Sharp, Michael J. Stebleton**

Future Of Career:

The Future of Career Audrey Collin, Richard A. Young, 2000-08-10 The fragmented nature of modern working life is leading to fundamental changes in our understanding of the term career Few people now expect to have a lifetime of continuous employment regardless of their qualifications or the sector they work in This book presents a kaleidoscopic view of the concept of career reviewing its past and considering its future International specialists in psychology sociology counselling education and human resource management offer a multi layered examination of career theories and practice identifying the major changes taking place in the world of work that are challenging and extending the meaning of the word career The overall aim is to redefine it in ways that are relevant to the newly emerging network society of the 21st century The chapters are wide ranging exploring topics such as the changing contexts of career individual career experiences women s careers multicultural issues and implications for practice and policy making *The Future of Careers* Richard

Talk about Careers in Science, 2010-01-01 Non scholae sed vitae discimus we learn for life rather than for school In this Roman saying the ultimate reason for school is recognized as being a preparation for life High school science too is a preparation for life the possible careers students identify and for defining possible future Selves In this book the contributors take one dataset as their object of scholarship informed by discursive psychology Bakhtin and poststructural positions to investigate the particulars of the language used in interviews about possible careers conducted both before and after an internship in a university science laboratory Across this collection some contributors focus on data driven analyses in which the authors present more macro perspectives on the use of language in science career talk whereas others see the data using particular lenses that provide intelligible and fruitful perspectives on what and how students and interviewer talk careers in science Other contributors propose to transform the database into different representations that allows researchers to single out and demonstrate particular dimensions of discourse Thus these contributions roughly fall into three categories that are treated under the sections entitled Discourse Analyses of Career Talk Discursive Lenses and Foci and Innovations in Theory Method and Representation of Career Talk Research

New perspectives on career counseling and guidance in Europe Valérie Cohen-Scali, Jerome Rossier, Laura Nota, 2017-10-11 In industrialized societies individuals are facing major challenges that mobilize many of their psychological and social resources The world of work is changing constantly Adults have to adapt their technical skills and knowledge continuously For teenagers and young adults choosing a vocation and constructing their future career paths is becoming increasingly difficult The migration of people and the globalization of the workforce raise questions about social inclusion and the future of affected individuals These examples highlight of the importance of the field of Career Counseling and Guidance to support citizens individually and collectively in building their future The challenges our societies face demonstrate how crucial the development of research in this field is The European Doctoral Programme in Career Guidance and Counselling ECADOC funded by the European Commission from 2013 2016 has brought together PhD students working on burning issues in this field using various theoretical references and methodologies The four parts of this book present a selection of innovative research aiming to find answers to the named challenges Part 1 deals with key psychological processes involved in career construction of young adults Part 2 presents research concerning transitions over the course of life Part 3 covers research related to interventions of career guidance and counseling Part 4 outlines perspectives for the future and proposes a European Research Agenda for our field of research Perspectives on Current Research in Career Guidance and Counseling Building Careers in Changing and Diverse Societies is

dedicated to students researchers and practitioners in the fields of education career guidance psychology human resource management to inform them about very recent work and promote the development of innovative interventions and programmes Essential Guides for Early Career Teachers: Teaching Early Years Lorna Williams, Colin Howard, 2025-02-28 Aimed at all beginning teachers involved in early years teaching This text looks at the unique role of the early years teacher and outlines how you can support the development of children as unique individuals through an enabling environment building success through effective relationships outstanding provision and purposeful assessment It encourages you to think about your own development in a holistic sense in order to promote outstanding professional practice The Essential Guides for Early Career Teachers provide accessible carefully researched quick reads for early career teachers covering the key topics you will encounter during your training year and first two years of teaching They complement and are fully in line with the new Early Career Framework and are intended to assist ongoing professional development by bringing together current information and thinking on each area in one convenient place **HL 111 - Make Or Break: The UK's Digital Future** The Stationery Office, 2015 This report is a call to action for the incoming Government in May 2015 The world is being transformed by a series of profound technological changes dominated by digital a second machine age This is already having a significant impact on the UK over the next two decades some economists have estimated that 35% of current jobs in the UK could become automated Digital technology is changing all our lives work society and politics It brings with it huge opportunities for the UK but also significant risks This demands an ambitious approach which will secure the UK's position as a digital leader The Committee recommends that the new Government establishes a single and cohesive Digital Agenda The potential value in doing so is significant the Government estimated that the digital sector alone was worth an estimated 105 billion in gross value added to the UK in 2011 A report by the National Institute of Economic and Social Research in 2013 meanwhile found that the size of the digital economy was almost double official estimates Whatever the difficulties in quantifying the value it is clear that digital is already a substantial driver for growth and will become much more so Digital technology is transforming much more than just one sector of the economy the whole economy has become digitised It would therefore be a mistake to take the digital sector as our sole focus of interest Digital technology is pervasive across all aspects of life so much so that the digital economy is becoming synonymous with the national economy The UK cannot afford to miss the opportunity or shirk the challenges this presents
