<u>The Historical Method of Herodotus</u> Donald Lateiner,1989-01-01 Herodotus was the first writer in the West to conceive the value of creating a record of the recent past He found a way to co ordinate the often conflicting data of history ethnology and culture The Historical Method of Herodotus explores the intellectual habits and the literary principles of this pioneer writer of prose Donald Lateiner argues against the perception that Herodotus work seems amorphous and ill organized that the Histories contain their own definition of historical significance He examines patterns of presentation and literary structure in narratives speeches and direct communications to the reader in short the conventions and rhetoric of history as Herodotus created it This rhetoric includes the use of recurring themes the relation of speech to reported actions indications of doubt stylistic idiosyncrasies frequent reference to nonverbal behaviours and strategies of opening and ending Lateiner shows how Herodotus sometimes suppresses information on principle and sometimes compels the reader to choose among contending versions of events His inventories of Herodotus methods allow the reader to focus on typical practice not misleading exception In his analysis of the structuring concepts of the Histories Lateiner scrutinizes Herodotean time and chronology He considers the historian s admiration for ethnic freedom and autonomy the rule of law and the positive values of conflict Despite these apparent biases he argues the text s intellectual and moral preferences present a generally cool and detached account from which an authorial personality rarely emerges The Historical Method of Herodotus illuminates the idiosyncrasies and ambitious nature of a major text in classics and the Western tradition and touches on aspects of historiography ancient history rhetoric and the history of ideas **The Historical Method of Herodotus** Donald Lateiner,1989 Herodotus was the first writer in the West to conceive the value of creating a record of the recent past He found a way to co ordinate the often conflicting data of history ethnology and culture The Historical Method of Herodotus explores the intellectual habits and the literary principles of this pioneer writer of prose Donald Lateiner argues against the perception that Herodotus work seems amorphous and ill organized that the Histories contain their own definition of historical significance He examines patterns of presentation and literary structure in narratives speeches and direct communications to the reader in short the conventions and rhetoric of history as Herodotus created it This rhetoric includes the use of recurring themes the relation of speech to reported actions indications of doubt stylistic idiosyncrasies frequent reference to nonverbal behaviours and strategies of opening and ending Lateiner shows how Herodotus sometimes suppresses information on principle and sometimes compels the reader to choose among contending versions of events His inventories of Herodotus methods allow the reader to focus on typical practice not misleading exception In his analysis of the structuring concepts of the Histories Lateiner scrutinizes Herodotean time and chronology He considers the historian s admiration for ethnic freedom and autonomy the rule of law and the positive values of conflict Despite these apparent biases he argues the text s intellectual and moral preferences present a generally cool and detached account from which an

Gruen,2011 Cultural identity in the classical world is explored from a variety of angles Herodotus: Histories Book IX Herodotus,2002-12-05 Book IX of Herodotus Histories provides the conclusion and climax to his work as the victories at Plataea and Mycale complete the improbable Greek victory over Persia The major themes of the work are all here echoed modified and revisited and Book IX is thus essential for exploring its meaning or range of possible meanings This commentary the first in English devoted solely to Book IX in over a century treats Herodotus work as both an historical narrative and a work of literature incorporating the results of recent scholarly work in the fields of Greek history and historiography It contains a Greek text together with detailed philological literary and historical notes designed to assist the intermediate and advanced Greek student It will also be of use to graduate students and scholars *Historiography and Historical Methods* Mr. Rohit Manglik,2024-02-14 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Greek Historians** John Marincola,2001-12-13 This survey of more recent work on Herodotus

Thucydides and Polybius synthesises some of the most important research from the last few decades   <u>Fifty Key Thinkers on History</u> Marnie Hughes-Warrington,2014-09-04 Fifty Key Thinkers on History is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker s approach to history and how others have engaged with it a list of their major works and a list of resources for further study   <u>The Yahwist</u> John Van Seters,2013-10-21 This book on the Yahwist comes at the end of a long career of research on the Pentateuch in general and the Yahwist in particular Van Seters s interest in the Yahwist was stimulated by the 1964 presidential address of the Society of Biblical Literature given by Professor Fredrick Winnett Rethinking the Foundations which focused on the Yahwist in Genesis This interest followed a path of work on issues surrounding the Yahwist that culminated in three volumes Prologue to History The Yahwist as Historian in Genesis 1992 The Life of Moses The Yahwist as Historian in Exodus Numbers 1994 and A Law Book for the Diaspora Revision in the Study of the Covenant Code 2003 Over the last few years it has become clear to Van Seters that readers of the three volumes on the Yahwist which total more than 1 000 pages easily lose sight of the Yahwist s work as a whole and the way in which it provides a historical prologue and framework for D and the DtrH In this book Van Seters seeks to provide a summary sketch of the J history and to make clear how the Priestly corpus has been composed as a supplement to the Yahwist with a radically different form and point of view that has obscured the Yahwist s historical narrative and theological perspective Part one lays out in simple terms the basic form structure and theological perspective of the Yahwist s history where it has been interrupted by the inclusions of P and how it is integrated into DtrH The essays in part two are intended to bring the scholarly discussion of Van Seters s earlier books on the Yahwist more up to date and their order corresponds roughly to the order of the narrative in the first part of the book Some of these articles have been published previously but others are new and quite recent including The Yahwist as Historian   **Military Leaders and Sacred Space in Classical Greek Warfare** Sonya Nevin,2016-11-10 The ancient Greeks attributed great importance to the sacred during war and campaigning as demonstrated from their earliest texts Among the first four lines of the Iliad for example is a declaration that Apollo began the feud between Achilles and Agamemnon and sent a plague upon the Greek army because its leader Agamemnon had mistreated Apollo s priest In this first in depth study of the attitude of military commanders towards holy ground Sonya Nevin addresses the customs and conduct of these leaders in relation to sanctuaries precincts shrines temples and sacral objects Focusing on a variety of Greek kings and captains the author shows how military leaders were expected to react to the

