History Of Modern Libya:

A History of Modern Libya Dirk Vandewalle, 2006-02-13 Libya is coming in from the cold but for most of the three decades following the 1969 revolution the country was labelled a pariah state by the West Dirk Vandewalle one of only a handful of western scholars to visit during the time is intimately acquainted with the country This history based on original research and his interviews with Libya s political elite offers a lucid account of Libya s past and corrects some of the misunderstandings about its present The author takes the story from the 1900s through the Italian occupation the Sanusi monarchy and Qadhafi s self styled revolution The final chapter is devoted to the events which brought Libya back into the international fold As the first comprehensive history of Libya over the last two decades this book will be welcomed by students of the region professionals and those who are visiting Libya for the first time

A History of Modern Libya Dirk J. Vandewalle, 2012 An updated edition of Libya s history by one of its leading scholars charts developments up to the revolution in 2011

The Making of Modern Libya Ali Abdullatif Ahmida, 1994-01-01 This book analyzes the social cultural and historical background of modern Libya from the early nineteenth century through the end of the armed anticolonial resistance Ahmida challenges Eurocentric theories of social change that ignore the internal dynamics of native social history Among other things he shows that Sufi Islam tribal military organization and oral traditions were crucial in the fight against colonialism The political and cultural legacy of the resistance has been powerful strengthening Libyan nationalism and leading to the revival of strong attachments to Islam and the clan The memory of this period has not yet faded and appreciation of this background is essential to understanding present day Libya

The Origins of the Libyan Nation Anna Baldinetti, 2014-05-12 Libya is a typical example of a colonial or external creation This book addresses the emergence and construction of nation and nationalism particularly among Libyan exiles in the Mediterranean region It charts the rise of nationalism from the colonial era and shows how it developed through an external Libyan diaspora and the influence of Arab nationalism From 1911 following the Italian occupation the first nucleus of Libyan nationalism formed through the activities of Libyan exiles Through experiences undergone during periods of exile new structures of loyalty and solidarity were formed The new and emerging social groups were largely responsible for creating the associations that ultimately led to the formation of political parties at the eve of independence Exploring the influence of colonial rule and external factors on the creation of the state and national identity this critical study not only provides a clear outline of how Libya was shaped through its borders and boundaries but also underlines the strong influence that Eastern Arab nationalism had on Libyan nationalism An important contribution to history of Libya and nationalism this work will be of interest to all scholars of African and Middle Eastern history

Libya's Past, Present, and Vision of the Future Mehmet Nesip Ögün, Serdar Yurtsever, Abdulkarim Said, 2020-02-26 The dynamics of religion tribalism oil and ideology have always been dominant in Libya which is trying to establish a new order in the political arena after the Gadhafi regime and NATO intervention This

process which has had painful side effects and faced various serious difficulties is carried out with a certain system This book examines the current political practices of Libya and the state administration process and to studies the past and present administrative processes that are present in the social and cultural structure of Libyan society *The Libyan Revolution* Nicholas Hagger,2009 Forty years after Col Gaddafi s Libyan Revolution cut Libya off from the outside world scrubbed out Western lettering and turned the country against the US Libya has changed its outlook renounced nuclear weapons and reopened itself to Western cruise ships and tourists Gaddafi is still in power Nicholas Hagger an eyewitness of the events of the 1969 Revolution and plans for a rival coup predicted at the time that Gaddafi would still be in power 40 years later He narrates the story of the first year of the Revolution identifies its aims and considers if they have been achieved Before the Revolution he wrote a weekly two page feature in a Libyan English language newspaper under the byline the Barbary Gipsy His timeless and poetic views of Libya s sea sand and Roman ruins in these articles are reprinted in an Appendix This is a memoir and a portrait of western Libya The places visited have changed little as a return visit in 2001 established This book is required reading for all visitors to Libya today **The Making of Modern Libya** Ali Abdullatif Ahmida,2009-11-18 Second edition of the provocative study analyzing the social cultural and historical roots of modern Libya *The Rise and Fall of Arab Presidents for Life* Roger Owen,2014-11-24 Monarchical presidential regimes in the Arab world looked as though they would last indefinitely until events in Tunisia and Egypt made clear their time was up This is the first book to lay bare the dynamics of a governmental system that largely defined the Arab Middle East in the twentieth century and the popular opposition they engendered *Revolts and the Military in the Arab Spring* Sean Burns,2018-01-30 Through detailed exploration of events in Tunisia Egypt Bahrain Libya Syria and Yemen Sean Burns here breaks down the concept of professionalism within the armed forces into its component parts and demonstrates how variation in military structures determines their behaviour In so doing and by emphasising historical context and drawing on a wide range of political science theory Burns sheds fresh light onto the ways in which military structure affects the potential for democratic transition or the course of civil war With this book he presented a wide ranging study of the Middle East which provides key tools to understanding the opportunities for democratisation both during the Arab Spring and beyond and which is therefore essential reading for anyone working on the Middle East popular uprisings and the politics of repression The Libyan Revolution and its Aftermath Peter Cole,Brian McQuinn,2015-01-02 This book offers a novel incisive and wide ranging account of Libya s 17 February Revolution by tracing how critical towns communities and political groups helped to shape its course Each community whether geographical e g Misrata Zintan tribal communal e g Beni Walid or political e g the Muslim Brotherhood took its own path into the uprisings and subsequent conflict of 2011 according to their own histories and relationship to Muammar Qadhafi s regime The story of each group is told by the authors based on reportage and expert analysis from the outbreak of protests in Benghazi in February 2011 through to the transitional period following the end of

