**The Mechanics of Claims and Permissible Killing in War** Alec D. Walen, 2019-03-15 According to the dominant account of rights there are two ways to permissibly kill people they have done something to forfeit their right to life or their rights are outweighed by the significantly greater cost of respecting them Contemporary just war theorists tend to agree that it is difficult to justify killing in the second way Thus they focus on the conditions under which rights might be forfeited But it has proven hard to defend an account of forfeiture that permits killing when and only when it is morally justifiable In The Mechanics of Claims and Permissible Killing in War Alec D Walen develops an alternative account of rights according to which rights forfeiture has a much smaller role to play It plays a smaller role because rights themselves are more contextually contingent They systematically reflect the different kinds of claims people can make on an agent For example those who threaten to cause harm without a right to do so have weaker

claims not to be killed than innocent bystanders or those who have a right to threaten to cause harm By framing rights as the output of a balance of competing claims and by laying out a detailed account of how to balance competing claims Walen provides a more coherent account of when killing in war is permissible **The Holyland Murders** Tony

Wiseman, 2024-06-21 In the Holy Land a series of gruesome murders targeting ultra orthodox Hasidim sends shockwaves through the community While initially assumed to be nationalistically motivated Chief Inspector Detective David Levy and his elite team suspect otherwise noting distinct and unusual characteristics in the killings As the murder rate accelerates the team races against time to bring the perpetrator to justice their determination unwavering in the face of mounting pressure Intuition and a commitment to uncovering the truth lead the investigators down a winding path tracing back to the horrors of the Holocaust and the infamous Treblinka concentration camp Delving into the chaotic period preceding the establishment of the State of Israel David Levy and his team face the daunting task of proving their case in an era where evidence and witnesses are scarce Yosefa Galili a tenacious young policewoman handpicked for David s inner circle follows unconventional leads that ultimately uncover a potential suspect and a key witness emerging from the mists of time As the team endeavours to understand the mind of a depraved killer they embark on a heart wrenching journey filled with surprising twists and turns leading to an unexpected and shocking resolution Set against the backdrop of Israeli society s complex tapestry of social cultural religious and political divisions this suspense filled narrative illuminates the challenges faced by the investigators in their relentless pursuit of justice The clash of ideologies and the weight of history add depth to this gripping tale keeping readers on the edge of their seats until the final astonishing revelation **The Making of Auschwitz** Ian Baxter, 2025-03-31

Explores Auschwitz s construction revealing architectural plans and documents that expose the SS s role in orchestrating genocide Commemorating 80 years since the liberation of Auschwitz Birkenau this book tells the story of the camp s construction and its evolution into the largest mass murder factory of all time Using hundreds of captured German documents and architectural plans the book is a unique historical source of how the architects came to plan and accomplish the horror we now call Auschwitz Drawing on key documents from the Building Office archive this in depth study uses plans letters telegrams worksite labour reports and minutes of meetings It reveals how the SS needed civilian knowledge to install electrical sewage and heating systems and build chimneys and other structures It explains how various outside contractors were involved in cooperating in genocide and shows just how eager they were to produce goods for the SS for financial reward Just after the construction had begun on Birkenau in 1941 architectural plans were presented to include new crematoria and gas chambers By the summer of 1943 Birkenau had been transformed into a murder camp but building and planning to further extend the site continued In November 1944 Himmler gave the order to halt and dismantle the extermination facilities to conceal their murderous activities When the Red Army arrived on 27 January 1945 most of the camp was still intact Although the SS had incinerated the camps archives they forgot to destroy the construction archive

which was kept in another building As a result the Russians found many of the technical drawings including construction blueprints that clearly detailed the extermination facilities With detailed captions and text together with a plethora of rare photographs the book is an important study into those that masterminded the murder of over 1 million people     **Medical Murder** Robert M.
