## **Human Pool The:**

The Human World from a Canine Point of View Roy D. D. Perkins, 2018-02-14 This is the story of five talking dogs four living and one dead It contains about seventy two thousand words The story deals with how these canines react to the human world its rules and its way of life Although this is a book of fantasy it portrays how the dogs might interact with the humans The dogs try to figure out what makes the humans tick in the manner they do They are certainly an odd duck species The story reveals how the dogs live for the moment not concerned with the future Meanwhile the humans live for the future which may never come While the dogs are prepared for the next life the humans are definitely not prepared The dogs know where they are going The humans think they are going to one place but are really going to another It s a story of love compassion relationships endurance dependence and independence The main characters are five dogs Runner a greyhound the leader of the pack Danny a greyhound deceased and spiritual leader and earthly advisor Vinney a whippet and risk taking lunatic that acts first and thinks later Doggie a treeing walker coonhound and cocker spaniel mix and an immigrant from West Virginia who is educated and rational Peanut Butter a pug and beagle mix that is naive and uneducated except for four months in a biology class Danny the dead one communicates with the Almighty frequently The Almighty informs Danny about the dogs next adventure as to benefits and hazards Danny relays the info to Runner On every adventure the dogs run against the grain of the law The Almighty makes sure the dogs never get into trouble He is an accessory to their crimes before and after the act The dogs seem to be invulnerable to prosecution thanks to the Almighty s playing interference for the dogs

*Ethical Imperialism* Zachary M. Schrag, 2010-09-01 A powerful indictment of the IRB regime University researchers in the United States seeking to observe survey or interview people are required first to complete ethical training courses and to submit their proposals to an institutional review board IRB Under current rules IRBs have the power to deny funding degrees or promotion if their recommended modifications to scholars proposals are not followed This volume explains how this system of regulation arose and discusses its chilling effects on research in the social sciences and humanities Zachary M Schrag draws on original research and interviews with the key shapers of the institutional review board regime to raise important points about the effect of the IRB process on scholarship He explores the origins and the application of these regulations and analyzes how the rules initially crafted to protect the health and privacy of the human subjects of medical experiments can limit even casual scholarly interactions such as a humanist interviewing a poet about his or her writing In assessing the issue Schrag argues that biomedical researchers and bioethicists repeatedly excluded social scientists from rule making and ignored the existing ethical traditions in nonmedical fields Ultimately he contends IRBs not only threaten to polarize medical and social scientists they also create an atmosphere wherein certain types of academics can impede and even silence others The first work to document the troubled emergence of today s system of regulating scholarly research *Ethical Imperialism* illuminates the problems caused by simple universal rule making in academic and professional research

This short smart analysis will engage scholars across academia      **Technical Manual** United States. War Department,1960

*The Pool Group and the Quest for Anthropological Universality* Betsy van Schlun,2016-11-21 Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology      *Sexual Selection and the Descent of Man* Bernard Campbell,2017-07-12 Just over one hundred and thirty

years ago Charles Darwin in *The Descent of Man and Selection in Relation to Sex* 1871 developed remarkably accurate conclusions about man s ancestry based on a review of general comparative anatomy and psychology in which he regarded sexual selection as a necessary part of the evolutionary process But the attention of biologists turned to the more general concept of natural selection in which sexual selection plays a complex role that has been little understood This volume significantly broadens the scope of modern evolutionary biology by looking at this important and long neglected concept of great importance In this book which is the first full discussion of sexual selection since 1871 leading biologists bring modern genetic theory and behavior observation to bear on the subject The distinguished authors consider many aspects of sexual selection in many species including man within the context of contemporary evolutionary theory and research The result is a remarkably original and well rounded view of the whole concept that will be invaluable especially to students of evolution and human sexual behavior The lucid authority of the contributors and the importance of the topic will interest all who share in man s perennial fascination with his own history The book will be of central importance to a wide variety of professionals including biologists anthropologists and geneticists It will be an invaluable supplementary text for courses in vertebrate biology theory of evolution genetics and physical anthropology It is especially important with the emergence of alternative explanations of human development under the rubric of creationism and doctrines of intelligent design      **Weekly World News** ,1993-06-08 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub [www.weeklyworldnews.com](http://www.weeklyworldnews.com) is a leading entertainment news site      **The Theory of the Accommodation Based Consumerist Economic System** Michael
