Human Existence Contradiction And Hope:

Human Existence Walter Strolz,1967-11

The Philosophy of Emil Fackenheim Kenneth Hart Green,2020-10-08

Fackenheim was one of the most philosophically serious knowledgeable and provocative contemporary Jewish thinkers His original focus as a philosophical theologian was mainly on revelation but in his later work he concerned himself primarily with the wide ranging implications of the Holocaust In this book Kenneth Hart Green examines Fackenheim s intellectual trajectory and traces how and why he focused so intently on the Holocaust He explores the deeper thought that Fackenheim developed about the Holocaust which he construed as a cataclysmic event that ruptured history and one that also brought about a change in the very structure of being As Green demonstrates the Holocaust according to Fackenheim s interpretation changes how we view all things from God to man to history It also radically affects Judaism Christianity and philosophy the major traditions that have shaped the Western world

Hope and the Kantian Legacy Katerina Mihaylova,Anna

Ezekiel,2023-09-21 Hope is understood to be a significant part of human experience including for motivating behaviour promoting happiness and justifying a conception of the self as having agency Yet substantial gaps remain regarding the development of the concept of hope in the history of philosophy This collection addresses this gap by reconstructing and analysing a variety of approaches to hope in late 18th and 19th century German philosophy In 1781 Kant s idea of a rational hope shifted the terms of discussion about hope and its role for human self understanding In the 19th century a wide ranging debate over the meaning and function of hope emerged in response to his work Drawing on expertise from a diverse group of contributors this collection explores perspectives on hope from Kant Fichte Schelling Schopenhauer J S Beck J C Hoffbauer Wilhelm von Humboldt Georg Friedrich Creuzer Kierkegaard and others Chapters consider different aspects of the concept of hope including the rationality of hope appropriate and inappropriate applications of hope and the function of hope in relation to religion and society The result is a valuable collection covering a century of the role of hope in shaping cognitive attitudes and constructing social political and moral communities As an overview of philosophical approaches to hope during this period including by philosophers who are seldom studied today the collection constitutes a valuable resource for exploring the development of this important concept in post Kantian German philosophy

Loss and Hope Peter Admirand,2014-05-22

What are the spiritual consequences of abuse and trauma Where is God How and why does such senseless suffering occur What is the relationship between loss and hope What are the benefits of examining loss and hope from an interreligious focus These are some of the questions addressed in this volume written by leading international scholars and which also includes contributions by those who have suffered survivors of genocide and state terror Case studies of loss and hope from around the world are discussed including from the United States Ireland Sri Lanka India Iran Iraq Argentina China and Chile Religions examined include Buddhism Islam Christianity Judaism and Hinduism Three interconnected lenses are used to

explore new perspectives on loss and hope survivors and victims testimony interfaith studies and ethical approaches The book highlights the need for responses to atrocity that transcend differences within gender class religion race and ethnicity The authors stress the need for partnership and dialogue from an interfaith perspective and while neither hiding nor unduly minimizing the extent of losses in the world attempt to establish an ethics of hope in the face of destabilizing losses in the realms of human rights and post conflict resolution Loss and Hope is the first book to bring together this high level and diversity of scholars living and working all over the world from different faith cultural and ethnic backgrounds examining the universal themes of loss and hope

C. Stephen Evans,2019-10-29 We live spiritually when we live in the presence of God The Danish philosopher S ren Kierkegaard is often read for his contributions to Christian theology but he also has much to offer about spirituality both Christian and more generally human C Stephen Evans assesses Kierkegaard s belief that true spirituality should be seen as accountability the grateful recognition of our existence as gift Spirituality takes on a Christian flavor when one recognizes in Jesus Christ the human incarnation of the God who gives us being In this clearly written and substantive book a leading scholar on Kierkegaard s thought makes Kierkegaard s contributions to spirituality accessible not only to philosophers and theologians but to pastors spiritual directors and lay Christians The Kierkegaard and Christian Thought series coedited by C Stephen Evans and Paul Martens aims to promote an enriched understanding of nineteenth century philosopher theologian S ren Kierkegaard in relation to other key figures in theology and key theological concepts The Struggle of Human

