Cann,2018-01-05 Food has played a major role in funerary and memorial practices since the dawn of the human race In the ancient Roman world for example it was common practice to build channels from the tops of graves into the crypts themselves and mourners would regularly pour offerings of food and drink into these conduits to nourish the dead while they waited for the afterlife Funeral cookies wrapped with printed prayers and poems meant to comfort mourners became popular in Victorian England while in China Japan and Korea it is customary to offer food not only to the bereaved but to the deceased with ritual dishes prepared and served to the dead Dying to Eat is the first interdisciplinary book to examine the role of food in death bereavement and the afterlife The contributors explore the phenomenon across cultures and religions investigating topics including tombstone rituals in Buddhism Catholicism and Shamanism the role of death in the Moroccan approach to food and the role of funeral casseroles and church cookbooks in the Southern United States This innovative collection not only offers food for thought regarding the theories and methods behind these practices but also provides recipes that allow the reader to connect to the argument through material experience Illuminating how cooking and corpses both transform and construct social rituals Dying to Eat serves as a fascinating exploration of the foodways of death and bereavement **Eating Like a Mennonite** Marlene Epp,2023-09-08 Mennonites are often associated with food both by outsiders and by Mennonites themselves Eating in abundance eating together preserving food and preparing so called traditional foods are just some of the connections mentioned in cookbooks food advertising memoirs and everyday food talk Yet since Mennonites are found around the world from Europe to Canada to Mexico from Paraguay to India to the Democratic Republic of the Congo what can it mean to eat like one In Eating Like a Mennonite Marlene Epp finds that the answer depends on the eater on their ancestral history current home gender socio economic position family traditions and personal tastes Originating in central Europe in the sixteenth century Mennonites migrated around the world even as their religious teachings historically emphasized their separateness from others The idea of Mennonite food became a way of maintaining community identity even as unfamiliar environments obliged Mennonites to borrow and learn from their neighbours Looking at Mennonites past and present Epp shows that foodstuffs cuisine and foodways practices depend on historical and cultural context She explores how diets have evolved as a result of migration settlement and mission how food and gender identities relate to both power and fear how cookbooks and recipes are full of social meaning how experiences and memories of food scarcity shape identity and how food is an expression of religious beliefs as a symbol in ritual and in acts of charity From zwieback to tamales and from sauerkraut to spring rolls Eating Like a Mennonite reveals food as a complex ingredient in ethnic religious and personal identities with the ability to create both bonds and boundaries between people *The Global Encyclopaedia of Informality, Volume 3* Alena Ledeneva,2024-02-26 For a post human hitchhiker human life with its anxiety ageing illness and constant need for problem solving may look unviable Yet for humans the life struggle is softened by human touch human emotion and human cooperation The Global Encyclopaedia of Informality Volume

3 continues the journey of the two previous volumes into the world's open secrets, unwritten rules and hidden practices. It focuses on issues of emotional ambivalence and pressures of the digital age. The informal practices presented in this volume demonstrate the urgency of alleviating tensions between continuity and all too rapid change and the need to tackle the central problem of modern societies: uncertainty. The volume takes a reader on a biographical journey through elusive, taken-for-granted or banal ways of getting things done from over 70 countries and world regions. It offers innovative understanding of the significance of fringes and challenges the assumption that informality is associated exclusively with poverty, underdevelopment, the Global South, oppressive regimes or the former socialist countries of Eastern Europe and Central Asia. It also maps the patterns of informality around the globe, identifies specific informal practices in a context-sensitive way and documents their ambivalent impact on people engaged in problem-solving on societies in which these problems arise and on humanity overall. Praise for *The Global Encyclopaedia of Informality Volume 3*: This book tells a story of human cooperation. It is not the narrative you'll find in books teaching you how to solve problems. It is an assemblage of something much more endemic, fundamentally human and much more pervasive than we tend to think of informality. It involves money and power but also the alternative currencies of gaining advantage or gaming the system. Bruce Schneier, author of *A Hacker's Mind*. Alena Ledeneva's latest database of rule-bending is a goldmine for documentary makers and storytellers. Entries from 70 countries covering a human lifespan from Chinese anchor babies to funeral feasts in Azerbaijan offer remarkable insights into the way the world really works. Lucy Ash, journalist.

Animals in Ritual and Economy in a Roman Frontier Community Maaïke Groot, 2008. Religion. Opfer Ritus. Ernährung. **Place and Replace** Adele Perry, Esyllt W. Jones, Leah Morton, 2013-06-01. *Place and Replace* is a collection of recent interdisciplinary research into Western Canada that calls attention to the multiple political, social and cultural labours performed by the concept of place. The book continues a long-standing tradition of situating questions of place at the centre of analyses of Western Canada's cultures, pasts and politics while making clear that place is never stable, universal or static. The essays here confirm the interests and priorities of Western Canadian scholarship that have emerged over the past forty years and remind us of the importance of Indigenous peoples' dispossession and colonialism of migration, race and ethnicity of gender and women's experiences of the impact of the natural and built environment and the impact of politics and the state.
