Weisheipl,1980 **Darke Hieroglyphicks** Stanton J. Linden,2021-05-11 The literary

influence of alchemy and hermeticism in the work of most medieval and early modern authors has been overlooked Stanton Linden now provides the first comprehensive examination of this influence on English literature from the late Middle Ages through the sixteenth and seventeenth centuries Drawing extensively on alchemical allusions as well as on the practical and theoretical background of the art and its pictorial tradition Linden demonstrates the pervasiveness of interest in alchemy during this three hundred year period Most writers including Langland Gower Barclay Erasmus Sidney Greene Lyly and Shakespeare were familiar with alchemy and references to it appear in a wide range of genres Yet the purposes it served in literature from Chaucer through Jonson were narrowly satirical In literature of the seventeenth century especially in the poetry of Donne Herbert Vaughan and Milton the functions of alchemy changed Focusing on Bacon Donne Herbert Vaughan and Milton in addition to Jonson and Butler Linden demonstrates the emergence of new attitudes and innovative themes motifs images and ideas The use of alchemy to suggest spiritual growth and change purification regeneration and millenarian ideas reflected important new emphases in alchemical medical and occultist writing This new tradition did not continue however and Butler's return to satire was contextualized in the antagonism of the Royal Society and religious Latitudinarians to philosophical enthusiasm and the occult Butler like Shadwell and Swift expanded the range of satirical victims to include experimental scientists as well as occult charlatans The literary uses of alchemy thus reveal the changing intellectual milieus of three centuries

Reform before the Reformation: Vincenzo Querini and the Religious Renaissance in Italy Stephen David Bowd, 2021-10-11 An important aspect of the Italian Renaissance was church reform This book examines the nature of that reform especially in Venice Florence and Rome as viewed through the unpublished manuscripts of a Venetian nobleman who became a Camaldolese hermit Vincenzo Querini 1478 1514 This book sets Querini's personal journey to reform in the context of Venetian society as well as against the backdrop of political crisis cultural revival and monastic

renaissance in Italy generally Querini's attempt to reform himself the Roman Catholic Church and the whole of Christendom are of interest to historians seeking to revise the chronology of early modern church reform since he employed a range of scriptural humanist conciliar monastic and mystical methods that had medieval antecedents but were also imitated by reformers after the Reformation

*The Book of Memory* Mary J. Carruthers, 1992-05-14 The Book of Memory is a magisterial and beautifully illustrated account of the workings and function of memory in medieval society Memory was the psychological faculty valued above all others in the period stretching from late antiquity through the Renaissance The prominence given to memory has profound implications for the contemporary understanding of all creative activity and the social role of literature and art Drawing on a range of fascinating examples from Dante Chaucer and Aquinas to the symbolism of illuminated manuscripts this unusually wide ranging book offers new insights into the medieval world

Conjuring Spirits: Texts and Traditions of Medieval Ritual Magic, 1998 Conjuring Spirits contains both general surveys and analyses of magical texts and manuscripts by distinguished scholars in a variety of disciplines Included are chapters by Richard Kieckhefer and Robert Mathiesen on the Sworn Book of Honorius Michael Camille on the images in Ars Notoria manuscripts John B Friedman on the Secretum Philosophorum Claire Fanger and Nicholas Watson on the Liber Visionum and Elizabeth Wade on Lullian divination The work also includes Juris Lidaka's edition of the Liber de Angelis and an overview of late medieval English ritual magic manuscripts by Frank Klaassen Claire Fanger's introduction describes the context of late medieval magical texts both angelic and demonic and offers insight into the place of magic in the medieval world This book will be invaluable for scholars and other readers interested in ritual magic in the later Middle Ages Back cover

*Science and Technology in World History, Volume 4* David Deming, 2016-04-13 The history of science is a story of human discovery intertwined with religion philosophy economics and technology The fourth in a series this book covers the beginnings of the modern world when 16th century Europeans began to realize that their scientific achievements surpassed those of the Greeks and Romans Western Civilization organized itself around the idea that human technological and moral progress was achievable and desirable Science emerged in 17th century Europe as scholars subordinated reason to empiricism Inspired by the example of physics men like Robert Boyle began the process of changing alchemy into the exact science of chemistry During the 18th century European society became more secular and tolerant Philosophers and economists developed many of the ideas underpinning modern social theories and economic policies As the Industrial Revolution fundamentally transformed the world by increasing productivity people became more affluent better educated and urbanized and the world entered an era of unprecedented prosperity and progress

