## **Human Community:**

**The Globalizing World and the Human Community**, 2016-03-02 Publication of the proceedings of the 3rd Seoul International Literature Forum held in May 2011 will make the papers presented at the forum available to a readership larger than the audience that participated in its various events The theme of the forum was The Globalizing World and the Human Community Included under this general theme were sections dealing with various problems the writer faces in today's world the conditions of increasing pressure in an enlarged market which the writer cannot help but be aware of and be influenced by the changing nature of the readership as it becomes more multicultural and global and the status of writing in the developing multimedia world Continuing with the topics of previous forums there were also sections on ecological problems which are being made all the more acute by the process of globalization problems of enormous importance for all of humanity but more sensitive issues for writers with their deep involvement in the reality of people whose life cannot be lived too far away from the earthly environment The second part of the main theme stated above The Human Community expresses what we suppose to be a major concern of many writers writing today the possibility of a human community emerging out of the globalization though we grant at the same time that absorption of a deeply personal kind in human reality also belongs among the writer's privileges From the Foreword by Kim Uchang *The City* Robert Ezra Park, Ernest Watson Burgess, Roderick Duncan McKenzie, 1925 **God's Church-Community** David Emerton, 2020-07-09 David Emerton argues that Dietrich Bonhoeffer's ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology Building on a rigorous and provocative discussion of Bonhoeffer's thought Emerton establishes a programmatic theological grammar for any speech about the church Emerton argues that Bonhoeffer understands the church as a pneumatological and eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations These foundations in turn give rise to a unique methodological approach to ecclesiological description an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action *Visions of World Community* Jens Bartelson, 2009-10 A philosophical and historical analysis of the idea of world community from the late Middle Ages to the present *The Matthean Community and the World* James P. Grimshaw, 2008 This study of the Matthean narrative uses the interpretive lens of food exchange to explore the Matthean community's relationship with the wider world While many studies depict this community as withdrawing from or in conflict with the larger society James P

Grimshaw's focus on the daily need for food reveals a community that while distinct progressively integrates itself into the larger Jewish and Gentile society and the natural world. In addition, this view of community corresponds to the view of a God who actively provides for and relates to all creation. Grimshaw's alternative portrayal of the Matthean community whose interactions with its surrounding environment are more complex and sustained than often imagined is a compelling interpretation for today's stratified and disconnected world. **Land, Value, Community** Wayne Ouderkirk, Jim

Hill, 2002-01-17 Leading scholars critically assess the pioneering environmental philosophy of J. Baird Callicott. *Deviant Behavior* Edward J. Clarke, 2007-11-06 These readings explore the implications of deviance for both the individual and society, examining the responses of society to deviant behaviour and the reasons why certain people violate the social norm. The text probes the deviant categories, the motivations behind deviant behaviour, and the efforts of those considered deviant to shake the label.

**Transforming Practices** Stephen Kemmis, 2022-01-29 This textbook shows how people can and do transform the world through transforming their practices and the practice architectures that shape them and contribute to contemporary practice theory. It provides an authoritative comprehensive and contemporary account of the theory of practice architectures illustrated through examples drawn from years of research by participants in the Pedagogy Education and Praxis international research network from Australia, New Zealand, Finland, Norway, Sweden, the Netherlands, Colombia, and the Caribbean. Its content provides a variety of resources for researchers who are new to research using the theory of practice architectures. It includes tables to assist with the analysis of practices and provides clear examples to aid understanding and application. This textbook provides readers with a thorough grounding in the theory and ways the theory of practice architectures has been used in investigations of social and educational practice. Sloane, 2011-11-14 Evangelical and feminist approaches to Old Testament interpretation often seem to be at odds with each other. The authors of this volume argue to the contrary: feminist and evangelical interpreters of the Old Testament can enter into a constructive dialogue that will be fruitful to both parties. They seek to illustrate this with reference to a number of texts and issues relevant to feminist Old Testament interpretation from an explicitly evangelical point of view. In so doing, they raise issues that need to be addressed by both evangelical and feminist interpreters of the Old Testament and present an invitation to faithful and fruitful reading of these portions of Scripture. **Bringing Bernard Lonergan Down to Earth and into**

**Our Hearts and Communities** John Raymaker, Godefroid Alekiabo Mombula, 2018-11-29 Bernard Lonergan is a world-renowned philosopher, methodologist, and theologian. The complexity of his work has tended to limit his accessibility to average readers. *Bringing Bernard Lonergan Down to Earth* seeks to remedy this limitation by showing how Lonergan did address problems of community life. He also broadened his interest after writing *Insight* to include a reaching into our hearts as modeled, for example, by the genius Blaise Pascal. Lonergan also sought to bridge religious divides. Here the Christian theological virtues of faith, hope, and love are indispensable, but that does not curtail from Lonergan's uncanny ability to reach

out to secularists by focusing on ethics The importance of Lonergan s interdisciplinary work is signaled in the book s twelve explorations in the concluding Part IV that detail for interested readers his extraordinary ability to solve major philosophical issues

**Environmental Justice in African Philosophy** Munamoto Chemhuru,2022-04-07 This book focuses on environmental justice in African philosophy highlighting important new perspectives which will be of significance to researchers with an interest in environmental ethics both within Africa and beyond Drawing on African social and ethical conceptions of existence the book makes suggestions for how to derive environmental justice from African philosophies such as communitarian ethics relational ethics unhu ubuntu ethics ecofeminist ethics and intergenerational ethics Specifically the book emphasises the ways in which African philosophies of existence seek to involve everyone in environmental policy and planning and to equitably distribute both environmental benefits such as natural resources and environmental burdens such as pollution and the location of mining industrial or dumping sites This extends to fair distribution between global South and global North rich and poor urban and rural populations men and women and adults and children These principles of humaneness relationships equality interconnectedness and teleologically oriented existence among all beings are important not only to African environmental justice but also to the environmental justice movement globally The book will interest researchers and students working in the fields of environmental ethics African philosophy and political philosophy in general

