Human Resource Valuation A Guide To Strategies And Techniques:

Human Resource Valuation Janice Monti-Belkaoui,Ahmed Riahi-Belkaoui,1995-03-18 Employees are definitely the most important assets of a firm Yet the value and contributions of human resources are rarely accounted for and disclosed to users of accounting information This book focuses on the need for a better accounting for human resource through a human resource valuation strategy This strategy includes a disclosing the value of human resources in the annual reports through the application of human resource accounting HRA b disclosing an employee report that informs employees about vital information for their conditions and decision needs through the application of employee reporting and c disclosing a value added report that highlights the labor contribution to wealth through the application of value added reporting Pref

Delivering On The Promise Brian S. Friedman,James A. Hatch,David M. Walker,2012-12-11 Over the past couple of decades management styles have evolved from strategic planning to total quality management to reengineering Now in the newest and most cost effective trend to hit the boardrooms there is a concentrated effort to view employment not as a perishable resource to be consumed but as a valuable commodity to be developed While research shows that investments in capital result in higher returns to shareholders the question is how should these investments be made and how can returns on these investments be measured DELIVERING ON THE PROMISE reveals Arthur Andersen s proprietry technically based methodology called The Five Square Approach that will enable any manager to measure manage and leverage human capital Drawing on case studies and research this book is for any business manager who wants to evaluate and improve the current worth of their company s human resources Mixed-Mode Modelling: Mixing Methodologies For Organisational Intervention M.G. Nicholls,S.A. Clarke,B. Lehaney,2001-10-31 The 1980s and 1990s have seen a growing interest in research and practice in the use of methodologies within problem contexts characterised by a primary focus on technology human issues or power During the last five to ten years this has given rise to challenges regarding the ability of a single methodology to address all such contexts and the consequent development of approaches which aim to mix methodologies within a single problem situation This has been particularly so where the situation has called for a mix of technological the so called hard and human centred so called soft methods The approach developed has been termed mixed mode modelling The area of mixed mode modelling is relatively new with the phrase being coined approximately four years ago by Brian Lehaney in a keynote paper published at the 1996 Annual Conference of the UK Operational Research Society Mixed mode modelling as suggested above is a new way of considering problem situations faced by organisations Traditional technological approaches used in management science have suffered criticisms relating to their adequacy in the past few decades and these hard approaches have been replaced by soft methods which consider process more relevant than outcome However the sole use of human centred approaches to organisational problems has also proved to be inadequate Mixed mode modelling accepts the importance of both process and outcome and provides enabling mechanisms for hard and soft investigation to be
