Curating Church Jacob Daniel Myers, 2018-10-02 If we are willing to shift our approach to church we will better connect with increasingly heterogeneous cultures This shifting requires curation Church leaders must learn to be curators Churches in modernity were set up to facilitate a particular kind of experience with God Church was its own protected culture In the wake of postmodernity facilitated by new forms of digital communication we are entering a new epoch in the history of the church Curators manage the tasks of connection preservation and transformation in their care for cultural artifacts and communities When someone serves as a curator they make connections between different elements in the culture preserving the best of cultural traditions and promoting fresh ways of thinking and being in the world What might this work of curation mean for us In Curating Church readers learn how curation can reorient and sharpen the ways and work of the church Curation can inform how we connect with cultures beyond the church preserve what is best in the rich history of Christian thought and expression and nurture spaces where contemporary persons may be transformed by the gospel This book helps readers to understand with new richness the church and the world and it equips them to become active in making those connections as curators with and for others Advance, 1979 *The Activist Impulse* Jared S.