fighting in October 2011 They describe the emergence of Libya's new politics through the unique stories of those who made it happen or those who fought against it The Libyan Revolution and its Aftermath brings together leading journalists academics and specialists each with extensive field experience amidst the constituencies they depict drawing on interviews with fighters politicians and civil society leaders who have contributed their own account of events to this volume Libya Peter Malcolm, Elie Loslenben, Debbie Nevins, 2015-12-15 Libya is an ancient country marked by expanses of desert inland and miles of sandy beaches along the shores of the Mediterranean Sea Libya was occupied by Rome at the height of its empire and by Turkey with the help of the Barbary Pirates in the sixteenth century These invaders and others left behind architectural wonders This book delves into Libya's colorful history development economy and environment and its place in the world today This book ensures an immersive experience by offering vibrant photographs with descriptive nonfiction narratives and interactive activities such as creating an authentic traditional dish from an easy to follow recipe Copious maps and detailed timelines present the past and present of Libya while exploration of the art and architecture help your readers to understand why diversity is the spice of Life **Islamist Radicalisation in North Africa** George Joffe, 2012-06-12 In the current climate of political extremism and violence much attention has been directed towards radicalisation as the reasons behind such courses of action along with a conviction that those who are radicalised represent an irrational deviation from the conventionally accepted norms of social and political behaviour This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa Taking a comprehensive approach to the subject it looks at the processes that lead to radicalisation rather than the often violent outcomes At the same time chapters expand the discussion historically and conceptually beyond the preoccupations of recent years in order to develop a more holistic understanding of a complex individual and collective process that has represented a permanent challenge to dominant political social and on occasion economic norms With contributions from academics and policy makers within and outside the region the book is a comprehensive investigation of Islamist Radicalisation As such it will be of great interest to academics and students investigating North Africa and terrorism as well as specialists in radicalism and extremism *Building States* Eva-Maria Muschik, 2022-04-13 Postwar multilateral cooperation is often viewed as an attempt to overcome the limitations of the nation state system However in 1945 when the United Nations was founded large parts of the world were still under imperial control Building States investigates how the UN tried to manage the dissolution of European empires in the 1950s and 1960s and helped transform the practice of international development and the meaning of state sovereignty in the process Eva Maria Muschik argues that the UN played a key role in the global proliferation and reinvention of the nation state in the postwar era as newly independent states came to rely on international assistance Drawing on previously untapped primary sources she traces how UN personnel usually in close consultation with Western officials sought to manage decolonization peacefully through international development assistance Examining initiatives in Libya Somaliland

Bolivia the Congo and New York Muschik shows how the UN pioneered a new understanding and practice of state building presented as a technical challenge for international experts rather than a political process UN officials increasingly took on public policy functions despite the organization's mandate not to interfere in the domestic affairs of its member states These initiatives Muschik suggests had lasting effects on international development practice peacekeeping and post conflict territorial administration Casting new light on how international organizations became major players in the governance of developing countries Building States has significant implications for the histories of decolonization the Cold War and international development

The Return of the Past Uzi Rabi, 2019-11-04 This book argues that the Arab Spring brought to the forefront numerous societal political and historical problems in the Middle East that scholars and practitioners throughout the 20th century and into the 21st century have continually glossed over or reduced in their analysis and analytical frameworks when studying the Middle East These include the prevalent and persistent impact of Islam on political life an impact of transnational and subnational identities including sect tribe and regional identity as well as the overuse of the state as the fundamental unit of analysis when studying the region As a result this book asserts that primordial identities including religion sect and tribe have and will continue to have a significant impact on the conduct of politics in the Middle East

