**Historicizing Self-Interest in the Modern Atlantic World** Christine Zabel,2021-03-15 This volume historicizes the use of the notion of self interest that at least since Bernard de Mandeville and Adam Smith s theories is considered a central component of economic theory Having in the twentieth century become one of the key features of rational choice models and thus is seen as an idealized trait of human behavior self interest has despite Albert O Hirschman s pivotal analysis of self interest only marginally been historicized A historicization s of self interest however offers new insights into the concept by asking why when for what reason and in which contexts the notion was discussed or
