over 980 pages of dark paranormal urban fantasy His old life shattered his new life is consumed with revenge and love Dr David Lephmann lived a normal existence until he was attacked by a shifter Thrust into a world of violence and mistrust he must battle for a place among his new people The Shifter Legacies Series is a dark fantasy paranormal series A story set in the near future of an alternate United States where creatures of myth are real and have always lived not always peacefully with humans who are the dominate force on earth Werewolves and shifters vampires and elves all play their part Buy this gripping paranormal series today *Africa Should Get There Too* Alfani Sumaili Yoyo,2012-10 After having been stunned by untold evils making the order of each day in Africa and particularly in his country Alfani was compelled to address this in the form of a book The ideas he suggests to alleviate the situation is what he regards as alternative strategies to develop a crumbling continent Alfani believes that development should be given priority He laments that most of the continent s resources are misused by a handful of citizens and dumped in the most worthless personal luxuries and expenditures such as civil and religious wars About HIV AIDS in Africa he simply but firmly says that no matter how complicated the disease can be the chance is that it can be reversed if there ll be a systematic paradigm shift in people s minds From the experience of land reform in Zimbabwe as well as severe hunger caused by extremely low rate of food production in many African states he scoffs the continent s inability to invest in the land He also blames contemporary African leaders for their reluctance to embrace the breeze of development and accuses politicians of treating ordinary citizens cheaply In this book he offers a simple definition of the word development when he equates it to a walk from where people have been getting delayed to where they would like to be For Africa this means joining other continents or even taking an extra mile On the other hand he warns his readers not to take his book as a compilation of some absolute do s but to consider it as a guide or help The implementation of his suggestions is absolutely a personal issue Alfani s book is not only engaging but also informative