The Government and Politics of the Middle East and North Africa Mark Gasiorowski, 2016-08-02 A comprehensive country by country examination of the history domestic politics and foreign policies of the Middle East and North Africa

The Politics of Nuclear Non-Proliferation Ursula Jasper, 2013-10-08 This book examines the puzzle of why some states acquire nuclear weapons whereas others refrain from trying to do so or even renounce them Based on the predominant theoretical thinking in International Relations it is often assumed that nuclear proliferation is inevitable given the anarchic nature of the international system Proliferation is thus often explained by vague references to states insecurity in an anarchic environment Yet elusive generalisations and grand abstract theories inhibit a more profound and detailed knowledge of the very political processes that lead towards nuclearisation or its reversal Drawing upon the philosophical and social theoretical insights of American pragmatism The Politics of Nuclear Non Proliferation provides a theoretically innovative and practically useful framework for the analysis of states nuclear proliferation policies Rather than recounting a parsimonious lean account of proliferation the framework allows for the incorporation of multiple paradigms in order to depict the complex political contestation underlying states proliferation decisions This pragmatist framework of analysis offers ways of overcoming long standing metatheoretical gridlocks in the IR discipline and encourages scholars to reorient their efforts towards imminent real world challenges This book will be of much interest to students of nuclear proliferation international security and IR theory

The Imperial School for Tribes Mehmet Ali Neyzi, 2023-04-06 Founded in the waning years of the Ottoman Empire the Imperial School for Tribes Asiret Mektebi was an initiative by Sultan Abdulhamid II to bring the sons of prominent Arab tribal leaders to Istanbul for a world class education and transform them into loyal Ottoman

future military and governmental leaders Utilizing a plethora of new documents recently made available in the Ottoman archives as well as Ottoman newspaper collections in Istanbul and Beirut this is the first book to shed light on the School for Tribes It provides a detailed analysis of the origins and families of the over 500 graduates of the school as well as the recruitment and placement processes developed by the administration The further careers and allegiances of the graduates are examined allowing us to better understand relations between Turks and Arabs both during the last years of the Empire as well as in the following decades The book shows that many graduates who became prominent leaders in their newly formed countries including Abdulmuhsin al Sadoun Prime Minister of Iraq Omar Mansour and Orhan Kologlu Prime Ministers of Cyrenaica Libya and Ramadan al Shallash Lebanon availed of their Ottoman training and preserved their imperial loyalties even as rifts that occurred between the Republic of Turkey and the Arab states widened

The Middle East Ellen Lust, 2019-08-06 Written by a group of well known experts and researchers who have diligently worked and updated the book since its first edition to include the most important features of State Polity and Governance in Middle East and North Africa This book is equally useful for instructors and students Jalil Roshandel East Carolina University In the more succinct Fifteenth Edition of The Middle East editor Ellen Lust brings important new coverage to this comprehensive balanced and superbly researched text In clear prose Lust and her contributors explain the many complex changes taking place across the region All country profile chapters now address domestic and regional conflict more explicitly and all tables figures boxes and maps have been fully updated with the most recent data and information This best selling text not only helps readers comprehend more fully the world around them but it also enables readers to recognize and formulate policies that can more successfully engage the Middle East Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning

Political Aesthetics of Global Protest Pnina Werbner, 2014-07-30 Explores the central role the aesthetic played in energising the massive mobilisations of young people the disaffected the middle classes and the apolitical silent majority in the North African and Middle Eastern uprisings with protest movements such as

North Africa's Arab Spring George Joffé, 2013-10-18 This book addresses issues surrounding the evolution of the Arab Spring in North Africa After a general introduction and explanation of the events on a region wide basis it turns to examine aspects of each of the countries concerned The role of the Muslim Brotherhood during the Nasser regime and in the contemporary situation is compared together with an analysis of the emergence of new political parties in Egypt The book analyses the links between social media and satellite television during the revolution in Egypt This is followed by a study of the intellectual and cultural background to the Tunisian revolution and an analysis of the new political parties in Tunisia It also looks at the revolution process in Libya and concludes with a study of why there was no revolution in Algeria and how the Moroccan monarchy was able to sideline those who challenged it at the price of

constitutional changes that are essentially cosmetic This book was originally published as a special issue of The Journal of North African Studies
