VERSUS

CRAFT

ART

A unique way of expressing someone's emotions and desires in a visual manner

Unique and more personal; therefore, it can not be reproduced or duplicated

Depends on the innate talent of a person

Expression of emotions is the core

Has more of an emotional value

CRAFT

Creative way of making creative things by hand

Can be reproduced by another person having the same talent, by following the same style of the particular craft work

Talent and skill need to be well groomed and moulded with experience according to the particular style

Core is the creative output out of something made by hand

Has an attractive and creative value

Key Terms In Art Craft And Design:

Key Terms in Art, Craft and Design John Skull, 1988 Over 350 key terms plus associated words are explained and follow up study is suggested This is a learning and teaching text with unique features essential for all teachers students and devotees of Art Craft and Design BOOK COVER Key Terms in Art, Craft and Design John Skull, 1990 **Art, Design, Craft, Beauty and All Those Things...** Donald Richardson, 2023-08-18 Responding to many recent calls for redress and restitution Richardson summarises the historical and current situation and attributes its problematics to the fact that theorists and historians have taken the concept art as a generic that includes both design and craft which are actually and validly distinguishable from art by application of the concept functional or else ignored the two entirely Considering the concept functional he maintains calls into question the view that the three may be sub classes of the one class whereas in a work of art typically there is a resolution of the tension between form and content in works of design and craft the resolution is between form and function How this recognition can clarify the issue informs the entire book The book's other major thesis is the realisation that aesthetic values are inherently human and that therefore they apply not only to art but to life in general Far from being frivolous or a mere emotion the aesthetic is a sense of equivalent psychic status to sight and hearing and like them is employed at almost every moment of our daily lives which fact grounds art design and craft deeply in human life This is reflected in the universal use of the human form including the exhibition of sexual characteristics in art The eternal conflict between making art and making a living from making art is examined and contrasted to the rarely recognised but positive role of design in planning and industry Richardson also critiques common theories of representation and composition including creativity Albertian perspective and scientific and geometric theories of beauty and composition also the relevance of the camera and the computer in the field *Beyond Multicultural Art Education* Rachel Mason, Doug Boughton, 1999 Multiculturalism is a term that has been much used in educational texts in recent years Its usage is frequently taken for granted in the rhetoric of curriculum literature However it has recently become clear that there are significant variations of interpretations of multiculturalism in different world regions This book takes a new and deeper look at the notion of multiculturalism through the lens of art education In educational terms art is a unique tool for the investigation of cultural values because it transcends the barrier of language and provides visceral and tacit insights into cultural change In order to address the educational interpretations and methods of implementing multiculturalism in different regions of the world this book contains discussion and analysis of perspectives on art education theory and practice from thirteen countries The authors of each chapter are respected multicultural experts in their geographic locations who are well equipped to provide unique insights into the particular issues of multiculturalism viewed from the perspective of art in educational contexts The book as a whole provides tools for the conceptual analysis of contemporary notions linked with multiculturalism such as interculturalism internationalism and globalisation It also provides strategies for art teaching in relation to these ideas While

the term multicultural education is problematic this book presents conceptual frameworks that should assist educators to examine their own teaching on issues of equity and diversity that are central to the multicultural education debate Art History: The Key Concepts Jonathan Harris,2006-10-16 A comprehensive critical guide Art History The Key Concepts considers the full range of issues facing the field today drawing on related areas such as cultural theory and media studies
