Robert Blank and Janna C. Merrick

Foreword by Arthur L. Caplan

# Human Reproduction Emerging Technologies And Conflicting Rights

**Janna Merrick, Robert H. Blank**

## **Human Reproduction Emerging Technologies And Conflicting Rights:**

*Human Reproduction, Emerging Technologies, and Conflicting Rights* Robert Blank, Janna C. Merrick, 1995 Examines the policy conflicts that have arisen as a result of advancing technologies in the area of human reproduction discussing abortion sterilization assisted reproduction surrogate motherhood prenatal intervention fetal and embryo research and the care of critically ill newborns

**Assisted Human Reproduction** Dani Singer, Myra Hunter, 2006-02-22 With contributions from Eric Blyth Ken Daniels Julia Feast Robert Lee Nina Martin Alexina McWhinnie Derek Morgan Clare Murray Sharon Pettie Claire Potter Jim Richards and Francoise Shenfield The separation of procreation from conception has broadened notions of parenthood and created novel dilemmas A woman may carry a foetus derived from gametes neither or only one of which came from her or her partner or she may carry a foetus created using in vitro fertilisation IVF with the purpose of handing it to two other parents one neither or both of whom may be genetically related to the prospective child Parents may consist of single sex couples only one of them genetically related to the child the prospective mother may be past her menopause and genetic parenthood after death is now achievable In a world increasingly reliant on medical science how can the argument that equates traditional with natural and novel with unnatural unethical be justified Should there be legislation which is notoriously slow to change in a field driven by dazzling new possibilities at ever faster rate particularly when restrictions differ from country to country so that those who can afford it travel elsewhere for their treatment of choice Whose rights are paramount the adults hoping to build a family or the prospective child's future well being On what basis can apparently competing rights be regulated or adjudicated and how and to what extent can these be enforced in practice

**Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society **The SAGE**

**Encyclopedia of Business Ethics and Society** Robert W. Kolb, 2018-03-27 Thoroughly revised updated and expanded The SAGE Encyclopedia of Business Ethics and Society Second Edition explores current topics such as mass social media cookies and cyber attacks as well as traditional issues including accounting discrimination environmental concerns and management The new edition also includes an in depth examination of current and recent ethical affairs such as the dangerous work environments of off shore factories for Western retailers the negligence resulting in the 2010 BP oil spill the gender wage gap the minimum wage debate and increasing income disparity and the unparalleled level of debt in the U S and other countries with the challenges it presents to many societies and the considerable impact on the ethics of intergenerational wealth transfers Key Features Include Seven volumes available in both electronic and print formats contain more than 1 200 signed entries by significant figures in the field Cross references and suggestions for further readings to guide students to in depth resources Thematic Reader's Guide groups related entries by general topics Index allows for thorough browse and search capabilities in the electronic edition **Theorizing Feminist Policy** Amy Mazur, 2002-02-07 This title defines and

examines this field in the context of non feminist policy studies It also examines feminist policy as a significant emerging area of government action From empirical research results it concludes that under certain conditions democracies can develop feminist policies

*The Christian Religion and Biotechnology* George P. Smith, 2005-03-21 Religion is a dominant force in the lives of many Americans It animates challenges directs and shapes as well the legal political and scientific agendas of the new Age of Biotechnology In a very real way religion biomedical technology and law are epistemologically different Yet they are equal vectors of force in defining reality and approaching an understanding of it Indeed all three share a synergetic relationship for they seek to understand and improve the human condition This book strikes a rich balance between thorough analysis in the body anchored in sound references to religion law and medical scientific analysis and a strong scholarly direction in the end notes It presents new insights into the decision making processes of the new Age of Biotechnology and shows how religion law and medical science interact in shaping directing and informing the political processes This volume will be of interest to both scholars and practitioners in the fields of religion and theology philosophy ethics family law science medicine political science and public policy and gender studies It will serve as a reference source and can be used in graduate and undergraduate courses in law medicine and religion

