Cinema of Outsiders Emanuel Levy,1999 The most important development in American culture of the last two decades is the emergence of independent cinema as a viable alternative to Hollywood's safe and innocuous entertainment Indeed while Hollywood studios devote much of their time and energy to churning out big budget star studded event movies a renegade independent cinema that challenges mainstream fare continues to flourish with strong critical support and loyal audiences

Quentin Tarantino FAQ Dale Sherman,2015-02-01 FAQ Quentin Tarantino is a man who came to Hollywood and didn't break the rules so much as make plain that he didn't even notice them Making the films he wanted to see Tarantino broke through with *Reservoir Dogs* in 1992 and then cemented his reputation in 1994 with the release of *Pulp Fiction* As his fame grew he spread his love for movies that are far from commonplace through his promotion of older films and theaters and by reviving the stalled careers of actors such as John Travolta Pam Grier and David Carradine Quentin Tarantino FAQ examines the movies directed by Tarantino the influences on his work and the inspiration he gave to others There are also chapters on certain recurring elements in his films from fake product placement to the music actors and even cinematic moments used The book also reviews his work in television the articles written about him or by him over the years his acting career his public battles and some of the projects he abandoned along the way It all comes

together to tell the story of a man who forged his own unique path and helped shape the way movies are made today
