James Collins Royal Entanglements:

James Collins Paula F. Winskye, 2003-01-01 James Collins is hired to protect Crown Princess Diana Nadia Sofia of Taraverde He is an unlikely choice for the job a genius with only expert marksmanship and a talent for martial arts to recommend him Even though he questions the king s motivation for hiring him he is confident that he can be a competent bodyguard And he recognizes that the job will make an impressive addition to his resume The experience will help him land other jobs which have been out of his reach because he is considered too young Page 4 of cover *Letters of Seamen in the Wars with France, 1793-1815* Helen Watt (Archivist), Anne Hawkins, 2016 Letters of seamen below the rank of commissioned officer which tell us a great deal about shipboard life and about seamen s attitudes Moral Entanglements Stefan Bargheer, 2018-04-05 At the center of Stefan Bargheer s account of bird watching field ornithology and nature conservation in Britain and Germany stands the question of how values change over time and how individuals develop moral commitments Using life history data derived from written narratives and oral histories *Moral Entanglements* follows the development of conservation from the point in time at which the greatest declines in bird life took place to the current efforts in large scale biodiversity conservation and environmental policy within the European Union While often depicted as the outcome of an environmental revolution that has taken place since the 1960s Bargheer demonstrates to the contrary that the relevant practices and institutions that shape contemporary conservation have evolved gradually since the early nineteenth century *Moral Entanglements* further shows that the practices and institutions in which bird conservation is entangled differ between the two countries In Britain birds derived their meaning in the context of the game of bird watching as a leisure activity Here birds are now as then the most popular and best protected taxonomic group of wildlife due to their particularly suitable status as toys in a collecting game turning nature into a playground In Germany by contrast birds were initially part of the world of work They were protected as useful economic tools rendering services of ecological pest control in a system of agricultural production modeled after the factory shop floor Based on this extensive analysis Bargheer formulates a sociology of morality informed by a pragmatist theory of value **Something of a Peasant Paradise?** Gregory M.W. Kennedy, 2014-03-01 Were Acadians better off than their rural counterparts in old regime France Did they enjoy a Golden Age To what degree did a distinct Acadian identity emerge before the wars and deportations of the mid eighteenth century In *Something of a Peasant Paradise* Gregory Kennedy compares Acadie in North America with a region of western France the Loudunais from which a number of the colonists originated Kennedy considers the natural environment the role of the state the economy the seigneurie and local governance in each place to show that similarities between the two societies have been greatly underestimated or ignored The Acadian colonists and the people of the Loudunais were frontier peoples with dispersed settlement patterns based on kin groups who sought to make the best use of the land and to profit from trade opportunities Both societies were hierarchical demonstrated a high degree of political agency and employed the same

institutions of local governance to organize their affairs and negotiate state demands Neither group was inherently more prosperous egalitarian or independent minded than the other Rather the emergence of a distinct Acadian identity can be traced to the gradual adaptation of traditional methods institutions and ideas to their new environmental and political situations A compelling comparative analysis based on archival evidence on both sides of the Atlantic Something of a Peasant Paradise Challenges the traditional historiography and demonstrates that Acadian society shared many of its characteristics with other French rural societies of the period

Regulating Knowledge in an Entangled World Fokko Jan Dijksterhuis, 2022-11-11 Regulating Knowledge in an Entangled World uses case studies from the sixteenth to the eighteenth centuries to study knowledge transfer in early modern knowledge societies In the early modern period the scale intensity and reach of exchange exploded This volume develops a historicised understanding of knowledge transfer to shed new light on these fundamental changes By looking at the preconditions of knowledge transfer it shifts the focus from the objects circulating to the interactions by which they circulate and the way actors cement their relations The novelty of this approach shows how rules and regulations were enablers of knowledge circulation rather than impediments The chapters identify changing patterns of knowledge transfer in cases such as sixteenth century Venice the Spanish Empire in the Americas continental Habsburg early seventeenth century Dutch at sea and the Offices of the Catholic Church Through the perspective of regulating this volume advances the historiography of knowledge circulation by forging a new combination of histories of circulation and of institutions By bringing together historians from intellectual history economic history book history the history of science religion art and material culture this volume is useful for students and scholars interested in early modern knowledge societies and changing patterns of knowledge transfer

The Mongol Archive in Late Medieval France Mark Cruse, 2025-02-15 The Mongol Archive in Late Medieval France is the first comprehensive study of contact between France and the Mongols in the late Middle Ages As these realms expanded across Eurasia the French

through crusade and settlement the Mongols through conquest their encounters altered each other's understanding of the world and their place in it The Mongol influence on French culture is visible in what Mark Cruse calls the Mongol archive a wide range of materials including chronicles crusade treatises encyclopedias manuscript illuminations maps romances and travel accounts revealing how the French court made sense of a people previously unknown to the European intellectual tradition Cruse mines this archive of Franco-Mongol contact to reassess France's place in the continental history of medieval Eurasia By comparing the French and Mongol courts Cruse shows how their similarities allowed meaningful communication between them and highlights the surprising connections diplomatic intellectual and genealogical across vast distances The library of King Charles V r 1364-1380 one of the largest in medieval Europe is a monument to the richness of these encounters which anticipate the global interconnectedness of the modern world Ultimately the innovative approach in *The Mongol Archive in Late Medieval France* toward French conceptions of and relations with the Mongols demonstrates how a global perspective transforms our understanding of the medieval world *The Lancet*, 1862 ***Bibliotheca Cornubiensis*** Georg-Clement Boase, 1882 *Bibliotheca Cornubiensis* George Clement Boase, 1882 *British Literature of World War I, Volume 5* Andrew Maunder, Angela K Smith, Jane Potter, Trudi Tate, 2017-09-29 Given the popular and scholarly interest in the First World War it is surprising how little contemporary literary work is available This five volume reset edition aims to redress this balance making available an extensive collection of newly edited short stories novels and plays from 1914-19