**The Boundaries of Her Body** Debran Rowland Esq, 2007-03-01 Whatever your political beliefs if you are a woman you must know what the law says about you The Boundaries of Her Body is the definitive history of the cycle of advances and setbacks that characterizes women s rights in America Author Debran Rowland covers emotionally charged issues with thoughtful detail offering insight into the strategies used by politicians and lobbyists to defeat long standing law The defeat for women s rights is an emotional and often polarized debate A debate over what a woman is What a woman ought to be And what a woman should therefore be allowed to do Today the future of women s rights is in jeopardy If I had to guess at the future for women I would say we stand to lose many more significant battles and the rights that go with them if we don t begin to abandon the niceties of a comfortable life with educated opinions and start waging the kind of aggressive no holds barred guerrilla war that our opponents have been riding to victory from the Epilogue to The Boundaries of Her Body Rowland combines provocative arguments with exhaustive research and affirms that in spite of advancements the boundaries of women s bodies will continue to be a source of bitter contention in the law Debran Rowland brilliantly argues the continuing inequality of women s rights in America with the most meticulous and comprehensive research in our times Betty Friedan author of *The Feminine Mystique*

*My Body, Their Baby* Grace Kao, 2023-08-15 Drawing on her own experience as a surrogate mother Grace Y Kao assesses the ethics of surrogacy from a feminist and progressive Christian perspective concluding that certain kinds of surrogacy arrangements can be morally permissible and should even be embraced While the use of assisted reproductive technology has brought joy to countless families surrogacy remains the most controversial path to parenthood My Body Their Baby helps readers sort through objections to this way of bringing children into the world Candidly reflecting on carrying a baby for her childless

friends and informed by the reproductive justice framework developed by women of color activists Kao highlights the importance of experience in feminist methodology and Christian ethics She shows what surrogacy is like from the perspective of women becoming pregnant for others parents who have opted for surrogacy including queer couples and the surrogate born children themselves Developing a constructive framework of ethical norms and principles to guide the formation of surrogacy relationships Kao ultimately offers a vision for surrogacy that celebrates the reproductive generosity and solidarity displayed through the sharing of traditionally maternal roles

**International Policy Studies** Stuart S. Nagel, David Rosenblum, 2000 The basic elements of this book involve integrating five policy problems and four fields of knowledge The five policy problems are economic technology social political and legal The four developing regions are Africa Asia Eastern Europe and Latin America The four fields of knowledge are natural science social science humanities and law

The Naked Clone John Charles Kunich, 2003-06-30 Banning therapeutic and reproductive cloning jeopardizes more than cloning itself The constitutional principles intertwined with cloning embrace such vital liberties as personal autonomy privacy reproduction and freedom of expression Properly understood cloning is essentially the same as other forms of assisted reproduction Procrustean bans on cloning implicate and indirectly threaten numerous key personal interests including abortion in vitro fertilization same sex adoption and surrogacy A government allowed to preemptively isolate and censor medico scientific research into cloning may be emboldened to shut down other forms of disfavored inquiry and expression as well Much of the animosity toward cloning is based on unfounded fear science fiction fantasy moralistic bias and slippery slope predictions most of which is scientifically untenable or already illegal Yet when people are cloned they will in fact be less similar than identical twins genetics aren't everything Differing environments produce differing people and human clones distinct individuals will be entitled to the same human rights and legal protections that have protected individuals for centuries Kunich establishes the pressing need to evaluate cloning in a rational scientific and legal manner before the extreme opposition sprouting from fear and misunderstanding which has already led to several state laws results in an unconstitutional federal ban

**Ethical Issues in Maternal-Fetal Medicine** Donna Dickenson, 2002-02-07 This book addresses the ethical problems in maternal fetal medicine which impact directly on clinical practice

Reproductive Issues in America Janna Merrick, Robert H. Blank, 2003-08-06 A balanced and thoughtful analysis of human reproduction issues in the United States with emphasis on the ethical and policy implications of cutting edge reproductive technologies Few subjects are as divisive and partisan as the issues surrounding the propagation of the human species This thorough examination covers the full scope of the debates and offers an up to the minute survey of the controversial technologies that are at the heart of reproductive rights in the United States The areas explored range from abortion and sterilization to fetal research and human cloning The moral societal and public policy implications of each subject are examined thoroughly with emphasis on those areas where cutting edge technology has raced ahead of public policy thereby creating new concerns for

ethicists and policy makers Legislative oversight or the freedom to pursue reproductive technologies at any cost this debate is far from over

