New Hampshire Patterns Ernest Hebert, 2007 For most people familiar with New Hampshire the Granite State has two distinct identities New Hampshire is often depicted as a place of picturesque farms mountains forests and postcard perfect villages with pretty town commons and colonial era houses Yet for most of the twentieth century such New Hampshire cities and towns as Manchester Berlin and Keene developed small scale urban industrialized societies dominated by textile woolen and paper mills In the twenty first century New Hampshire's duality has given way to a far more varied identity Radical demographic and economic changes have transformed entire regions Some towns in Southern New Hampshire have doubled and tripled in size serving

as bedroom communities for greater Boston Increased property development in the two lakes regions and the Upper Valley continue to transform small town rural life in unexpected ways This book offers two personal looks at a state whose venerable history stands in lively contrast to its changing times Over a hundred full color photographs by Jon Gilbert Fox capture the charm of small town parades and agricultural fairs as well as the uniqueness of such traditional New Hampshire places as Franconia Notch Strawberry Banke and Canterbury Shaker Village Fox also brings to vivid life more recent cultural phenomena including the NASCAR races at Loudon and Laconia s annual motorcycle week Complementing Fox s visual appreciation of New Hampshire are ten essays by Ernest Hebert one of the state s most beloved native sons Hebert a lifelong citizen of New Hampshire weaves personal experience and family traditions into essays that include meditations on the former Old Man of the Mountain New Hampshire politics baseball motorcycles fly fishing moose yard sales chopping wood and more Taken together Fox s photographs and Hebert s text provide an elegant and richly textured salute to the Granite State
