Internal Migration as a Life-Course Trajectory Aude Bernard, 2022-06-20 This book responds to growing calls to conceptualise and analyse internal migration as a trajectory that unfolds over the life course of individuals rather than a series of discrete events. It combines macro and micro modes of analysis into a cohort framework to explore how individuals transition from one migration to the next. The book presents new methodological developments in longitudinal analysis and applies them to internal migration in 27 European countries. It demonstrates that the traditional dichotomy between migrants and non migrants conceals a wide range of migration behaviour and heterogeneity among repeat migrants. It also reveals a continuity of migration behaviour being exposed to the challenges and benefits of migration early in life predisposes individuals toward migration in adulthood. By adopting a cohort approach to migration coupled with state of the art methods and novel concepts, this book provides new insights into internal migration for graduate students, academics and policymakers interested in understanding migration behaviour in Europe and beyond. *Internal Migration* Alan A.

Brown, Egon Neuberger, 2014-05-10 *Internal Migration: A Comparative Perspective* is the third in a series of publications sponsored by the Committee on Comparative Urban Economics. This book highlights the integral migration in several regions of the world and the problems in regions of varying levels of economic development and with different economic systems. This text is organized into five parts encompassing 24 chapters. The introductory part describes the interactions between migration and socioeconomic development along with the functions and dynamics of the migration process. The next part explores the methodological aspects of migration including the models, measurements and theoretical reflections of internal migration. Other parts discuss the effect of migration on regions and individuals. These chapters also present some case studies of internal migration in the West and Eastern Europe. The demographic effect of migration on an urban population, the ethnicity as a barrier to migration and the influence of social and geographical mobility on the stability of kinship systems are reviewed. The concluding part relates a comparative disciplinary and systemic view of migration. This book will be of great value to economists, sociologists and social workers. *Structures and Contingencies in Computerized Historical Research*

Kali Chittibabu, 2015-10-05 The problem of migration is a prime example of a subject that requires the skills and approaches of scholars from several disciplines such as anthropology, demography, economics, sociology, law, political science and history. This book explores the importance of historical investigation into migration which can be traced back to the pre-modern period. It continues to be an important socio-economic phenomenon in most parts of the world though more than the internal movement of people, the international angle has captured the global imagination of the scholars interested in migration.

studies In India both migration within the country and to outside the country is distinctly traceable back to the 19th century In contrast to today s high figures of internal migration the India of this period witnessed the mass migration of labourers to overseas territories in the wake of migration of surplus capital an inevitable result of the Industrial Revolution in the West Relevant to discussions of internal migration in Andhra is the question of whether the people of this area were normally inclined towards mobility or were averse to it during the period under scrutiny This book discusses the causes of the comparative immobility of the people of Andhra in relation to the wider high migration trends at the time including their traditional attachment to their native locale Repositioning North American Migration History Marc S. Rodriguez,2004 An in depth look at trends in North American internal migration This volume gathers established and new scholars working on North American immigration transmigration internal migration and citizenship whose work analyzes the development of migrant and state level institutions as well as migrant networks With contemporary migration research most often focused on the development of transnational communities and the ways international migrants maintain relationships with their sending region that sustain the circularflow of people ideas and traditions across national boundaries it is useful to compare these to similar patterns evident within the terrain of internal migration To date however international and internal migration studies have unfolded in relative isolation from one another with each operating within these distinct fields of expertise rather than across them Although there has been some important linking there has not been a recent major consideration of human migration that works across and within the various borders of the North American continent Thus the volume presents a variety of chapters that seek to consider human migration in comparative perspective across the internal international divide Marc S Rodriguez is Assistant Professor of History at Princeton University Donna R Gabbaccia is the Mellon Professor of History at the University of Pittsburgh James R Grossman is theVice President of Research and Education at the Newberry Library Chicago Contributors Josef Barton Wallace Best Donna Gabbaccia James Gregory Tobias Higbie Mae Ngai Walter Nugent Annelise Orleck Kunal Parker Kimberly Phillips Bruno Ramirez Marc Rodriguez Repositioning North American Migration History is a volume in Studies in Comparative History sponsored by Princeton University s Shelby Cullom Davis Center forHistorical Studies **International Handbook on Internal Migration** Charles B. Nam,William J. Serow,David F. Sly,1990-03-20 These 21 national case studies of internal migration were written especially for this unusual and useful volume The resulting blend of the general and the particular especially when viewed across the 21 countries will be useful to a wide range of basic and applied social scientists Choice Social and economic change within countries can often be traced through the movement of population at the national level The abandonment or return to inner cities the volume of movement within and between rural and urban areas the movement of the elderly all of these factors and others combine to give us an important picture of national change The International Handbook on Internal Migration is a compilation of 21 case studies each focusing on a different country each written specifically for this book by an expert in the field Extensively illustrated

with tables and figures the book will serve as an invaluable reference text It will also be of great interest to students of the social sciences especially sociology economics and geography Studies in American Historical Demography Maris A. Vinovskis,2013-09-03 Studies in American Historical Demography is a collection of the best studies in American historical demography The book discusses some methodological and conceptual considerations in the trends in American historical demography the demographic history of colonial New England and the marital migration in Essex County Massachusetts in the colonial and early federal periods The text also describes the historical trends in parental power and marriage patterns in Hingham Massachusetts the use of demographic data that are or may be retrieved from colonial New England gravestones and the mortality rates and trends in Massachusetts Massachusetts The estimates of the vital rates of the United States black population during the 19th century the two parent household as well as the differential fertility in Madison County New York 1865 are also considered The book further tackles the socioeconomic determinants of interstate fertility differentials in the United States in 1850 and 1860 cohorts of native born Massachusetts women 1830 1920 and the demographic change and the life cycle of American families Historians demographers anthropologists economists and sociologists will find the book invaluable *Family Planning, Internal Migration and Urbanization in ECAFE Countries* United Nations.
