Jack London Newsletter, 1980 *A Literary History of the American West* Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance

Author Under Sail James (Jay) W. Williams, 2014-11-01 In *Author Under Sail* Jay Williams offers the first complete literary biography of Jack London as a professional writer engaged in the labor of writing It examines the authorial imagination in London's work the use of imagination in both his fiction and nonfiction and the ways he defined imagination in the creative process in his business dealings with his publishers editors and agents In this first volume of a two volume biography Williams traverses the years 1893 to 1902 from London's *Story of a Typhoon* to *The People of the Abyss* The Jack London who emerges in the pages of *Author Under Sail* is a writer whose partnership with publishers most notably his productive alliance with George Brett of Macmillan was one of the most formative in American literary history London pioneered many author models during the heyday of realism and naturalism blurring the boundaries of these popular genres by focusing on absorption and theatricality and the representation of the seen and unseen London created an impassioned sincere and extremely personal realism unlike that of other American writers of the time *Author Under Sail* is a literary tour de force that reveals the full range of London

as writer creative citizen and entrepreneur at the same time it sheds light on the maverick side of machine age literature

Author Under Sail James W. Williams, Jay Williams, 2014-11-01 The definitive examination of the early works of Jack London through London's incorporation and understanding of the role of imagination **American Cities in Post-Apocalyptic Science Fiction** Robert Yeates, 2021-11-15 Visions of the American city in post apocalyptic ruin permeate literary and popular fiction across print visual audio and digital media American Cities in Post Apocalyptic Science Fiction explores the prevalence of these representations in American culture drawing from a wide range of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach American Cities in Post Apocalyptic Science Fiction both illuminates little studied texts and provides provocative new readings of familiar works such as Blade Runner and The Walking Dead placing them within the larger historical context of imaginings of the American city in ruins Jack London's Golden State Jack London, 1999 For nearly a century Jack London been an international icon more widely read and translated than any other American author First and foremost however he has always been a Californian the first major writer to use the Golden State as his base Even his famed Alaskan novels are solidly rooted in California In this exciting and original anthology editor Gerald Haslam has selected from the best of London's writings including Valley of the Moon John Barleycorn Martin Eden Star Rover and other classic works along with letters short stories and journalism Together these writings display the supreme skillfulness of London's prose his political and social passions his unsurpassed ability to render emotional states and physical landscapes For those who may not have read London in recent years this anthology offers an opportunity to rediscover a truly great writer Jack London's Golden State also allows readers to rediscover California Many of the themes covered by London a century ago are amazingly fresh and relevant today urban poverty and decay the call of the countryside the arrival of recent immigrants environmental degradation the existence of youth gangs and the homeless the chronic wanderlust and restlessness of Californians the mixture of defeat and opportunity that still marks California life By publishing this outstanding selection and by reclaiming London as a Californian we are proud to present to older and younger readers alike a great writer in all his power beauty tenderness and yes after nearly a century all his remarkable relevance *The Kenneth E. Luther Collection of Books about Children's Books*, 1992 Reference Sources, 1982 Terry Silver, 1984-12 Critical Essays on Jack London Jacqueline

Tavernier-Courbin,1983 Contains five original essays three translations of articles originally published in French and reprinted criticism from major critics Apart from one biographical essay and one review of major biographies the essays provide critical insights into London s achievement from the factual account of his use of plots bought from Sinclair Lewis to Robert Forrey s psychosexual analysis of *The Sea Wolf* and from Francis Lacassin s search for the origins of *The Sea Rover* to Earle Labor s archetypal interpretations of London s stories The section Notes and Documents comments on editors and literary critics provides information on London s opinions methods of composition and poetic talent The Pacific Historian ,1980 **Author Under Sail** James W. Williams,2021-02 In *Author Under Sail The Imagination of Jack London 1902 1907* Jay Williams explores Jack London s necessity to illustrate the inner workings of his vast imagination In this second installment of a three volume biography Williams captures the life of a great writer expressed though his many creative works such as *The Call of the Wild* and *White Fang* as well as his first autobiographical memoir *The Road* some of his most significant contributions to the socialist cause and notable uncompleted works During this time London became one of the most famous authors in America perhaps even the author with the highest earnings as he prepared to become an equally famous international writer *Author Under Sail* documents London s life in both a biographical and writerly fashion depicting the importance of his writing experiences as his career followed a trajectory similar to America s from 1876 to 1916 The underground forces of London s narratives were shaped by a changing capitalist society media outlets racial issues increases in women s rights and advancements in national power Williams factors in these elements while exploring London s deeply conflicted relationship with his own authorial inner life In London s work the imagination is figured as a ghost or as a ghostlike presence and the author s personas who form a dense population among his characters are portrayed as haunted or troubled in some way Along with examining the functions and works of London s exhaustive imagination Williams takes a critical look at London s ability to tell his stories to wide arrays of audiences stitching incidents together into coherent wholes so they became part of a raconteur s repertoire *Author Under Sail* provides a multidimensional examination of the life of a crucial American storyteller and essayist **Canadiana** ,1981 *Twentieth-century American Western Writers* Richard H. Cracroft,1999 Essays on authors of American Western literature suggesting the enormous diversity of North America s Western peoples visions and possibilities These writers share a common awe of the immensity of the West while also exhibiting a wide range of individual cultural and ethical literary responses to the nature and meaning of the Western experience Includes discussion of the transformation of the West after World War II and the cultural shock of the late 1960s Southern California Quarterly ,1985 *AB Bookman's Weekly* ,1998 **Western American Literature** ,1980 *New Guide to Reference Books* Isadore Gilbert Mudge,American Library Association,1923 **The Publishers Weekly** ,1882 *The Academy and Literature* ,1904
