China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty. The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture, society and economy and increasing coverage of contemporary China in the media. Our understanding of China's history has also been evolving. The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians. Now that the Chinese archives are open to researchers, there is a growing body of academic expertise on history in China that is open to western analysis and historical methods. This has in many ways changed the way that Chinese history, particularly the modern period, is viewed. The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day. Treating Chinese history in the broadest sense, the Encyclopedia includes coverage of the frontier regions of Manchuria, Mongolia, Xinjiang and Tibet that have played such an important role in the history of China. Proper and will also include material on Taiwan and on the Chinese diaspora. In A-Z format with entries written by experts in the field of Chinese Studies, the Encyclopedia will be an invaluable resource for students of Chinese history, politics and culture.

The Thought History in Remote Antiquity Period and The Three Dynasties (Xia, Shang and Zhou Dynasty) Li Shi, The book is the volume of The Thought History in Remote Antiquity Period and The Three Dynasties Xia, Shang and Zhou Dynasty among a series of books of Deep into China Histories. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c. 1600-1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c. 2070-1600 BC before the Shang but no writing is known from the period. The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046-256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. From Xia Dynasty to Qing Dynasty: An Overview of the History of Chinese Dynasties Zhi Dao, The book is the volume of From Xia Dynasty to Qing Dynasty: An Overview of the History of Chinese Dynasties among a series of books for China Classified Histories. *China's Northern Wei Dynasty, 386-535* Puning Liu, 2020-12-22. The Northern Wei was a dynasty which originated outside China and ruled northern China when the south of China was ruled by a series of dynasties which originated inside China. Both during the time that the Northern Wei dynasty was in power and over many centuries subsequently, the legitimacy of the Northern Wei dynasty has been questioned. This book outlines the history of the Northern Wei dynasty, including its origins and the history of its southern rivals; it considers the practices adopted by both the Northern Wei dynasty and its rivals to establish legitimacy and examines the debates which preoccupied Chinese scholars subsequently. The book casts light on traditional ideas about legitimate rule in China, ideas which have enduring relevance as tradition continues to be very significant in contemporary China.

The Making of Song Dynasty History Charles Hartman, 2020-10-08. In this ambitious work of political and intellectual history, Charles Hartman surveys the major sources that survive as vestiges of the official dynastic historiography of the Chinese Song dynasty (960–1279). Analyzing the narratives that emerge from these sources as products of Song political discourse, Hartman offers a thorough introduction to the texts and the political circumstances surrounding their compilation. Distilling from these sources a grand allegory of Song history, he argues that the narratives embedded within reflect tension between a Confucian model of political institutionalism and the Song court's preference for a non-sectarian technocratic model. Fundamentally rethinking the corpus of texts that have formed the basis of our understanding of the Song and of imperial China, more broadly, this far-reaching account of historiographical process and knowledge production illuminates the relationship between official history writing and political struggle in China.

Imagining Boundaries Kai-wing Chow, On-cho Ng, John B. Henderson, 1999-05-27 Imagining Boundaries explores the mapping of the intellectual tradition of Confucianism in Chinese history The authors show that the Confucian tradition is not a neatly packaged organic whole in which the constitutive parts fall naturally into place but rather that it displays the ruptures of all cultural constructions Accordingly Confucianism has been configured and reconfigured in time in response to changing intellectual and historical circumstances This anthology addresses the constant negotiation of the boundaries of Confucianism within itself and in relation to other intellectual traditions the fluidity of the Confucian canon the dialogical relations between text and discourse in establishing boundaries for the Confucian tradition and the textual and discursive strategies employed in the imagining of boundaries which expanded or restricted the intellectual space of Confucianism Rejecting an interpretation of Confucianism as a homogenous master narrative and worldview the book uses the variegated histories of Confucianism to interrogate the tradition itself unpacking and highlighting its complexity and diversity Imagining Boundaries is an excellent anthology The time is long overdue to read Confucian texts as historical artifacts yet still appreciate the philosophical complexity of them Matthew Levey Birmingham Southern College This work is more than sound it is on the leading edge of the best work being done in the field John Berthrong author of *All Under Heaven* Transforming Paradigms in Confucian Christian Dialogues Contributors include Kai wing Chow Kandice Hauf John B

Henderson Tze ki Hon Hsiung Ping chen Yuet Keung Lo On cho Ng Michael Nylan and Lauren Pfister *Rise of the Tang Dynasty* Julian Romane, 2020-01-31 Julian Romane examines the military events behind the emergence of the Sui and Tang dynasties in the period 581-626 AD. Narrating the campaigns and battles, he analyses in detail the strategy and tactics employed, a central theme being the collision of the steppe cavalry with Chinese infantry armies. By the fourth century AD, horse nomads had seized northern China. Conflict with these Turkic interlopers continued throughout the 5th and most of the 6th century. The emergence of the Sui dynasty 581-618 brought some progress but internal weakness led to their rapid collapse. The succeeding House of Tang, however, provided the necessary stability and leadership to underpin military success. This was largely the achievement of Li Shimin, who later became the second Tang Emperor. By the start of Li Shimin's reign, as Emperor Tang Taizong, effective military organizations had been developed and China reunified. His military campaigns are examples of tactical and strategic virtuosity that demonstrate the application of the distinctive Chinese way of war expounded in Chinese military manuals, including Li Shimin's own writings. *History of Customs in the Ming Dynasty* Li Shi, The book is the volume of *History of Customs in the Ming Dynasty* among a series of books of *Deep into China Histories*.
