**Arthur James Balfour**

## **Humanism Versus Theism:**

Humanism Versus Theism Johannes Abraham Christoffel Fagginger Auer, 1951      *Theism and Humanism* Arthur James Balfour, 1915 Arthur Balfour's famous lectures delivered in 1913 at the University of Glasgow offer insight into the link between theism a belief in God and the philosophical aspects of humanism In delivering and publishing these lectures Balfour sought to explain complex concepts in a way that ordinary people could understand The connection between faith in a divine God and the humanistic attainment of the highest qualities celebrated in mortal beings are neither obvious nor clear to most As a devoted Christian and academic with a background as a statesman and Prime Minister of the United Kingdom the author understands well the need for clear communication The lectures examine in sequence the moral artistic scientific and intellectual values held in the highest esteem Each is explained as being connected deeply and vitally with the qualities of God and belief in the divineness of human existence Each of the ten lectures is lively and spirited showcasing the author's eloquence and passion for eclectic debate Although his ideas span many disciplines of academia Balfour demonstrates a keen knowledge for each imbued by his lengthy background in learning      Psychoanalysis and Theism Benjamin Beit-Hallahmi, 2010-08-04 How should we approach the psychological study of religion and how relevant is classical psychoanalysis identified with the writings of Sigmund Freud to the understanding of religion Freud's writings on religion have been discussed often and continue to attract attention and debate Psychoanalysis and Theism starts with an essay by Adolf Grünbaum one of the world's leading philosophers of science and an incisive critic of Freud's work Grünbaum looks at Freud's general claims about the psychological mechanisms involved in religion and finds them lacking Then in a surprising turn Grünbaum judges some of Freud's interpretations of concrete religious ideas and practices to be not only cogent but indispensable When it comes to the case of the belief in Virgin Birth Grünbaum finds an Oedipal interpretation to be our only choice This remarkable essay is the stimulus for a symposium with nine senior scholars coming from the fields of philosophy psychology sociology and psychoanalysis who present their critical reflections on how we should study religion how we should treat Freud's ideas and what the future directions in psychological research on concrete religious behavior should be The contributors bring to this effort their varied fields of expertise from analytical philosophy to experimental psychology Of special interest are essays which deal with the Virgin Birth doctrine and its possible psychological sources and with the potential for future psychoanalytic studies of faith and ritual Other essays focus on Freud's conscious and unconscious motivations for studying religion as well as the hidden biases and lacunae found in the social science literature on religious practices This volume adds a unique combination of critical and knowledgeable voices to the debate on Sigmund Freud's legacy      **The Routledge Companion to Theism** Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can

inform the public and scholarly debate over theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume The Routledge Companion to Theism addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that's much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars

**Theism or Atheism: The Great Alternative** Chapman Cohen, 2019-12-13 In *Theism or Atheism: The Great Alternative* Chapman Cohen navigates the philosophical terrain separating belief from skepticism presenting a rigorous critique of theism while defending the merits of atheism Written in a clear incisive style Cohen employs logical reasoning and empirical evidence to challenge traditional religious doctrines making this work both accessible and intellectually stimulating The book situates itself within the broader context of early 20th century secular thought engaging with arguments from prominent contemporaries while advocating for a worldview grounded in human experience rather than divine intervention Chapman Cohen a prominent figure in the British freethought movement was deeply influenced by his own intellectual journey away from religious dogma His experiences as a secularist and a lecturer on philosophy inspired him to confront the age old dilemmas surrounding faith and reason Cohen's background in rationalist discourse positions him as an authoritative voice in the ongoing debate about the role of religion in modern society providing readers with critical insights born from personal conviction and extensive scholarship This thought provoking book is highly recommended for anyone grappling with existential questions about the nature of belief Cohen's articulate exposition makes it suitable for both seasoned philosophers and individuals seeking clarity in their own understanding of theism and atheism *Theism or Atheism* serves not only as an intellectual challenge but as a compelling invitation to reflect on one's beliefs in the face of modernity *Atheism and Theism* E.E. Harris, 2012-12-06 Professor Errol E Harris presented the first three chapters of *Atheism and Theism* as public

lectures at Tulane University on January 20 22 1975 The lecture series was made possible by a grant from the Franklin J Matchette Foundation of New York City Those of us who had the pleasure of hearing the lectures formed the judgment that they deserved publication to reach a wider audience and to assure a more permanent record We invited Professor Harris to allow us to publish his lectures in Tulane Studies in Philosophy On his part he developed the themes of the lectures into a more comprehensive and lasting work With Professor Harris's approval we are taking the unprecedented step of devoting Volume XXVI of Tulane Studies in Philosophy to the publication of Atheism and Theism We are certain that it will advance the fundamentally philosophical argument surrounding theism and Christianity We are also convinced that it will add substantially to the prestige of our series of annual volumes of philosophy now in its twenty sixth year We wish to express our thanks to the Franklin J Matchette Foundation for the original grant supporting the lectures and to Professor Harris for presenting first the lectures and then the book

R C W A J R **Lucifer**, 1888 **Speculations on Black Life** Darrell Jones, Monifa Love, Anthony B. Pinn, 2023-05-18 Is God a white racist Posed by William R Jones in his ground breaking book of the same name this question disrupted the theological assumptions that marked Black religious thought from early writings of the 1800s to the formation of Black theology in the 1960s This book compiles his key and essential writings related to over three decades of critical reflection on race religion secularism and oppression in the United States Over the course of 30 years Jones pushed questions and considerations that refined Black theology and that gave greater shape to and understanding of Black philosophers intervention into issues of racial and structural inequality His philosophical work related to the grid of oppression fosters an approach to the nature and meaning of oppression in the United States encouraging rational interrogation of structures of injustice and thought patterns supporting those structures Still relevant today the straightforward style of communication used by Jones makes these essays easily accessible to a popular audience while maintaining intellectual rigor making the book also suitable for an academy based audience

