white supremacy not only ideologically but practically every day at workplaces Even in factories governed by scientific management the impulse to play races against each other and to slot workers into jobs categorized by race constituted powerful management tools used to enforce discipline lower wages keep workers on dangerous jobs and undermine solidarity Painstakingly researched and brilliantly argued The Production of Difference will revolutionize the history of labor race in the United States

**Wild: The Life of Peter Beard: Photographer, Adventurer, Lover** Graham Boynton, 2022-10-11 Graham Boynton's Wild is the definitive biography of photographer Peter Beard a larger than life icon who pushed the boundaries of art and scandalized international high society with his high profile affairs He was the original 20th century enfant terrible with the looks of a Greek god who blazed like a comet across the worlds of art photography and fame The scion of several old WASP fortunes he was by instinct an adventurer and the more dangerous the escapade the better whether he was hunting big game in Africa ingesting epic quantities of drugs or pursuing the most beautiful women in the world Among his friends were Jackie Onassis Andy Warhol and Francis Bacon When Peter Beard died in 2020 after mysteriously disappearing from his Montauk home he remained an enigma to even his closest friends Journalist and author Graham Boynton was a friend for more than 30 years spending time with Beard at his bush camp in Africa in London and at his Long Island home From hundreds of Boynton's

interviews with Beard's closest friends, former lovers, and fellow artists comes this intimate portrait of a man Sir Mick Jagger called a visionary Farming across Borders Timothy P. Bowman, Kristin Hoganson, Laura Hooton, Josh MacFadyen, Todd Meyers, Peter S. Morris, Andrew Dunlop, Alicia Marion Dewey, John Weber, Sonia Hernández, Rosa E. Cobos, Matt Caire-Pérez, Paige Raibmon, Jason McCollom, Thomas D. Isern, Suzanne Kelley, Anthony Carlson, Stephen Mumme, Tisa Anders, 2017-10-26 Farming across Borders uses agricultural history to connect the regional experiences of the American West, northern Mexico, western Canada, and the North American side of the Pacific Rim now writ large into a broad history of the North American West. Case studies of commodity production and distribution, trans-border agricultural labor, and environmental change unite to reveal new perspectives on a historiography traditionally limited to a regional approach. Sterling Evans has curated nineteen essays to explore the contours of big agricultural history. Crops and commodities discussed include wheat, cattle, citrus, pecans, chiles, tomatoes, sugar beets, hops, henequen, and more. Toiling over such crops of course were the people of the North American West, and as such the contributing authors investigate the role of agricultural labor from braceros and Hutterites to women working in the sorghum fields and countless other groups in between. As Evans concludes, society as a whole, no matter in what country, often ignores the role of agriculture in the past and the present. Farming across Borders takes an important step toward cultivating awareness and understanding of the agricultural, economic, and environmental connections that loom over the North American West regardless of lines on a map. In the words of one essay, we are tied together in a hundred different ways. From Telegrapher to Titan Valerie Knowles, 2004-03 William Van Horne, general manager of the CPR, pushed through construction of the transcontinental line and went on to become company president. **Glacier's Historic Hotels and Chalets: Room with a View** Ray Djuff, Chris Morrison, This unique book traces the creation and use of Great Northern Railway's hotels and chalet colonies in Glacier National Park and Prince of Wales Hotel in Waterton Lakes National Park.
