## History And Existential Theology:

**History and Existential Theology** Norman Young,1969      **History and existential theology** Norman James Young,1969      **History and Existential Theology** Norman Young,1969      History and Existential Theology Norman James Young,1969      A History of Existential Psychology Zoltán Kóváry,2024-12-30 The first in a two part set this book takes a deep dive into the history and theory of existential psychology Beginning with a discussion of the existentialism and psychology problem the book presents the philosophical and historical roots of existential psychology It introduces the most important philosophical schools in the development of existentialism and their creators such as Kierkegaard Nietzsche Heidegger and Sartre as well as the literary roots of existentialism in the writings of Dostoevsky and Kafka and the important contribution of psychoanalysis and phenomenological psychiatry The book then goes on to look at the existential psychology schools including daseinsanalysis logotherapy and existential analysis the existential humanistic school and the existential phenomenological school Going beyond the questions of therapy and counseling that typically make up the study of existential psychology the book offers the ultimate introduction for students and scholars of this fascinating and deeply rooted discipline It may also interest professionals working in related fields      Existential Theology Hue Woodson,2020-09-29 Existential Theology An Introduction offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this Existential Theology attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms      A History of Christian Thought, from Its Judaic and Hellenistic Origins to Existentialism Paul Tillich,1972 Professor Tillich analyzes the development of Christian theology      A Theology of History Hans Urs Von Balthasar,2017-01-12 Man has long wrestled with the problem of finding meaning in history It is not surprising that as a Christian Hans Urs von Balthasar finds the meaning of history in Christ its center and Lord What may surprise and stimulate us is the theological mastery with which von Balthasar traces the effects of Christ's lordship upon the daily life of the Christian In this book we have one of the indispensable

sources for understanding Balthasar's Catholic Christocentrism Here we find elaboration of the striking statement that Jesus Christ is the Idea made concrete personal historical universale concretum et personale which means that Christ is the universally valid in the here and now Characteristic of von Balthasar the book inspires spiritually as much as it informs theologically Von Balthasar follows Saint Irenaeus in viewing theology through the drama of history and presents Jesus Christ as the norm by which all history secular history as well as salvation history ought to be interpreted As God Jesus is the universal norm for all humanity who stands outside of history as man he became particular within history By seeking to become one with him our own history becomes meaningful purposeful and significant

Bakker, 2019-05-21 These days no one believes in the redemptive essence of history Lyotard The individual of today lives without culture history social engagement and moral norms Lasch It is in this intellectual climate that History as a Theological Issue has been written Nico Bakker analyses seminal conceptions of history from the past and from our day and compares them with the newest notions of history in biblical and systematic theology In so doing he engages in conversation with thinkers from Augustine to Popper along with many others His thinking is informed in particular by the work of Barth Pannenberg and the Dutch reformed theologians Miskotte and Breukelman Of central significance is his ability to apply basic theological notions to culture In this way he connects the present day crisis of culture with the permanent alienation of church and Christianity from its own origins in the scriptures Now that since the 1950s a new awareness structure is beginning to emerge Gebser the author considers that theology is in need of a radical rethink History as a Theological Issue is written primarily for theologians historians biblical critics and philosophers of religion and is recommended reading for all who are seriously interested in the present day crisis of culture and in the widespread alienation from the Bible Church and Christianity

**Heideggerian Theologies** Hue Woodson, 2018-11-27 In light of Martin Heidegger's contextualized influence upon them John Macquarrie Rudolf Bultmann Paul Tillich and Karl Rahner engage in theologies that in their respective tasks and scopes venture into existential theology following Heideggerian pathmarks toward the primordially of being on the way to unconcealment or aletheia By way of each pathmark each existential theologian assumes a specific theological stance that utilizes a decidedly existential lens While the former certainly grounds them fundamentally in a kind of theology the latter by way of Heideggerian influences allows them to venture beyond any traditional theological framework with the use of philosophical suppositions and propositions In an effort at explaining the relationship between humanity's being and God's Being each existential theologian examines what it means to be human not strictly in terms of theology but as it is tied inextricably to an understanding of the philosophy of existence the concept of what being is
