New Developments in Home Care Services for the Elderly Lenard W Kaye, 2013-11-19 This anthology responds to the recurring call for quality in home care service provision. It presents to agency administrators, managers, supervisors, and front line service providers a set of the most up to date policy, program, and practice developments in the field. Each contributor to New Developments in Home Care Services for the Elderly explores issues of client staff diversity and the challenges associated with working with clients grappling with disabling conditions. Contributors in New Developments in Home Care Services for the Elderly explore issues of client staff diversity and the challenges associated with working with clients grappling with various disabling conditions. Topics addressed include alternative organizational models in home care, the importation of high technology services into the home, legal and ethical issues in home health care, counseling homebound clients and their families, clinical assessment tools and packages, case management, and the home care client's home care entitlements and benefits, evaluating and monitoring the effectiveness of in-home care, marketing home health care services, home care service experiences in other countries. New Developments in Home Care Services for the elderly covers a continuum of care ranging from housekeeping services to self-care, education, teaching, and training services to nursing and medically related services. Consequently, the information contained within this volume is of immediate relevance to a multidisciplinary audience having both direct field and indirect office service responsibilities in the home care organization. Social workers, nurses, business administrators, and public health professionals will find this an invaluable guide for providing effective home care services.

**Clients with Complex Needs** Jan Keene, 2008-04-15 The current trend in health care is to view health problems through a broader lens that encompasses both the psychological and social influences on illness. This book reflects practitioners' increasing concern for clients with multifaceted problems. The text takes a practical approach to the problem based on sound empirical research. It provides insight into the nature of the multiple problems presented by clients and offers practical advice on how to provide the comprehensive support required by these disadvantaged individuals. It offers methods of carrying out psychosocial assessments and explains how these findings may be used in interventions.

**Misadventures in Health Care** Marilyn Sue Bogner, 2003-09-12 Misadventures in Health Care: Inside Stories presents an alternative approach to attributing the cause of medical error solely to the health care provider. That alternative, the systems approach, pursues why an incident occurs in terms of factors in the context of care that affect the care provider to induce an error. The basis for this approach is the fact that an error is an act; an act is behavior, and behavior is a function of the person interacting with the environment. Eleven vignettes illustrate the importance of the systems approach by describing health care incidents from the perspective of the care providers, the perspective that can identify the factors that actually affect the provider. These stories provide general readers with opportunities to apply their knowledge in analyzing incidents to identify error-inducing factors. This book is important reading for policymakers, researchers, and practitioners in law and in

all medical specialties and professionals in the social sciences human factors and engineering In addition to sensitizing the reader to the importance of contextual factors in error Misadventures in Health Care is a case study reference to supplement texts in professional schools such as law and medicine as well as the full range of academic disciplines It also is important reading for the general public because it presents an approach for addressing a very pressing social problem that of misadventures in health care
