## History From Below:

History from Below Brigitta Bernet, Lutz Raphael, Benjamin Zachariah, 2025-07-21 What we know as history from below has long been considered a more democratic form of history writing and research than forms of history that have counted sometimes by default as elite and therefore by implication elitist But history from below also has a tendency towards populism an emphasis on authenticity on voices uncontaminated by elite narratives and a focus on the indigenous Apart from its having a long standing problem of finding sources to give voice to the underrepresented the question as to who can write about and therefore represent the people below and a possible focus in consequence on themes of blood soil and the Volk This volume explores over nine essays and an introductory thematic essay these tensions and dichotomies The purpose is to bring to the foreground a long standing danger of celebrating voices from below perhaps uncritically at times and therefore also of a romanticisation of those voices

*History from Below* Johannes Fabian, Kalundi Mango, Walter Schicho, 1990-01-01 Johannes Fabian with assistance from Kalundi Mango Administrator National Museum of Zaire and with linguistic notes by Walter Schicho University of Vienna An extraordinary linguistic and sociopolitical document this is a history of colonization written by the colonized about the colonized and for the colonized The original text a history of what is now Lubumbashi in the Shaba region of Zaire is reproduced in exact facsimile in Part 1 The period covered is from the beginning of Belgian colonization to 1965 The text was commissioned by an association of former domestic servants and written or compiled by one Andre Yav The facsimile text is followed by linguistic notes provided by W Schicho on the variety of Swahili used by the author In Part 2 this amazing document is twice translated first into an oralized version in current Shaba Swahili and second into English Numerous historical and linguistic notes make the text accessible to the non specialist While Parts 1 and 2 are of particular interest to linguists Part 3 covers a wider area of intellectual concerns It is an essay analyzing the social conditions literary means and political purposes and importance of the history Of interest to linguists historians sociologists and political scientists

*Ancient History from Below* Cyril Courrier, Julio Cesar Magalhães de Oliveira, 2021-09-30 If ancient history is particularly susceptible to a top down approach due to the nature of our evidence and its traditional exploitation by modern scholars another ancient history from below is actually possible This volume examines the possibilities and challenges involved in writing it Despite undeniable advances in recent decades our slowness to reconstruct plausible visions of almost any aspect of society beyond the top most strata of wealth power or status as Nicholas Purcell has put it remains a persistent feature of the field Therefore this book concerns a historical field and social groups that are still today neglected by modern scholarship However writing ancient history from below means much more than taking into account the anonymous masses the subaltern classes and the non elites Our task is also in the felicitous expression coined by Walter Benjamin to brush history against the grain to rescue the viewpoint of the subordinated the traditions of the oppressed In other words we should understand the bulk of ancient populations in light of their own experience and their own reactions to

that experience But how do we do such a history What sources can we use What methods and approaches can we employ What concepts are required to this endeavour The contributions mainly engage with questions of theory and methodology but they also constitute inspiring case studies in their own right ranging from classical Greece to the late antique world This book is aimed not only at readers working on classical Greece republican and imperial Rome and late antiquity but at anyone interested in bottom up history and social and population history in general Although the book is primarily intended for scholars it will also appeal to graduate and undergraduate students of history archaeology and classical studies **Filming**

**History from Below** Efrén Cuevas, 2022-01-11 Traditional historical documentaries strive to project a sense of objectivity producing a top down view of history that focuses on public events and personalities In recent decades in line with historiographical trends advocating history from below a different type of historical documentary has emerged focusing on tightly circumscribed subjects personal archives and first person perspectives Efrén Cuevas categorizes these films as microhistorical documentaries and examines how they push cinema's capacity as a producer of historical knowledge in new directions Cuevas pinpoints the key features of these documentaries identifying their parallels with written microhistory a reduced scale of observation a central role given to human agency a conjectural approach to the use of archival sources and a reliance on narrative structures Microhistorical documentaries also use tools specific to film to underscore the affective dimension of historical narratives often incorporating autobiographical and essayistic perspectives and highlighting the role of the protagonists personal memories in the reconstruction of the past These films generally draw from family archives with an emphasis on snapshots and home movies Filming History from Below examines works including Peter Forgács's films dealing with the Holocaust such as *The Maelstrom* and *Free Fall* documentaries about the Israeli Palestinian conflict Rithy Panh's work on the Cambodian genocide films about the internment of Japanese Americans during the Second World War such as *A Family Gathering* and *History and Memory* and Jonas Mekas's chronicle of migration in his diary film *Lost Lost Lost*

