texts to appreciate the nature of the battle between the Enlightenment and its critics which has shaped current thought

Classical Readings on Culture and Civilisation presents essays from Immanuel Kant Adam Ferguson Thomas Jefferson Alexis de Tocqueville Friedrich von Schiller Friedrich Nietzsche Georg Simmel Thomas Mann Sigmund Freud Emile Durkheim Marcel Mauss Lucien Febvre Alfred Weber Robert E Park and Norbert Elias      *Sexuality in World History* Peter N. Stearns, 2017-02-14 This book examines sexuality in the past and explores how it helps explain sexuality in the present The subject of sexuality is often a controversial one and exploring it through a world history perspective emphasizes the extent to which societies including our own are still reacting to historical change through contemporary sexual behaviors values and debates This new edition examines these issues on a global scale with attention to anthropological insights on sexuality and their relationship to history the dynamics between sexuality and imperialism sexuality in industrial society and trends and conflicts surrounding views of sex and sexuality in the contemporary world      American History from a Global Perspective

David Russo, 2000-03-30 This study is the first interpretive text for the study of American exceptionalism and the first overall assessment of geographic political economic social and cultural aspects of the American past written from a global perspective Russo argues that life in the United States can be better understood if it is examined from either a wider perspective the English speaking world the Western Hemisphere Western Civilization or a narrower perspective regional and local variations Even when the Americans were innovative in their multi ethnic and multi racial society in their egalitarian social beliefs in their political democracy their innovations were soon copied by others Therefore Russo argues they are no longer distinctly American Using nations as the basis for fields of study can both reveal and distort the historical record When one considers different perspectives America's uniqueness recedes in importance American culture was a variant of a wider Western culture The American economy was an extension of Western capitalism whether agrarian commercial or industrial American society was a Western society with racial castes and multi ethnic additions to the population American government functioned like other Western governments even with innovative forms Republican then democratic The American past is thus seen to be far less distinctive than previous syntheses have assumed      **The Divine Body in History**

Ankur Barua, 2009 This is a study in the field of comparative philosophy of religion It initiates a dialogue between St Augustine and R m nuja by focusing on two central themes time and embodiment that play a crucial role in their thought The elaborations of these two themes by St Augustine and R m nuja have continued to exert a tremendous influence on the histories of European thought and of Hindu movements centred around the notion of bhakti The examination of the symbolism through which these thinkers articulate their understanding of time and embodiment also challenges certain stereotypes related to classical Indian thought and Latin Christendom such as the former's lack of historical consciousness and the latter's denigration of the human body This study shows how the west and east have traditionally engaged with concepts such as temporality progress and the metaphysical status of finite and bio physical reality      *Always in Pursuit*

Stanley Crouch, 2010-02-24 As a cultural and political commentator Stanley Crouch is unapologetically contentious and delightfully iconoclastic Whether he is writing on the uniqueness of the American South the death of Tupak Shakur the O J Simpson verdict or the damage done by the Oklahoma City bombing Crouch's high velocity exchange with American culture is conducted with scrupulous allegiance to the truth even when it hurts and it usually does And on the subject of jazz from Sidney Bechet to Billy Strayhorn Duke Ellington to Miles Davis there is no one more articulate impassioned and encyclopedic in his knowledge than Stanley Crouch Crouch approaches everything in his path with head on energy restless intelligence and a refreshing faith in the collective experiment that is America and he does so in a virtuosic prose style that is never less than thrilling

Reading World Literature Sarah Lawall, 2010-01-01 As teachers and readers expand the canon of world literature to include writers whose voices traditionally have been silenced by the dominant culture fundamental questions arise What do we mean by world What constitutes literature Who should decide Reading World Literature is a cumulative study of the concept and evolving practices of world literature Sarah Lawall opens the book with a substantial introduction to the overall topic Twelve original essays by distinguished specialists run the gamut from close readings of specific texts to problems of translation theory and reader response The sequence of essays develops from re examinations of traditional canonical pieces through explorations of less familiar works to discussions of reading itself as a literacy dependent on worldview Reading World Literature will open challenging new vistas for a wide audience in the humanities from traditionalists to avant garde specialists in literary theory cultural studies and area studies
