Women Who

Kill Carol Anne Davis, 2014-06-19 Why does a young woman lure teenagers into her car then participate in their horrific rape and torture? What makes a nurse lethally inject the healthy babies in her care? Women statistically aren't a violent breed but the female of the species can be just as deadly as the male. From the mass poisoner to the sexual sadist from profit killings to crimes committed just for twisted thrills Carol Anne Davis sets out to explore the dark and disturbing world of the female serial killer. In-depth analysis of individual cases including new information from the minister who heard Myra Hindley's confession provides an invaluable insight into the psychology behind these atrocities.

Demons, Hamlets and Femmes

Fatales Jayne Steel, 2007 The book provides a lively discussion of the ways in which popular fiction appropriates the figure of the Provisional IRA activist and the political conflict within the north of Ireland. It looks at how authors' recreations or transformations of Irish republicanism might reveal self-referential images that are ultimately a product of national identity and/or gender identity. An important focus of the book interrogates British fascination and fixation with the Provisional IRA and its terrors. The many novels discussed in this study include Gerald Seymour's *Harry's Game* Campbell Armstrong's *Jig* Bernard MacLaverty's *Cal* Mary Costello's *Titanic Town* Jennifer Johnston's *Shadows on our Skin* Deidre Madden's *One by One* through the Darkness.
