Low,Dana Taplin,Suzanne Scheld,2009-05-21 A study of public recreation space and how urban developers can encourage ethnic diversity through planning that supports multiculturalism Urban parks such as New York City s Central Park provide vital public spaces where city dwellers of all races and classes can mingle safely while enjoying a variety of recreations By coming together in these relaxed settings different groups become comfortable with each other thereby strengthening their communities and the democratic fabric of society But just the opposite happens when by design or in ignorance parks are made inhospitable to certain groups of people This pathfinding book argues that cultural diversity should be a key goal in designing and maintaining urban parks Using case studies of New York City s Prospect Park Orchard Beach in Pelham Bay Park and Jacob Riis Park in the Gateway National Recreation Area as well as New York s Ellis Island Bridge Proposal and Philadelphia s Independence National Historical Park the authors identify specific ways to promote maintain and manage cultural diversity in urban parks They also uncover the factors that can limit park use including historical interpretive materials that ignore the contributions of different ethnic groups high entrance or access fees park usage rules that restrict ethnic activities and park restorations that focus only on historical or aesthetic values With the wealth of data in this book urban planners park professionals and all concerned citizens will have the tools to create and maintain public parks that serve the needs and interests of all the public      *Rembrandt and His Time* Marian Bisanz-Prakken,2005 A curator of Dutch drawings at the Albertina surveys the work of Rembrandt Jacob van Ruisdael Meindert Hobbema Philips Koninck and others presenting the various forms of art that dominated the scene in seventeenth century Holland 112 colour illustrations      *The Furnished Landscape* William Tillyer,1977      The Horticulturist and Journal of Rural Art and Rural Taste ,1862      *Rural Writing* Mauricette Fournier,2019-01-17 If as a corollary of urbanization many artists seized as early as the nineteenth century and most of the twentieth century the city as object and scene of their reflection on a world under construction it was not the same for rural areas Generally speaking until recently the countryside s representations have been shaped by the writings of a ruling class However in recent decades alongside the country novels or terroir novels that follow in line with the rustic current initiated in the nineteenth century more demanding literary productions have emerged These writings often fed by the sense of loss and the end of a certain agricultural lifestyle are also exploring the contemporary reconstructions of

rural areas little publicized They redefine a new regionality less militant and certainly less connoted in its nostalgic link to the land This book revisits rural areas and their representations in contemporary writing in both popular and high culture in order to draw a global landscape of current rural areas and new regionalities The Pros & Cons of Dragon-Slaying Labriola, Anthony, 2015-03 This collection shows us the battles fought lost and won when we strive to live life to the fullest In the fabled adventures in both this world and the next there are many quests to be embarked on with countless clashes with dragons seen and unseen In The Pros Cons of Dragon Slaying the characters struggle with the bewildering aspects of existence and try to prevail against the forces that are arrayed against them or that are besieging them from within Despite their multiple points of view which range from the farce to the surreal these crusade stories all speak in harmony as they reveal life s stunning surprises and twisted ironies The tales also speak for life against death for love against apathy and for the human spirit against all forms of oppression But as you weigh the pros and cons of dragon slaying take care to watch out for the tempters and demons of inwardness Beware the dragons of the mind *Jackaby* William Ritter, 2015-08-25 Sherlock Holmes crossed with Buffy the Vampire Slayer Chicago Tribune Newly arrived in New Fiddleham New England 1892 and in need of a job Abigail Rook meets R F Jackaby an investigator of the unexplained with a keen eye for the extraordinary including the ability to see supernatural beings Abigail has a gift for noticing ordinary but important details which makes her perfect for the position of Jackaby s assistant On her first day Abigail finds herself in the midst of a thrilling case A serial killer is on the loose The police are convinced it s an ordinary villain but Jackaby is certain the foul deeds are the work of the kind of creature whose very existence the local authorities with the exception of a handsome young detective named Charlie Cane seem adamant to deny The rich world of this debut demands sequels Kirkus Reviews starred review We honestly couldn t put it down Nerdist com Toss together an alternate 19th century New England city a strong tradition of Sherlockian pastiche and one seriously ugly hat and this lighthearted and assured debut emerges all action and quirk Publishers Weekly A Top Ten Fall 14 Kids Indie Next Pick A 2014 Kirkus Reviews Best Book for Young Adults A 2015 YALSA Top Ten Best Fiction for Young Adults Title A 2015 Pacific Northwest Book Award Winner A 2015 2016 Georgia Peach Award Nominee A Junior Library Guild Selection **The Limits** Dan M. Mrejeru, 2006-02-20 The Limits is my first work in English with English as my second language It dates back to 1994 It has been my first intellectual attempt since I came to the U S in 1985 My first try in 1994 was a very hard work which at that time went nowhere because of my language limitations and because my general knowledge was not to the level of this task However at the beginning of 1995 I abandoned this writing as a literary work and turned toward upgrading my scientific knowledge through personal study In 2000 I made a new attempt and the result was the original draft of the Seven Essays on Creation which is my second book with AuthorHouse In 2001 I abandoned this new work and continued with my science study A special conjecture in 2003 made me publish the first book with AuthorHouse which was Multiple Harmonics Create the Patterns of Real World from Chaos After publishing this at the

beginning of 2004 when I threw away mountains of old papers I discovered the Seven Essays and I decided to give it another chance In three months it became another book which was the Seven Essays on Creation which was also published in 2004 In September 2005 while searching among some old papers I discovered the original draft of The Limits and I decided to do something about it I have to say that The Limits has been on my mind for more than ten years and I adored this old work However I was afraid that I would never be again be capable of writing the way I did in 1994 In the meantime I was happy that at the present I had the answer to the philosophy that I wondered about eleven years ago It was the nonlinear thinking that changed me a lot over the years It was real and I decided to rewrite The Limits I tried to preserve as much as possible from the old draft and I inserted in each chapter some nonlinear wisdom

**Research** Jocelyn Thorpe,Stephanie Rutherford,L. Anders Sandberg,2016-11-10 This book examines the challenges and possibilities of conducting cultural environmental history research today Disciplinary commitments certainly influence the questions scholars ask and the ways they seek out answers but some methodological challenges go beyond the boundaries of any one discipline The book examines how to account for the fact that humans are not the only actors in history yet dominate archival records how to attend to the non visual senses when traditional sources offer only a two dimensional non sensory version of the past how to decolonize research in and beyond the archives and how effectively to use sources and means of communication made available in the digital age This book will be a valuable resource for those interested in environmental history and politics sustainable development and historical geography The Gardener's Magazine and Register of Rural and Domestic Improvement ,1833 Art, Space and the City Malcolm Miles,2005-08-16 Public art the making management

and mediation of art outside its conventional location in museums and galleries and the livable city a concept involving user centred strategies for urban planning and design are both socially produced but have emerged from different fields and tend to be discussed in isolation This book applies a range of critical perspectives which have emerged from different disciplines art criticism urban design urban sociology geography and critical theory to examine the practice of art for urban public spaces seeing public art from positions outside those of the art world to ask how it might contribute to possible urban futures Exploring the diversity of urban politics the functions of public space and its relation to the structures of power the roles of professionals and users in the construction of the city the gendering of space and the ways in which space and citizen are represented the book explains how these issues are as relevant to architecture urban design and urban planning as they are to public art Drawing on a wealth of images from across the UK and Europe and the USA in particular the author questions the effectiveness of public art in achieving more convivial urban environments whilst retaining the idea that imagining possible futures is as much part of a democratic society as using public space