**Light from the East** John Freely, 2010-12-18 Long before the European Renaissance while the western world was languishing in what was once called the Dark Ages the Arab world was ablaze with the knowledge invention and creativity of its Golden Age This is the story of how Islamic science which began with the translation of Greek manuscripts into Arabic in eighth century Baghdad preserved and enhanced the knowledge acquired

from Greece Mesopotamia India and China Through the astrologers physicians philosophers mathematicians and alchemists of the Muslim world this knowledge was carried from Samarkand and Baghdad to Cordoba and beyond influencing western thinkers from Thomas Aquinas and Copernicus and helping to inspire the cultural phenomenon of the Renaissance John Freely tells this spellbinding story against a background of the melting pot of cultures involved and concludes with the decline of Islam's Golden Age which led the West to forget the debt it owed to the Muslim world and the influence of medieval Islamic civilisation in forging the beginnings of modern science      **Before Nature** Francesca

Rochberg, 2020-08-07 In the modern West we take for granted that what we call the natural world confronts us all and always has but Before Nature explores that almost unimaginable time when there was no such conception of nature no word reference or sense for it Before the concept of nature formed over the long history of European philosophy and science our ancestors in ancient Assyria and Babylonia developed an inquiry into the world in a way that is kindred to our modern science With Before Nature Francesca Rochberg explores that Assyro-Babylonian knowledge tradition and shows how it relates to the entire history of science From a modern Western perspective a world not conceived somehow within the framework of physical nature is difficult if not impossible to imagine Yet as Rochberg lays out ancient investigations of regularity and irregularity norms and anomalies clearly established an axis of knowledge between the knower and an intelligible ordered world Rochberg is the first scholar to make a case for how exactly we can understand cuneiform knowledge observation prediction and explanation in relation to science without recourse to later ideas of nature Systematically examining the whole of Mesopotamian science with a distinctive historical and methodological approach Before Nature will open up surprising new pathways for studying the history of science      **Solomon's Secret Arts** Paul

Kleber Monod, 2013-05-21 DIVDIV This illuminating book reveals the surprising extent to which great and lesser known thinkers of the Age of Enlightenment embraced the spiritual the magical and the occult div div      Deep Things Out of Darkness John G. T. Anderson, 2013 Natural history the deliberate observation of the environment is arguably the oldest science From purely practical beginnings as a way of finding food and shelter natural history evolved into the holistic systematic study of plants animals and the landscape This book chronicles the rise decline and ultimate revival of natural history within the realms of science and public discourse It charts the journey of the naturalist's endeavour from prehistory to the present underscoring the need for natural history in an era of dynamic environmental change      *The Rohonc Code* Benedek Láng, 2021-04-15 First discovered in a Hungarian library in 1838 the Rohonc Codex keeps privileged company with some of the most famous unsolved writing systems in the world notably the Voynich manuscript the Phaistos Disk and Linear A Written entirely in cipher this 400 year old 450 page long richly illustrated manuscript initially gained considerable attention but was later dismissed as an apparent forgery No serious scholar would study it again until the turn of the twenty first century This engaging narrative follows historian Benedek Láng's search to uncover the truth about this thoroughly

mysterious book that has puzzled dozens of codebreakers Long surveys the fascinating theories associated with the Codex and discusses possible interpretations of the manuscript as a biblical commentary an apocryphal gospel or a secret book written for and by a sect He provides an overview of the secret writing systems known in early modern times and an account of the numerous efforts to create an artificial language or to find a long lost perfect tongue endeavors that were especially popular at the time the Codex was made Lastly he tests several codebreaking methods in order to decipher the Codex finally pointing to a possible solution to the enigma of its content and language system Engagingly written academically grounded and thoroughly compelling The Rohonc Code will appeal to historians scholars and lay readers interested in mysteries codes and ciphers *Bulletin of the History of Medicine* ,1945 Vols for 1939 include the Transactions of the 15th annual meetings of the American Association of the History of Medicine 1939 **A History of Magic and Experimental Science: The first thirteen centuries of our era** Lynn Thorndike,1923 Vols 1 2 concern the first 13 centuries of the Christian era vols 3 4 the 14th and 15th centuries vols 5 6 the 16th century and vols 7 8 the 17th century Science and Technology in World History, Volume 3 David Deming,2014-01-10 This installment in a series on science and technology in world history begins in the fourteenth century explaining the origin and nature of scientific methodology and the relation of science to religion philosophy military history economics and technology Specific topics covered include the Black Death the Little Ice Age the invention of the printing press Martin Luther and the Reformation the birth of modern medicine the Copernican Revolution Galileo Kepler Isaac Newton and the Scientific Revolution *Introduction to the History of Science* George Sarton,1948