Educating for Humanity Mike Seymour, Henry M. Levin,2015-11-17 At a time of profound crises around the world when social justice peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration for education Ample evidence from many schools today and dating back throughout the last century prove that the purpose of educating young people to develop character compassion purpose and commitment is integral with the mastery of intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the personal values people take with them to the world Unfortunately as the saying goes if you don t know where you re going you ll probably get someplace else Educational policy directions over the last twenty years have veered far away from the important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes

testing school choice and privatization of education in looking beyond these measures to new approaches to educational excellence

**Christian Theology and the Status of Animals** R. McLaughlin, 2014-02-13 The author argues that there are conflicting traditions with regard to the question of what is the moral standing of animals according to Christianity The dominant tradition maintains that animals are primarily resources but there are alternative strands of Christian thought that challenge this view

*Culture: A Drama of Nature and Person* Piotr Jaroszyński, 2023-12-11 This monograph represents a rare classical philosophical approach to culture It is grounded in philosophical realism and emphasizes personalism as a true achievement of philosophical anthropology Employing the apparatus of the history of philosophy science and religion the author demonstrates the immense scope of the drama unfolding within human culture In a classical approach evaluation is inevitable with regard to various theories of culture human culture as such and all its main actors Jaroszyński's work shows that realistic study of what it means to be a human person leads to the most comprehensive understanding of culture as it is and should be

*From Survival to Vocation* Wayne L. Menking, 2023-02-02 The powers of death are closer than we thought Their perils appear in the forms of increased gun violence racism economic disparity and global warming to name but a few Faced with these threats Christians in this self absorbed culture tend to use their faith as a kind of palliative comfort that protects them from the truths of what these powers are doing to us as a human community and the sufferings they are inflicting on others particularly the poor and the disenfranchised Moreover it is used to shield them from responding to the gospel's call to leave survival for vocation Using Luther's theology of the cross and the instruction he imparts in his Large Catechism this book asserts that in the face of the sufferings in which we are situated the gospel news of Jesus's resurrection is a call to stand in its hope and power to resist these devastations and the dehumanization exploitation and domination they inflict The hope of God's life giving creativity in the face of the powers of death is given witness when Christians leave survival modes of existence to be in their baptismal vocation of loving neighbors as themselves

**An Introduction to African Legal Philosophy** John Murungi, 2013-04-11 A book on legal philosophy necessarily focuses attention on law In addition to this focus An Introduction to an African Legal Philosophy focuses attention on philosophy The link between law and philosophy is brought into relief which is done through an African context An attempt is made to spell out what is African about legal philosophy without being cut off of African legal philosophy from non African legal philosophy The book draws attention to the view that a basic component of African legal philosophy consists of an investigation of what it is to be an African and because an African is a human being among other human beings the investigation is about what it is to be a human being Ubuntuism is an African derived word that captures this mode of being human Moreover because human beings are cultural beings African cultural context guides the investigation Inescapably it is claimed that every legal philosophy is embedded in a culture African legal philosophy is not an exception It is deeply rooted in African culture a culture that is today shaped in part by a European colonialist culture One feature that will strike one as one reads the book is that the book

approaches African legal philosophy as a means of decolonization of African culture African legal philosophy can accomplish this intelligently and effectively if it is itself decolonized In doing this it contrasts sharply with mainstream Western legal philosophy

**Security, Governance, and State Fragility in South Africa** Edward L. Mienie, 2020-03-06 Do existing measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility

*The Architecture of Survival* Erik Trump, Jake Parcell, 2023-09-05 The Architecture of Survival Setting and Politics in Apocalypse Films offers a compelling exploration of how popular films and TV series from the past two decades use architectural spaces to comment on socio political issues The authors harness varied theoretical perspectives to demonstrate how through set design these works suggest that certain kinds of architecture support human development community and freedom while other kinds separate us from our fellow humans and make democratic politics impossible The clean lines of modernist design serve in films such as Contagion and Ex Machina as a metaphor for the sanitized sterile politics that drive disaster In The Walking Dead apocalypse survivors favor traditional architectural styles when rebuilding society a choice that symbolically affirms their democratic principles The massive walls and super gentrification as seen in Elysium and Army of the Dead divide humanity with those on one side wielding illegitimate power Empty streetscapes intensify loneliness alienation and the destruction of civil norms Smart cities offering a blend of high tech surveillance and big data erode social capital and community in Her and Transcendence The book concludes with a somewhat hopeful glimpse into architecture's potential to mitigate the catastrophic adverse effects of climate change as seen in films like Zootopia

*Pigs and Humans* Umberto Albarella, Keith Dobney, Anton Ervynck, Peter Rowley-Conwy, 2007-12-06 Pigs are one of the most iconic but also paradoxical animals ever to have developed a relationship with humans This relationship has been a long and varied one from noble wild

beast of the forest to mass produced farmyard animal from a symbol of status and plenty to a widespread religious food taboo from revered religious totem to a parodied symbol of filth and debauchery *Pigs and Humans* brings together some of the key scholars whose research is highlighting the role wild and domestic pigs have played in human societies around the world over the last 10 000 years The 22 contributors cover a broad and diverse range of temporal geographical and topical themes grounded within the disciplines of archaeology zoology anthropology and biology as well as art history and history They explore such areas as evolution and taxonomy domestication and husbandry ethnography and ritual and art and present some of the latest theories and methodological techniques The volume as a whole is generously illustrated and will enhance our understanding of many of the issues regarding our complex and ever changing relationship with the pig
