Human Commodity Trafficking:

Exotic Commodities Frank Dikötter, 2007-03-27 *Exotic Commodities* is the first book to chart the consumption and spread of foreign goods in China from the mid nineteenth century to the advent of communism in 1949 Richly illustrated and revealing this volume recounts how exotic commodities were acquired and adapted in a country commonly believed to have remained hostile toward alien things during the industrial era China was not immune to global trends that prized the modern goods of civilized nations Foreign imports were enthusiastically embraced by both the upper and lower classes and rapidly woven into the fabric of everyday life often in inventive ways Scarves skirts blouses and corsets were combined with traditional garments to create strikingly original fashions Industrially produced rice sugar wheat and canned food revolutionized local cuisine and mass produced mirrors were hung on doorframes to ward off malignant spirits Frank Dikötter argues that ordinary people were the least inhibited in acquiring these products and therefore the most instrumental in changing the material culture of China Landscape paintings door leaves and calligraphy scrolls were happily mixed with kitschy oil paintings and modern advertisements Old and new interacted in ways that might have seemed incongruous to outsiders but were perfectly harmonious to local people This pragmatic attitude would eventually lead to China's own mass production and export of cheap modern goods which today can be found all over the world The nature of this history raises the question which Dikötter pursues in his conclusion If the key to surviving in a fast changing world is the ability to innovate could China be more in tune with modernity than Europe

Illegal Immigration and Commercial Sex Phil Williams, 2012-10-12 Examining the dynamics of the sex trade in both Europe and Asia this study identifies the role of organized crime and considers the counter measures which governments and law enforcement agencies must take to combat this global problem

Geography of Trafficking Fred M. Shelley, Reagan Metz, 2017-10-27 This important reference work examines trafficking from a geographic perspective and investigates the driving forces behind it and the powers that are trying to curtail the problem The worldwide crime of trafficking involves countless people animals and animal parts and illicit goods such as drugs and weapons being moved and sold illegally Often the trafficking occurs with the local government or law enforcement's knowledge and complicity This one volume encyclopedia sheds light on a frightening and major issue investigating the geography of trafficking and examining a range of examples of illegal human animal drug and weapons movement around the world After a preface and introduction that provides an exact definition of trafficking the encyclopedia presents thematic essays that explore the various specific kinds of trafficking Approximately 30 country profiles describe who and what is trafficked in each country the motivations of those doing the trafficking where people and things are being moved to how the trafficking occurs and what actions are being taken in an effort to prevent it An appendix of primary documents interesting sidebars a bibliography and a glossary listing key terms and important organizations round out the work

Dark Logic Robert Mandel, 2011 This book constitutes the first major study showing 1 when transnational

organized crime is likely to use corruption and violence tactics 2 when transnational criminal activities most affect individual and state security and 3 when the negative consequences of these tactics and activities can be most successfully combated

"Labor is Not a Commodity!" Philipp Reick, 2016 The past decades witnessed a powerful return of struggles against what economic historian Karl Polanyi termed the commodification of social life This book explores how organized workers in two metropolises of the late nineteenth century responded to the commodification of labor In doing so it reveals a striking continuity in collective opposition against the unfettered power of free markets Drawing on contemporary feminist revisions of Polanyian thought this book illustrates the ambiguous potential of movements for social protection Back cover

Roger A. Gerard,2024-06-04 In a work environment where micromanagement devaluing of workers and even bullying run rampant it s no wonder professionals today are more disengaged than ever They do not feel their perspectives are being heard or their expertise valued leading to a slow erosion of organizational culture which only contributes to more disengagement It s a vicious circle and it s causing negative impacts on organizations of all kinds from stifled innovation to costly turnover to loss of customer and social confidence So who is responsible for fixing it The leaders of course With deep insights drawn from his 53 year career as a healthcare executive and leadership consultant Dr Roger A Gerard explains how leaders can bring passion and drive back to their demotivated professionals using time tested approaches such as Empathetic listening with an expectation that their opinions will be influenced by their employees Respecting the autonomy of their professionals to follow their intuition Providing the tools resources and guidance professionals need to achieve their most ambitious dreams As a leader do you have the courage to confront the challenges in your organization and the compassion to respect and recognize the professionals who work in it Censored 2010 Peter Phillips,Mickey Huff,Project

Censored,2011-01-04 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories **The Routledge Handbook of Africana Criminologies** Biko Agozino,Emmanuel

Onyeozili,Nontyatyambo Dastile,Viviane Saleh-Hanna,2020-12-29 The Routledge Handbook on Africana Criminologies plugs a

gaping hole in criminological literature which remains dominated by work on Europe and settler colonial locations at the expense of neocolonial locations and at a huge cost to the discipline that remains relatively underdeveloped. It is well known that criminology is thriving in Europe and settler colonial locations while people of African descent remain marginalized in the discipline. This handbook therefore defines and explores this field within criminology moving away from the colonialist approach of offering administrative criminology about policing courts and prisons and making a case for decolonizing the wider discipline. Arranged in five parts it outlines African criminologies, maps its emergence and addresses key themes such as slavery, colonialism and apartheid as crimes against humanity, critiques of imperialist reason, African cultural criminology and theories of law enforcement and African people. Coalescing a diverse range of voices from Africa and the diaspora, the handbook explores outside Eurocentric canons in order to learn from the experiences, struggles and contributions of people of African descent. Offering innovative ways of theorizing and explaining the criminological crises that face Africa and the entire world with the view of contributing to a more humane world, this groundbreaking handbook is essential reading for criminologists and sociologists worldwide as well as scholars of African studies and African studies.