**Current Controversies in the Biological Sciences** Karen F. Greif, Jon F. Merz, 2007-02-23 In recent years advances in biological science and technology have outpaced policymakers attempts to deal with them *Current Controversies in the Biological Sciences* examines the ways in which the federal government uses scientific information in reaching policy decisions providing case studies of the interactions between science and government on different biomedical biological and environmental issues These case studies document a broad range of complex issues in science policy from the Human Genome Project to tobacco regulation and provide an accessible overview of both the science behind the issues and the policy making process The cases illustrate the different ways in which science and politics intersect in policy decisions as well as the different forms policy itself may take including not only regulatory action but the lack of regulation Among the topics examined are public and private research funding as seen in gene patenting reluctance to regulate even when a product has been proven unhealthy as in the case of tobacco a comparison of U S and international policy responses to genetically modified organisms and the competing interests at play in air pollution policy Each chapter includes shorter side essays on related topics for example essays on issues raised by the SARS epidemic accompany the detailed case study of the public health response to the anthrax laced mail received in the weeks after 9 11 This clear and readable introduction to controversial issues in the biological sciences will be a valuable resource for students of science policy and bioethics and for professionals in industry government and nongovernmental organizations who need background on emerging issues in the biological sciences

**Reproduction, Sexuality, and the Family** Karen J. Maschke, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare s *A Comedy of Errors* Miola s edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play s debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time

**Islamic Ethics of Life** Jonathan E. Brockopp, 2021-02-09 2005 Choice Outstanding Academic Title A pioneering work on controversial issues within the Muslim world *Islamic Ethics of Life* considers three of the most contentious ethical issues of our time abortion war and euthanasia from the Muslim perspective Distinguished scholars of Islamic studies have collaborated to produce a volume that both integrates Muslim thinking into the field of applied ethics and introduces readers to an aspect of the religion long overlooked in the West This collective effort sets forth the relationship between Islamic ethics and law clearly revealing the complexity and richness of the Islamic tradition as well

as its responsiveness to these controversial modern issues The contributors analyze classical sources and survey the modern ethical landscape to identify guiding principles within Islamic ethical thought Clarifying the importance of pragmatism in Islamic decision making the contributors also offer case studies related to specialized topics including wrongful birth claims terrorist attacks and brain death The case studies elicit possible variations on common Muslim perspectives The contributors situate Muslim ethics relative to Christian and secular accounts of the value of human life exposing surprising similarities and differences In an introductory overview of the volume Jonathan E Brockopp underscores the steady focus on God as the one who determines the value of human life and hence as the final arbiter of Islamic ethics A foreword by Gene Outka places the volume in the context of general ethical studies and an afterword by A Kevin Reinhart suggests some significant ramifications for comparative religious ethics

**Human Trafficking and Exploitation** Belachew Gebrewold, Johanna Kostenzer, Andreas Th. Müller, 2017-09-22 Human trafficking is a serious human rights violation that leads to the gross exploitation of its victims who are coerced into forced labor and slavery across the globe As the current migration movement and refugee situation reaches crisis point in Europe the risk of human trafficking from the Mediterranean Sea through Italy into Central and Western Europe has become a critical emergency Focusing on human trafficking along this route into Europe this book discusses the systematic exploitation of victims and the subsequent violation of human rights within an international context providing an overview of the causes regulation and prevention of the issue Academic researchers practitioners and policy makers are brought together to provide both theoretical perspectives and practice based approaches for addressing the issue of human trafficking As well as scholarly contributions from experts in the field the book also includes experiences and strategies of policy makers and practitioners from governmental and non governmental organizations along with the real life scenarios and practice reports Human Trafficking and Exploitation should be considered essential reading for academics policy makers advocates and activists interested in preventing human trafficking and protecting human rights It will also be of interest to those with research interests within the broader themes of law politics and international relations and social and health policy

