uniformly distributed on the needles reducing stress on the arms and wrists Purling is not necessary in stockinette stitch which is frequently seen as one of the huge benefits of circular knitting The creation of garments like sweaters is also made easier because knitting in the round nearly completely removes the finishing processes of sewing the sweater together Although double pointed needles DPNs can be used to knit in the round however starting with a circular needle is advised because it is easier to use You will also have to use a bunch of stitches when knitting in the round such that the stitches span the complete circumference of the circular needle You will rapidly master knitting in the round with a circular needle if you practice consistently with it There are various techniques tips tools and troubleshooting tricks you must be familiar with which are vital for your success in circular knitting and that s what this book aims to help you achieve Below are snippets of what you will learn
