Kings, Country and Constitutions Kobkua Suwannathat-Pian, 2013-12-16 Provides a detailed analysis of Thailand s political development since 1932 when Thailand became a constitutional monarchy until the present It examines the large number of different versions of the constitution which Thailand has had since 1932 and explains why the constitution has been subject to such frequent change and why there have been so many outbursts of violent political unrest It explores the role of the military and most importantly discusses the role of the monarchy which as the author shows has been crucial in holding Thailand together through the various changes of regime The author brings to light original and largely unseen documents from the Public Records Office

Laos's stunning Vat Phu the small temple platforms of Malaysia's Lembah Bujang Valley the candi of the Dieng Plateau in Java and the ruins of Mingun in Burma and Wiang Kum Kam near Chiang Mai in northern Thailand are also discussed All share a relative isolation from modern urban centers of population sitting in park like settings serving as objects of tourism and as lynchpins for local and even national economies Chapman argues that these sites also remain important to surrounding residents both as a means of income and as continuing sources of spiritual meaning He examines the complexities of heritage efforts in the context of present day expectations by focusing on the roles of both outside and indigenous experts in conservation and management and on attempts by local populations to reclaim their patrimony and play a larger role in protection and interpretation Tracing the history of interventions aimed at halting time's decay Chapman provides a chronicle of conservation efforts over a century and a half highlighting the significant part foreign expertise has played in the region and the ways that national programs have in recent years begun to break from earlier models The book ends with suggestions for how Southeast Asian managers and officials might best protect their incomparable heritage of art and architecture and how this legacy might be preserved for future generations **The Land Boundaries of Indochina**

*Bilateral Legacies in East and Southeast Asia* N Ganesan, 2016-04-29 This edited volume examines the concept of overhangs or legacies or negative stereotypical images in international relations and their impact on bilateral relations between geographically proximate states in East Asia The case studies chosen Japan Korea Japan China Vietnam China Thailand Myanmar and Thailand Cambodia demonstrate conclusively that bilateral overhangs or legacies have a significant impact on contemporary international relations Such images are regularly replicated and stoked by a variety of

constituencies including state agencies for their own selfish interests The evidence also points to the fact that such bilateral relationships are relatively self contained and often operate with their own dynamics Powerful condensation symbols are appropriated to weave a story of the virtuous self and the stereotypical other This negative image and its replication is important to an understanding of turbulent bilateral relations in East Asia and also helps to inform how such relations can be brought to an even keel