Postwar America James Ciment, 2015-03-26 From the outbreak of the Cold War to the rise of the United States as the last remaining superpower the years following World War II were filled with momentous events and rapid change Diplomatically economically politically and culturally the United States became a major influence around the globe On the domestic front this period witnessed some of the most turbulent and prosperous years in American history Postwar America An Encyclopedia of Social Political Cultural and Economic History provides detailed coverage of all the remarkable developments within the United States during this period as well as their dramatic impact on the rest of the world A Z entries address specific persons groups concepts events geographical locations organizations and cultural and technological phenomena Sidebars highlight primary source materials items of special interest statistical data and other information and Cultural Landmark entries chronologically detail the music literature arts

and cultural history of the era Bibliographies covering literature from the postwar era and about the era are also included as are illustrations and specialized indexes

**Historical and Multicultural Encyclopedia of Women's Reproductive Rights in the United States** Judith A. Baer, 2002-04-30 eproductive rights refers to a range of claims concerning whether when and how to have children Beneath this clear statement lays the most contentious political legal and cultural issue in America today Involving the self the family and the State women s reproductive rights generates much impassioned argument but painfully little agreement Topics and authors take on diverse and often clashing positions highlighting this issue s complex and highly charged nature Arranged alphabetically by topic articles representing racial and ethnic groups experiences figure prominently as do the effects of age class education health religion and sexual preference on childbearing and rearing practices in and out of wedlock It also includes articles on laws court cases political attitudes prominent activists and technological advances as they relate to reproductive rights Entries are written by highly regarded scholars are cross referenced and conclude with suggested further readings Designed to introduce and inform the reader to this extremely difficult topic Baer s ecumenical approach exposes us to a variety of opinions from support for current abortion policies to the building movement for fetal rights Only reasoned opinions supported by hard evidence are included and no attempt was made to mute the often incommensurable opinions expressed within This book will be a valuable resources for students scholars and any person interested in learning about the multiplicity of perspectives on this important issue that is at the heart of our current culture wars

*Inheritance Law And The Evolving Family* Ralph Brashier, 2004 Nontraditional families are today an important part of American family life Yet when a loved one dies our inheritance laws are often stingy even towards survivors in the nuclear family With humor enthusiasm and a bit of righteous outrage Ralph C Brashier explores how probate laws ignore gender roles and marital contributions of the spouse often to the detriment of the surviving widow how probate laws pretend that unmarried couples particularly gay and lesbian ones do not exist how probate laws allow a parent to disinherit even the neediest child and how probate laws for nonmarital children adopted children and children born of surrogacy or other forms of assisted reproductive technology are in flux or simply don t exist A thoughtful examination of the current state of probate law and the inability of legislators to recognize and provide for the broad range of families in America today this book will be read by those with an interest in the relationship between families and the law across a wide range of academic disciplines

**Human Rights and Biomedicine** George P. Smith II, 2021-08-04 The eight chapters within this volume are structured around an exploration of the fundamental issues in the field of biomedical human rights dignity and autonomy in not only procreative liberties but throughout the complete cycle of life and death the freedom of scientific inquiry into the new biotechnological methods of collaborative reproduction the right to genetic integrity at birth and throughout life and the equitable right to health or access to health care benefits during life and old age All these central issues are tested of necessity but utilitarian principles which in turn force the templates for decision making evaluate the

gravity of harm deriving from a particular human right and its recognition and enforcement measured against the utility of the social economic or cultural good accruing from recognition of such a right in the first instance Ultimately cultural relativism will be seen more often than universality as the determinative point of balance This volume not only informs the ongoing debate on the role of human rights in biomedicine but will also provide enlightened responses to the troublesome issues presented in this new age of biotechnology

Delve into the emotional tapestry woven by Emotional Journey with in Dive into the Emotion of **Human Reproduction Emerging Technologies And Conflicting Rights** .
