## Home Cooking Fish And Shellfish:

Cooking Wild John Ash, James O. Fraioli, 2025-05-01 To eat wild foods you needn't crawl through the forest or hunt your own game. Many wild foods are as close by as your local supermarket. But this doesn't mean that wild foods aren't worth the hunt. This book takes a big view of wild including recipes and information on both foraged uncultivated foods as well as looking at the progeny of wild foods more conveniently found for sale alongside their conventional cousins. Increasingly Americans are concerned about where their food comes from, how it's produced, packaged and marketed. Heritage breeds, paleo diets, farmers markets and environmental and climate concerns all point to increased interest in foods that are as natural and unmanipulated as they can be. Plants, seafood, meat and birds are all covered in more than 150 recipes and will serve as a historical agricultural education for your kitchen. *Book of Southern and Creole Home Cooking*

**Resources in Education**, 1987-10 School and Home Cooking Carlotta Cherryholmes Greer, 1920 *Sea Robins, Triggerfish & Other Overlooked Seafood* Matthew Pietsch, James Fraioli, 2017-09-19 Today our oceans contain an abundance of delicious, underutilized and lesser known varieties of fish. Frequently these unfamiliar species are pulled up when commercial fishermen are looking for something else. These non-targeted species, known as bycatch, are often dumped back into the ocean, dead or barely alive. What if we didn't discard those perfectly edible fish? What if we introduced them to consumers looking for a change on the menu who care about where their seafood comes from? That's what *Sea Robins*. *Triggerfish* is all about taking the pressure off heavily targeted species like swordfish and tuna and introducing home cooks and professional chefs to many new species being unloaded on today's docks. Let's celebrate these other fish in the sea by enjoying a bounty of mouthwatering recipes prepared by Chef Matthew Pietsch, owner of the celebrated Michigan restaurant Salt of the Earth. Pietsch's vast culinary knowledge and skill demonstrated through his fun, straightforward approach will guide seafood lovers every step of the way, as he and James Beard award winner James O. Fraioli encourage seafood consumers to support and promote those underutilized and underappreciated fisheries while still enjoying quality seafood at an affordable price.