sacred sites of their foes She further explores how they were likely to respond and how their responses shaped the way such generals were viewed by their communities by their troops by their enemies and also by those like Herodotus Thucydides and Xenophon who were writing their lives This is a groundbreaking study of the significance of the sacred in warfare and the wider culture of antiquity   Western Historiography in Asia Q. Edward Wang,Okamoto Michihiro,Longguo Li,2022-02-21 This volume provides a unique and critical perspective on how Chinese Japanese and Korean scholars engage and critique the West in their historical thinking It showcases the dialogue between Asian experts and their Euro American counterparts and offers valuable insights on how to challenge and overcome Eurocentrism in historical writing   **The Routledge Companion to Management Information Systems** Robert Galliers,Mari-Klara Stein,2017-08-15 The field of Information Systems has been evolving since the first application of computers in organizations in the early 1950s Focusing on information systems analysis and design up to and including the 1980s the field has expanded enormously with our assumptions about information and knowledge being challenged along with both intended and unintended consequences of information technology This prestige reference work offers students and researchers a critical reflection on major topics and current scholarship in the evolving field of Information Systems This single volume survey of the field is organized into four parts The first section deals with Disciplinary and Methodological Foundations The second section deals with Development Adoption and Use of MIS topics that formed the centrepiece of the field of IS in the last century The third section deals with Managing Organizational IS Knowledge and Innovation while the final section considers emerging and continuing issues and controversies in the field IS in Society and a Global Context Each chapter provides a balanced overview of current knowledge identifying issues and discussing relevant debates This prestigious book is required reading for any student or researcher in Management Information Systems academics and students covering the breadth of the field and established researchers seeking a single volume repository on the current state of knowledge current debates and relevant literature   The Fourth Gospel and the Manufacture of Minds in Ancient Historiography, Biography, Romance, and Drama Tyler Smith,2019-03-27 The Fourth Gospel and the Manufacture of Minds in Ancient Historiography Biography Romance and Drama is the first book length study of genre and character cognition in the Gospel of John Informed by traditions of ancient literary criticism and the emerging discipline of cognitive narratology Tyler Smith argues that narrative genres have generalizable patterns for representing cognitive material and that this has profound implications for how readers make sense of cognitive content woven into the narratives they encounter After investigating conventions for representing cognition in ancient historiography biography romance and drama Smith offers an original account of how these conventions illuminate the Johannine narrative s enigmatic cognitive dimension a rich tapestry of love and hate belief and disbelief recognition and misrecognition understanding and misunderstanding knowledge ignorance desire and motivation   Why Did They Write This Way? Katherine M. Stott,2008-11-15 This book examines the character and function of the documents mentioned in the biblical

texts in relation to comparable references in literature from wider antiquity Citing various references to written documents in the Hebrew Bible Stott takes into consideration both those references that may point to external sources for example the many literary citations in the books of Kings and Chronicles as well as certain other documents that play a role in the narrative such as the book of the law in 2 Kings the scrolls of Jeremiah and the tablets of the law The aim of this study is not to determine to which texts external to the world of the narrative if any these documents refer or to identify the content of these documents or to reconstruct their origins and historical development Instead the primary focus is to understand these references within their literary context asking why indeed they are mentioned at all and what purpose they serve in the narrative regardless of whether they existed or not in the external world or whether the stories about them have basis in historical reality as it happened **Greek Notions of the Past in the Archaic and Classical Eras** John Marincola,2012-07-31 This volume in The Edinburgh Leventis Studies series collects the papers presented at the sixth A G Leventis conference It engages with new research and new approaches to the Greek past and brings the fruits of that research to a wider audience Studia Patristica F. Edwards,Paul M. Parvis,2006 *Recognizing Miracles in Antiquity and Beyond* Maria Gerolemou,2018-04-23 In recent years scholars have extensively explored the function of the miraculous and wondrous in ancient narratives mostly pondering on how ancient authors view wondrous accounts i e the treatment of the descriptions of wondrous occurrences as true events or their use

More precisely these narratives investigate whether the wondrous pursues a display of erudition or merely provides stylistic variety sometimes such narratives even represent the wish of the author to grant a rational explanation to extraordinary actions At present however two aspects of the topic have not been fully examined a the ability of the wondrous miraculous to set cognitive mechanisms in motion and b the power of the wondrous miraculous to contribute to the construction of an authorial identity that of kings gods or narrators To this extent the volume approaches miracles and wonders as counter intuitive phenomena beyond cognitive grasp which challenge the authenticity of human experience and knowledge and push forward the frontiers of intellectual and aesthetic experience Some of the articles of the volume examine miracles on the basis of bewilderment that could lead to new factual knowledge the supernatural is here registered as something natural although strange the rest of the articles treat miracles as an endpoint where human knowledge stops and the unknown divine begins here the supernatural is confirmed Thence questions like whether the experience of a miracle or wonder as a counter intuitive phenomenon could be part of long term memory i e if miracles could be transformed into solid knowledge and what mental functions are encompassed in this process are central in the discussion   A History of Greek Literature Albin Lesky,1996-01-01 First published as Geschichte der Griechischen Literatur by Francke Verlag Bern T p verso