*Youth in Europe: An international empirical study about the impact of religion on life orientation* Hans-Georg Ziebertz, William K. Kay, 2005 This book draws upon empirical data collected from 10 000 adolescent young people in 10 European countries The first volume of this project was about young people's life perspectives and the second about their religious attitudes and practices The current and final volume of this cross cultural study connects both research dimensions The analyses make clear that the influence of religion on values life orientation and politics differs strongly between different groups within Christianity and between Christians Jews and Muslims Many findings contain obvious surprises because they refute mainstream opinion on many topics The book gives detailed and new insights in the public relevance of the religiosity of young people across Europe All three volumes together are indispensable for scholars who work in public religious and educational contexts

God-optional Religion in Twentieth-century America Isaac Barnes May, 2023 God Optional Religion in Twentieth Century America provides a historical account of the idea that being religious and believing in God might be separate concepts Isaac

Barnes May focuses on the story of three groups liberal Quakers Unitarians and the forerunners of what would become Reconstructionist Judaism and how they attempted to preserve their faith in the modern world by redefining what it meant to be religious *The Modern Review* Ramananda Chatterjee,1929 Includes section Reviews and notices of books

Christian Register and Boston Observer ,1929 **Sense and Goodness Without God** Richard Carrier,2005-02-23 If God does not exist then what does Is there good and evil and should we care How do we know what s true anyway And can we make any sense of this universe or our own lives Sense and Goodness answers all these questions in lavish detail without complex jargon A complete worldview is presented and defended covering every subject from knowledge to art from metaphysics to morality from theology to politics Topics include free will the nature of the universe the meaning of life and much more arguing from scientific evidence that there is only a physical natural world without gods or spirits but that we can still live a life of love meaning and joy **Theism and Thought** Arthur James Balfour,1924 *State without Religion?*

Jeroen Jans,2022-12-07 In recent decades the Netherlands and Flanders have faced challenges in how to deal with a multicultural society As far as worldviews are concerned the question arises whether the state should guarantee a maximum level of choice concerning religion and humanism to individuals or leave a free space to the religious and humanist communities This study explores in how far committed Catholic Protestant Muslim and humanist youth agree with different models of the relationship between worldviews and the state against the backdrop of their religious and humanist beliefs as well as social determinants It does so by drawing on quantitative and qualitative empirical research The analyses show that overall most religious and humanist youth prefer the state to guarantee a maximum level of choice to individuals but also want the state to respect a substantial free space for communities Above all they want the state to treat worldviews equally before the law Their religious and humanist beliefs are the most significant determinants Jeroen Jans 1990 works at the Diocese of Hasselt and is a visiting researcher at Radboud University He performed his doctoral research at the Faculty of Philosophy Theology and Religious Studies *God at the Crossroads of Worldviews* Paul Seungoh Chung,2016-10-22

Debates about the existence of God persist but remain at an impasse between opposing answers God at the Crossroads of Worldviews reframes the debate from a new perspective characterizing the way these positions have been defined and defended not as wrong per se but rather as odd or awkward Paul Chung begins with a general survey of the philosophical debate regarding the existence of God particularly as the first cause and how this involves a bewildering array of often incommensurable positions that differ on the meaning of key concepts criteria of justification and even on where to start the discussion According to Chung these positions are in fact arguments both from and against larger more comprehensive intellectual positions which in turn comprise a set of rival worldviews Moreover there is no neutral rationality completely independent of these worldviews and capable of resolving complex intellectual questions such as that of the existence of God Building from Alasdair MacIntyre s writings on rival intellectual traditions Chung proposes that to argue about God we must

first stand at the crossroads of the different intellectual journeys of the particular rival worldviews in the debate and that the discovery of such a crossroad itself constitutes an argument about the existence of God Chung argues that this is what Thomas Aquinas accomplished in his Five Ways which are often misunderstood as simple proofs From such crossroads the debate may proceed toward a more fruitful exploration of the question of God's existence Chung sketches out one such crossroad by suggesting ways in which Christianity and scientific naturalism can begin a mutual dialogue from a different direction God at the Crossroads of Worldviews will be read by philosophers of religion advanced undergraduate and graduate students and theologians and general readers interested in the new atheism debates *The Kingdom of the Cults* Walter Martin, Ravi Zacharias, 2003-10 Newly updated this definitive reference work on major cult systems is the gold standard text on cults with nearly a million copies sold **The Ideology of Religious Studies** Timothy Fitzgerald, 2003-10-16 In recent years there has been an intensifying debate within the religious studies community about the validity of religion as an analytical category In this book Fitzgerald sides with those who argue that the concept of religion itself should be abandoned On the basis of his own research in India and Japan and through a detailed analysis of the use of religion in a wide range of scholarly texts the author maintains that the comparative study of religion is really a form of liberal ecumenical theology By pretending to be a science religion significantly distorts socio cultural analysis He suggests however that religious studies can be re-represented in a way which opens up new and productive theoretical connections with anthropology and cultural and literary studies **Three Eyes for the Journey** Dianne M. Stewart, 2005-07-07 Studies of African derived religious traditions have generally focused on their retention of African elements This emphasis says Dianne Stewart slights the ways in which communities in the African diaspora have created and formed new religious meaning In this fieldwork based study Stewart shows that African people have been agents of their own religious ritual and theological formation She examines the African derived and African centered traditions in historical and contemporary Jamaica Myal Obeah Native Baptist Revival Zion Kumina and Rastafari and draws on them to forge a new womanist liberation theology for the Caribbean *Making the Manifesto* William F. Schulz, 2002