What Went Wrong with "history from Below" Vinay Bahl, 2005 *Prés de l'id* While refuting contemporary fashionable discourse on History from below which is based on cultural determinism the author of the present volume urges scholars to use their own innate creativity as human agency collectively to build an alternative theoretical framework that can open up the possibility of creating an alternative state of being and alternative kinds of societies While suggesting one of many possible alternatives the author has attempted to reinstate in the present volume the notion of human agency as human being's innate capacity for creativity which is closely related to the concept of humaneness Author believes that such interpretation will open up the possibility of developing a new theoretical framework that will be devoid of binaries such as traditional modern core periphery progressive backward national global Based on these ideas the present volume is an attempt to show one of many possibilities of writing a history of the world from an alternative perspective derived from the experiences of the social formations cultural formations and class struggles in India The focus on India is important not merely as a local history

or colonial history because it represents the historical experiences of one billion plus people with all possible historical political economic and cultural scenarios and its interactions with many other societies over time Author hopes that suggestions hypothesized in this volume might help in writing histories everywhere of women working people oppressed people oppressed societies as well as of oppressive societies from the vantage point of their own societies and their interactions with other societies without using binary terms Such history writing will allow oppressed people and oppressed societies to break away from the prevailing notion of inevitable fate about their present miserable condition and hopeless future choices as they are made to believe about the inevitability of globalization about the so called development and their consequences

Candida Royalle and the Sexual Revolution: A History from Below Jane Kamensky, 2024-03-12 Finalist for the 2024 National Book Critics Circle Award for Biography Assiduously researched elegantly written Margaret Talbot The New Yorker Acclaimed historian Jane Kamensky chronicles an indelible twentieth century American life and offers an entirely new understanding of the so called sexual revolution Whether in front of the camera or behind it Candice Vadala understood herself as both an artist and an entrepreneur As Candida Royalle 1950 2015 underground actress porn star producer of adult movies and staunch feminist she made a business of pleasure She helped crystalize the broader hedonistic turn in American life in the second half of the twentieth century a period when the rules of sex were rewritten when the white hot sex wars cleaved feminism and realigned American politics when Big Freud Big Drugs and Big Porn all came into looming focus when the sex industry of the 1970s and 80s radically upended conventional understandings of law technology culture love and human desire The sexual revolution was Royalle s war even when other avowed feminists exited the field or became her opponents and pornography emerged as the arena in which she would wage it With the founding of her adult film company Femme Productions in 1984 Royalle became an owner of the means of pornographic production infusing her sets with the ideals of labor feminism On screen and off she was by turns exuberant and thoughtful self possessed and gleefully shameless A trailblazer who lived along the cultural fault lines of her generation she danced at Woodstock marched for women s liberation survived the AIDS crisis and became a talk show regular interviewed by Phil Donahue Dr Ruth Westheimer Morton Downey Jr Jane Pauley and many others As a performer director producer and writer she moved the needle of her industry But she never transcended the politics of pleasure With full access to Royalle s remarkable archive historian Jane Kamensky has spent years examining the intersection of Royalle s life with the clashes that have defined her era and ours Deeply informed by these never before studied materials Kamensky explodes the conventions of biography with its assumptions about who makes history and how Written with cinematic verve Candida Royalle and the Sexual Revolution evokes Royalle s times in their broadest contours as Kamensky traces the rise of an improbable heroine who broke the mold and was herself broken in turn