Market and Violence Heide Gerstenberger, 2022-10-10 Winner of the Deutscher Memorial Prize 2023. Despite their many disagreements when it comes to the subject of capitalism, Marxist and market liberal approaches seem to agree about one thing: the economic structures of capitalist market society have made direct violence against the person not only superfluous but economically counterproductive. Heide Gerstenberger's *Market and Violence* does not contest the thesis that there has been in many places a decline in the use of violence in the pursuit of profit, but it demolishes the assumption that this can be put down to the evolution of economic rationality. By means of a deep engagement with the concrete historical reality of capitalist economies, Gerstenberger establishes that wherever capitalism has been tamed, this has been achieved only by a combination of energetic social contestation and political intervention. First published in German in 2018, the present English language edition makes a sweeping history of capitalist violence by one of the preeminent theorists of capitalist society working today available to a wider readership.

Contemporary Global Perspectives on Gender Economics Moore, Susanne, 2015-07-24. The rise of women in the workforce has led to many campaigns for wage equality and the impartial treatment of both sexes as they pursue careers previously designated as either a man's or a woman's job. The impact of these campaigns has been felt, but a sense of gender stereotyping still affects not only the social and cultural well-being of the modern organization but the drive for innovation and economic success as well. *Contemporary Global Perspectives on Gender Economics* challenges current economic theory, targeting the way gender is often used for economic gain or increased market share. Experts realize that company growth can no longer be achieved by taking a conventional approach, but few follow through with introducing new frameworks that change the way diversity is treated. By acknowledging that issues like childcare and the wage gap are not only a woman's challenge, this book speaks to legislators and policymakers, economic

developers corporate practitioners educational faculties and students of all disciplines who are looking to change the way gender is viewed in the workforce This essential reference source features chapters that combine the concepts of gender theory sociology and economics and cover topics including economic equality gender bias the history of gender economics industrial creativity and the impact of social connectedness on life satisfaction **International and Transnational Crime and Justice** Mangai Natarajan,2019-06-13 Provides a key textbook on the nature of international and transnational crimes and the delivery of justice for crime control and prevention **Global Problems, Global Solutions** JoAnn Chirico,2018-10-23 Global Problems Global Solutions Prospects for a Better World approaches social problems from a global perspective with an emphasis on using one's sociological imagination Perfect for instructors who involve students in research this text connects problems borne by individuals to regional global and historical forces and stresses the importance of evidence in forming opinions and policies addressing social issues The book introduces readers to the complexities of the major problems that confront us today such as violent conflict poverty climate change human trafficking and other issues that we encounter in our lives It book concludes with a chapter on politics and government underscoring the need for good governance at all levels and cooperation among many layers of government to build a better world *Responding to Domestic Violence* Stephanie Holt,Carolina Overlien,John Devaney,2017-11-21 How can our legal health and social care systems achieve a more effective response to domestic violence Based on new evidence this book discusses the most effective ways to understand and tackle domestic abuse **Necroculture** Charles Thorpe,2016-06-24 In this book the author draws on Karl Marx's writings on alienation and Erich Fromm's conception of necrophilia in order to understand these aspects of contemporary culture as expressions of the domination of the living by the dead under capitalism Necroculture is the ideological reflection and material manifestation of this basic feature of capitalism the rule of dead capital over living labor The author argues that necroculture represents the subsumption of the world by vampire capital **Education** Nok Alhas Maicibi,2005 Modern Insights and Strategies in Victimology Borges, Gabriela Mesquita,Guerreiro, Ana,Pina, Miriam,2024-03-22 The study of victimization is experiencing profound changes with the introduction of new challenges and demands From emerging forms of victimization to the continuous evolution of perpetrators methods these shifts necessitate critical adjustments of the study at theoretical and practical levels The scientific community as well as public communities and institutions of justice grapple with the intricate connections between crime victims and the justice system Amidst this urgency there is a distinctive need for a comprehensive resource that not only delves into the complexities of victimology but also addresses the evolving theoretical and practical frameworks shaping the field Victimization has transformed into unprecedented forms impacting individuals communities and institutions These changes create a demand for innovative solutions at multiple levels The scientific community faces the challenge of adapting theoretical approaches prevention and intervention strategies to keep pace with evolving victimization methods Communities and organizations require new

protection strategies particularly in the face of collective victimization Within justice systems constant vigilance and adaptation are essential to navigate the complexities of these transformations Modern Insights and Strategies in Victimology serves as the definitive solution to the pressing challenges presented by the evolving landscape of victimology Exclusively featuring qualitative studies the book offers a unique perspective by delving deeply into the lived experiences narratives and emotions within the justice system Through its contemporary and systematic approach the handbook integrates theoretical approaches with recent empirical studies emphasizing qualitative methodologies The book is a testament to its commitment to enriching academic scholarship while providing invaluable insights to victim assistance professionals policymakers and decision makers