Olthuis,2022-06-08 In the twenty first century amid globalized violence rising demagogues and the climate emergency contemporary philosophers and theologians have begun to debate a fundamental question Is our reality the result of the overflowing ever present creativity of Love or the symptom of a traumatic rupture at the heart of all things Drawing on decades of research in postmodern philosophy and experience as a psychotherapist James H Olthuis wades into this discussion to propose a radical ontology of Love without metaphysics In dialogue with philosophers like John D Caputo Slavoj i ek Luce Irigaray and others Olthuis explores issues from divine sovereignty and the problem of evil to trauma and social ethics Experience in therapeutic work informs these investigations rooting them in journeys with individuals on the path to healing Olthuis makes the bold claim that while trauma pain and suffering are significant parts of our human lives nevertheless Love is with us to the very end Creation is a gift that comes with a call to make something of it ourselves a risky task we must take on with the promise that Love will win We are all dancing in the wild spaces of Love ex amore cum amore ad amorem The Games People Play Robert Ellis,2014-04-21 In *The Games People Play* Robert Ellis constructs a theology around the global cultural phenomenon of modern sport paying particular attention to its British and American manifestations Using historical narrative and social analysis to enter the debate on sport as religion Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion Through biblical and theological reflection he presents a practical theology of sport s appeal and value with special attention to the theological concept of transcendence Throughout he draws on original empirical work with sports participants and spectators *The Games People Play* addresses issues often considered problematic in theological discussions of sport such as gender race consumerism and the role of the modern media as well as problems associated with excessive competition and performance enhancing substances As Ellis explains Sporting journalists often use religious language in covering sports events Salvation features in many a headline and talk of moments of redemption is not uncommon Perhaps somewhere beyond the cliched hyperbole there is some theological truth in all this after all **Making Friends Across the Boundaries of Religious Differences** DEUSDEDIT NKURUNZIZ,2014-12-09 *Making Friends Across the Boundaries of Religious Differences* Religions Building Peace for a New World Order discusses the meaning reality and dynamism of religion explores different faiths religious traditions currently influencing humanity today and argues that interreligious dialogue is the way to go for the people of different religions to work together to enhance a culture of justice human rights democratic governance nonviolence and peace in the world today While religion has been used to cause conflict violence and war the book explains how in this time of globalization faith and religion can be enhanced

as resources for a new world order of justice and peace The book further highlights interreligious dialogue as a methodology and way of life which brings about unity in diversity advocacy for a world without terrorism theological perspectives women in interreligious dialogue and how in Africa interreligious action is the soul of social economic transformation African Renaissance and Cosmopolitanism **The Tragedy of Finitude** Jos de Mul,2004-01-01 The author then elaborates a systematic reconstruction of Dilthey s ontology of life In the final section of the book Dilthey s hermeneutic ontology is confronted with the works of Heidegger Gadamer and Derrida and its relevance in current philosophical debate is evaluated Jacket **Story and Promise** Robert W. Jenson,2014-12-02 The respected American theologian Robert Jenson here in brief compass presents his uncluttered understanding of the Christian message in a form ideal for beginning students laypeople and clergy Professor Jenson sees the heart of the gospel as the unconditional promise of the ultimate triumph of the love of Jesus of Nazareth This gospel is based on the story of Jesus and is worked out in the lives of men and of nations as the promise it brings moves towards fulfillment Story and Promise we dare to call it a one volume dogmatics leaves no element of the Christian faith untouched the classical doctrines concerning God Christ the Holy Spirit man the church the clearly radical implications of these doctrines for personal and social transformation the focus of Christian vision on the future as the time when God comes and man becomes what God intends This book clarifies the traditional problems of faith and also raises the revolutionary issues marking the end of this century It is a thoughtful and satisfying piece of systematic theology in a time of shattered understandings of the faith Albert Camus's Philosophy of Communication ,
