Masculinities illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies. Seeing U S history in terms of gender archetypes, readers will gain a richer and deeper understanding of America's democratic political system, domestic and foreign policies, and capitalist economic system, as well as the private sphere of the home and domestic life. The contributors to *American Masculinities* share the assumption that men's lives have been grounded fundamentally in gender, that is, in their awareness of themselves as males. Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era. Rather, this important work delves into the psychological core of manhood, which is shaped not only by biology but also by history, society, and culture. Encapsulating the current state of scholarly interpretation within the field of Men's Studies, *American Masculinities: A Historical Encyclopedia* is designed to help students and scholars advance their studies, develop new questions for research, and stimulate new ways of exploring the history of American life. Birdwell, 1999-05 During the 1930s many Americans avoided thinking about war erupting in Europe believing it of little relevance to their own lives. Yet the Warner Bros film studio embarked on a virtual crusade to alert Americans to the growing menace of Nazism. Polish Jewish immigrants Harry and Jack Warner risked both reputation and fortune to inform the American public of the insidious threat Hitler's regime posed throughout the world. Through a score of films produced during the 1930s and early 1940s including the pivotal *Sergeant York* the Warner Bros studio marshaled its forces to influence the American conscience and push toward intervention in World War II. *Celluloid Soldiers* offers a compelling historical look at Warner Bros's efforts as the only major studio to promote anti Nazi activity before the outbreak of the Second World War. **Reading between Designs** Piers D.

Britton, Simon J. Barker, 2010-01-01 From the alien worlds of *Star Trek* to the realistic operating room of *ER* the design of sets and costumes contributes not only to the look and mood of television shows but even more importantly to the creation of memorable characters. Yet until now this crucial aspect of television creativity has received little critical attention despite the ongoing interest in production design within the closely allied discipline of film studies. In this book Piers Britton and Simon Barker offer a first analytical study of scenic and costume design for television drama series. They focus on three enduringly popular series of the 1960s *The Avengers* *The Prisoner* and *Doctor Who* and discuss such topics as the sartorial image of Steed in *The Avengers* the juxtaposition of picturesque and fascistic architecture in *The Prisoner* and the evolution of the high tech interior of *Doctor Who*'s TARDIS. Interviews with the series original designers and reproductions of their original drawings complement the authors analysis which sheds new light on a variety of issues from the discourse of fashion to that of the heritage industry notions of Pop and retro and the cultural preoccupation with realism and virtual reality.

*Understanding Jonathan Coe* Merritt Moseley, 2016-07-30 An examination of the life, career and oeuvre of the British novelist and biographer. In *Understanding Jonathan Coe*, the first full length study of the British novelist Merritt Moseley surveys a writer whose experimental technique has become increasingly well received and critically admired. Coe is the recipient of the John Llewellyn Rhys Prize, the Prix Medicis, the Priz du Meilleur Livre Etranger, the Bollinger Everyman Wodehouse Prizes for Fiction and the Samuel Johnson Prize for Nonfiction. His oeuvre includes eleven novels and three biographies, two of famous Hollywood actors, Humphrey Bogart and Jimmy Stewart, and one of English modernist novelist B.S. Johnson. Following an introductory overview of Coe's life and career, Moseley examines Coe's complex engagement with popular culture, his experimental technique, his political satire and his broad canvased depictions of British society. Though his first three books, *An Accidental Woman*, *A Touch of Love* and *The Dwarves of Death*, received little notice upon publication, Moseley shows their strengths as literary works and as precursors. In 1994 Coe gained visibility with *What a Carve Up*, which has remained his most admired and discussed novel. He has since published a postmodern take on sleep disorders and university students, *The House of Sleep*, a two volume roman fleuve consisting of *The Rotters Club* and *The Closed Circle*, a touching account of a lonely woman's life, *The Rain before It Falls*, a satiric vision of a misguided life, *The Terrible Privacy of Maxwell Sim*, and a domestic comedy thriller set at the 1958 world's fair in Brussels, *Expo 58*. Moseley explicates these works and discusses the recurring features of Coe's fiction: political consciousness, a deep artistic concern with the form of fiction and comedy.
