Women and Power in Contemporary Fiction Rossella Valdrè,2017-07-14 Psychoanalytic Perspectives on Women and Power in
 Contemporary Fiction psychoanalytically examines contemporary fiction portraying the female in a reversal of the
 stereotyped victim role The recent popularity of powerful female characters suggests that literature is ahead in its
 understanding the desires fantasies and unconscious emotions of the public This book explores a form of intimacy frequently
 observed in consulting rooms and in life in general malicious intimacy Specific to the conjugal bond it is a type of intimacy
 connected to the relationship between the two halves of the couple that is extremely powerful and painful Instead of clinical
 cases Rossella Valdr examines four contemporary and widely successful novels published contemporaneously which capture
 perfectly this type of psychopathological universe Valdr then maps out psychoanalytic hypotheses regarding the persistency
 of these malicious intimacies Through analysis of these examples Valdr investigates the roots and hypotheses of a new
 scenario on victim executioner roles played out in the intimacy of the couple Exploring how and if the contemporary couple is
 undergoing profound changes she provides an overview of the various deep seated psychological mechanisms and
 unconscious dynamics that may be at work The book explores the need to not be dependant upon a love object as an extreme
 defence against abandonment or self collapse Valdr argues that such a configuration is very common and that Idealization in
 contemporary life is one of the reasons behind the most of sufferance in modern couples something which psychoanalysis can
 examine through art Women perhaps after emancipation are living overturned roles and paying a higher cost as a result
 Psychoanalytic Perspectives on Women and Power in Contemporary Fiction will appeal to psychoanalysts and psychoanalytic

psychotherapists and be of interest to scholars and students of literature gender studies philosophy and sociology
