Envisioning PMO & Project Management Through A Juggler's Eye: Part-1 Abhishek Mishra, 2020-12-27 The Nonpareil of the Project Managers is in the way they express through their communication planning coordination persuasiveness and attitude The Project managers are the Jugglers because Jugglers can adroitly manage multiple activities simultaneously So as the Project Managers are they are the best strategist in this entire universe apart from this the planning and coordination of a Project Manager is always class apart The problem with Project Managers and the Project Management Office role is that they are always treated as overhead and always underrated To summarize they are the underdog who can hold the flag until the fort's last brick but they have never been treated similarly I have always been trying to change the leaders mindset and thoughts through my articles so far This book will run through all those articles and help you feel my thoughts experience knowledge and perspective on Project Management and PMO If thoughts are nurtured with the right attitude and expressed concisely it will have immense power to change the process and the entire world By following this principle I have been expressing my thoughts and ideas similarly and I could only see the difference in people's talk Still I am sure one day things change on the ground of reality whereas things will change at the forefront not only in people's conversation I hope this book will nurture your thoughts and get you the exact feel of my thoughts Lastly I hope this book will help the aspiring PM's and PMO's in the right way to groom them and present them in a way where you will not become a Project manager but you can also become a front runner for a future great leader you can become an influencer
