shoulders of scholars who are conversant with the non Western translation traditions and capable of engaging in much needed basic research This book brings together eleven scholars with expertise in different Asian translation traditions who highlight language and cultural environments as well as perceptions and modes of operation often different from those in the Western tradition Their contributions enhance our understanding of the various elements that influence the transfer of knowledge across cultures and provide invaluable data for the study of translation as a force for cultural development and cultural planning Contributors include Eva Hung Judy Wakabayashi Lawrence Wong Yoshihiro Osawa Teresa Hyun Keith Taylor Rita Kothari Doris Jedamski Raniela Barbaza and Bill Cummings
