Docking for Computer-Aided Drug Design Mohane S. Coumar,2021-02-17 Molecular Docking for Computer Aided Drug Design Fundamentals Techniques Resources and Applications offers in depth coverage on the use of molecular docking for drug design The book is divided into three main sections that cover basic techniques tools web servers and applications It is an essential reference for students and researchers involved in drug design and discovery Covers the latest information and state of the art trends in structure based drug design methodologies Includes case studies that complement learning Consolidates fundamental concepts and current practice of molecular docking into one convenient resource

International Books in Print ,1986 **Database and Expert Systems Applications** Heinrich C. Mayr,Jiri Lazansky,Gerald Quirchmayr,Pavel Vogel,2003-06-29 th DEXA 2001 the 12 International Conference on Database and Expert Systems Applications was held on September 3 5 2001 at the Technical University of Munich Germany The rapidly growing spectrum of database applications has led to the establishment of more specialized discussion platforms DaWaK conference EC Web conference and DEXA workshop which were all held in parallel with the DEXA conference in Munich In your hands are the results of much effort beginning with the preparation of the submitted papers The papers then passed through the reviewing process and the accepted papers were revised to final versions by their authors and arranged with the conference

program All this culminated in the conference itself A total of 175 papers were submitted to this conference and I would like to thank all the authors They are the real base of the conference The program committee and the supporting reviewers produced altogether 497 referee reports on average of 2.84 reports per paper and selected 93 papers for presentation Comparing the weight or more precisely the number of papers devoted to particular topics at several recent DEXA conferences an increase can be recognized in the areas of XMS databases active databases and multi and hypermedia efforts The space devoted to the more classical topics such as information retrieval distribution and Web aspects and transaction indexing and query aspects has remained more or less unchanged Some decrease is visible for object orientation

Database and Expert Systems Applications A Min Tjoa, Roland Wagner, 2012-12-06 Use and development of database and expert systems can be found in all fields of computer science The aim of this book is to present a large spectrum of already implemented or just being developed database and expert systems Contributions cover new requirements concepts for implementations e.g. languages models storage structures management of meta data system architectures and experiences gained by using traditional databases in as many areas of applications as possible at least in the fields listed The aim of the book is to inspire a fruitful dialogue between development in practice users of database and expert systems and scientists working in the field

Fuzzy Logic and its Applications to Engineering, Information Sciences, and Intelligent Systems Zeungnam Bien, K.C. Min, 2012-12-06 Fuzzy technology has emerged as one of the most exciting new concepts available Fuzzy Logic and its Applications covers a wide range of the theory and applications of fuzzy logic and related systems including industrial applications of fuzzy technology implementing human intelligence in machines and systems There are four main themes intelligent systems engineering mathematical foundations and information sciences Both academics and the technical community will learn how and why fuzzy logic is appreciated in the conceptual design and manufacturing stages of intelligent systems gaining an improved understanding of the basic science and the foundations of human reasoning

Computer Aided Systems Theory - EUROCAST '91 Franz Pichler, Roberto Moreno Diaz, 1992-04-08 This volume contains a selection of papers presented at the second European workshop EUROCAST 91 held in Krems Austria in April 1991 It gives an overview of the current state of Computer Aided Systems Theory research and its relation to CAD applications in the engineering fields CAST research requires the application of the most advanced information processing technology in software and hardware for the implementation of CAST method base systems Engineers in the field of information and control engineering have the opportunity in CAST to present the state of the art in modeling tools to computer scientists EUROCAST 91 proved that CAST research is still in an early state of development The papers in the volume are organized into sections on systems theory and CAST methodology modeling environments CAST method base systems and artificial vision and information and control systems

Finger,Tetsuo Tomiyama,Martti Mäntylä,2013-03-09 Computer Aided Design CAD technology plays a key role in today s advanced manufacturing environment To reduce the time to market achieve zero defect quality the at first production and use available production and logistics resources effectively product and design process knowledge covering the whole product life cycle must be used throughout product design Once generated this intensive design knowledge should be made available to later life cycle activities Due to the increasing concern about global environmental issues and rapidly changing economical situation worldwide design must exhibit high performance not only in quality and productivity but also in life cycle issues including extended producer s liability This requires designers and engineers to use various kinds of design knowledge intensively during product design and to generate design information for use in later stages of the product life cycle such as production distribution operation maintenance reclamation and recycling Therefore future CAD systems must incorporate product and design process knowledge which is not explicitly dealt with in the current systems in their design tools and design object models
