Pavlac, 2023-01-09 This book gives a brief readable description of our common Western heritage It covers the minimum historical information that educated adults should know within a tightly focused narrative and interpretive structure The joined terms supremacies and diversities develop major themes of conflict and creativity Supremacies centers on the use of power to dominate societies ranging from warfare to ideologies Supremacy seeks stability order and incorporation Diversities encompasses the creative impulse that produces new ideas as well as people s efforts to define themselves as different Diversity creates change opportunity and individuality These themes of historical tension and change whether applied to political economic technological social and cultural trends offer a bridging explanatory organization Five other topical themes regularly inform the text technological innovation migration and conquest political and economic decision making church and state and disputes about the meaning of life Various Basic Principles present summaries of historical realities Primary Source Projects and Sources on Families offer students the chance to evaluate differing points of view about the past This text is less expensive less formal has more attitude yet still provides all the essentials for a course on Western Civilization **A History of Civilization: Prehistory to 1715** Robin W. Winks, 1988 **As If By Chance** Kevin Reed Donley, 2023-12-21 The age of print was begun by Johannes Gutenberg in 1440 in Mainz Germany His invention of the mechanized and mass production of print replaced the previous handwriting of the scribes and was a transformative achievement It was both the product of and a catalyst for far reaching intellectual social and political changes that began during the Renaissance and continued for centuries right up to the present The age of electronic media was begun by Steve Jobs in 1985 in Cupertino California His integration of the elements of desktop publishing personal computer page layout software page description language and laser printer replaced the previous photomechanical processes of printing and was a transformative achievement It was both the product of and a catalyst for the intellectual social and political changes during the digital revolution that will extend for generations into the future This book discusses these two bookends in the age of print It follows the transitions and stages of innovation in printing between the fifteenth and twenty first centuries and shows how the inventors responsible for this progress are bound together in a chain of revolutionary technical change called

disruptive continuity While the works of Gutenberg and Jobs are separated by more than five centuries there are striking parallels and differences between these two innovations They both sparked the quantitative expansion of literacy and the spread of knowledge around the world However the emergence of electronic publishing especially in its present day social media forms has brought a vast increase in the consumption of information while also heralding a qualitative transformation that places the tools of wireless and mobile multimedia publishing into the hands of billions of people on earth Much in the same way that there was a historical lag between Gutenberg s invention and the full impact of printing on the world so too in our own time the long term societal consequences of electronic publishing have yet to be realized
