Russ-Eft, 2005-03      **Hrd Practices in Apsrtc** Dr. Santosha Pavani Tammineni, 2016-06-28 A complete study on implementation of HRD practices in APSRTC at zonal level is rare in number In contrast to the earlier practices an attempt has been made by the researcher to trace out the impact of HRD practices on employees at zonal level and to investigate whether it is implemented in letter and spirit or not by reviewing operational performance of APSRTC and its financial function This work is not only an in depth study of HRD practices in APSRTC the study also presents an overview of the road transport sector in India With the advent of globalization transport sectors are confronted with challenges in improving productivity by successfully meeting the intense level of competition from its counterparts Business today is in a period of change and uncertainty The success will largely depend on how these challenges are matched with the utilization of human resources that is at our disposal It has been very unfortunate that the APSRTC has limited its human resource developmental practices for some cadres at apex level only without taking organizational climate of various zones into account while training their managerial personnel But the need of the hour is to put more emphasis on all the HRD practices at managerial level in the background of their level of climate The researcher looks at the problems of implementing HRD practices in the context of changing technological advancement and government policies      *Supporting Education □ The Teaching Assistant's Handbook* Karen Kearns, 2012-05-07 Supporting Education The Teaching Assistant's Handbook provides the essential information needed to complete the Certificate III in Education Support in the Community Services Training Package This resource provides Teaching Assistants within overview of child development and how children learn as well as an introduction to the key learning areas for primary school students Links to a wide range of online resources and information are also included along with strategies for working with students and teachers      **OECD Reviews of Vocational Education and Training A Skills beyond School Review of the United States** Kuczera Małgorzata, Field Simon, 2013-07-10 This book examines vocational education and training programmes in the United States including coverage of how they are changing how they are funded how they are linked to academic and university programmes and how employers and unions are involved      **Organizational Behavior** Fred Luthans, Brett C. #### **A Study on Silver Workers**

**Residing in Vadodara City** Avani Maniar, Shivani Mehta, 2017-08 Population ageing is a process no longer confined to industrialized countries Many developing countries are now also experiencing ageing of their populations reflected by the rising share of the elderly in the total population Not only are developing countries ageing they are ageing at a much faster rate and at a much earlier stage of economic development thus placing them at a greater disadvantage in terms of their ability to respond to ageing developments The availability of domestic resources for example to finance ageing pressures on public finances and public services are likely to be more limited In addition the political timeframe available to formulate and implement appropriate policy responses will be shorter Developing countries are confronting ageing pressures at a time when social security coverage is still limited to a minority of the better off elderly population and when the systems of protection which have supported the elderly in the past are gradually eroding Old age is commonly associated with retirement illness and dependency Most government jobs have set the retirement age at sixty However in a country such as India where no universal social security exists people tend to work as long as they can About seventy percent of the elderly in India still work like the rest of the adults It is important to recognize the strengths of the old and empower them rather than to adopt a paternalistic attitude that can have devastating impact on the self esteem of the elderly citizens This study takes a close look at silver workers in Vadodara India who are working in their retirement age By undertaking such a research the government and civil society will be enabled to provide a better work environment for the silver workers
