How Children Learn Mathematics Teaching Implications Of Piagets Research:

How Children Learn Mathematics Richard W. Copeland,1984 This text has two major purposes One is diagnostic to aid in discerning a child s stage of development as a basic for determining the type of mathematics for which he is ready The second major purpose is to serve the methods of teaching mathematics courses in teacher education l The reader will find this book very different from other methods texts because it is based on how children learn not how to teach and it should enable readers to see mathematics from the standpoint of the child as he progresses through the various stages of development *How Children Learn Mathematics* Richard Watson Copeland,1972 Learning to Think Martin

Woodhead,Paul Light,1991 A study in child psychology which presents a series of essays that examine how a child is initiated into shared cultural understanding through close relationships with parents and teachers as well as siblings and peers
