McCann, John V. Knapp, 2021-07-01

Students will not become enthusiastic readers of literature from a teacher simply assigning reading tasks and assessing the completion of the tasks especially when the assessment takes the form of threatened quizzes Instead as this book shows teachers have an obligation to reveal to learners the procedures that skilled readers follow as they work with and enjoy literature and a further obligation to help learners to recognize some value in tackling complex works of literature **Going Home: Essays, Articles, and Stories in Honour of the Andersons** Pete Myers, 2012-10-12 In Going Home the reader will find an eclectic celebration of the diverse skills students develop at Oak Hill to understand and apply the gospel to daily life From ancient Hebrew studies to telling stories to toddlers the grace of Christ which is taking us home sweetens everything True ministers of the gospel model their message 2 Tim 3 10 11 It is that spirit of gospel practice which this volume is celebrating You get a fair idea of the great esteem and affection in which the Anderson family is held from the way so many members of the Oak Hill College community have contributed to this Festschrift From the Preface by Mike Ovey

**Green Forest Stories** Thornton W. Burgess, 2020-08-25T23:07:11Z American naturalist and conservationist Thornton W Burgess was the author of more than one hundred books for children the best remembered of these is Old Mother West Wind which was originally written for his young son Burgess also wrote dozens of books about the creatures of the northern North American forest four of which are collected here as the Green Forest Stories This Green Forest Stories compilation focuses on Lightfoot the Deer Blacky the Crow Whitefoot the Wood Mouse and twin bear cubs Woof Woof and Boxer Readers may have encountered these characters in other of Burgess s stories about the little people of the Massachusetts forest Burgess s earliest ventures into animal fantasy are roughly contemporary with Rudyard Kipling s Just So Stories and Beatrix Potter s tales of various animals and represent the most lasting American entry into this genre Animal fantasy is a sub genre of children s literature in which animals are anthropomorphized into human like characters and use language like humans It is often criticized by those who want readers to experience more realistic representations of animals and the natural world but animal fantasies engage a millennia old tradition in the Western canon reaching back at least as far as Aesop s Fables animal characters feature in teaching stories for children and adults in cultures around the world Burgess s stories are intended for children in the early elementary grades The challenges and triumphs of the little people in his stories will feel identifiable to many young readers and the snippets of moralizing and authorial commentary interleaved with the actions of the plot reflect a teaching device with a long history In the late twentieth century Burgess fell out of favour with teachers and librarians This shift occurred in part due to changing tastes in literary style and in part due to a changing society Burgess is entirely a writer of his time Most of the animals he depicts are male and many of the female animals who wander into the stories are more passive and more

stereotyped than the kinds of representation preferred for girls today Such is not the case however of Old Granny Fox who may be the smartest of the little people Burgess represents and certainly does not lack agency or self determination The style of Burgess s storytelling is undeniably old fashioned but still deserves consideration Although the writing is often simple and plain there are rhetorical flourishes that reveal the author s attention to craft In particular Burgess s use of formulaic expressions such as jolly round bright Mr Sun and the Merry Little Breezes links these tales to an orality that stretches back to at least The Iliad and The Odyssey of Homer think of phrases such as the wine dark sea rosy fingered Dawn and bright eyed Athena Through his broader use of repetition and through onomatopoeia Burgess underscores characteristics of his characters real life forest counterparts the way a chickadee calls a squirrel scolds or a rabbit lopes for example In these stories as in the Green Meadow Stories collection we observe features that signal Burgess s experience as a writer for periodicals and as an early radio broadcaster Each chapter begins with reminders about the previous chapter and chapters end with either a strong propulsive conclusion or a traditional cliff hanger The chapters are generally quite short a comfortable size to read as a bedtime story and just long enough to hold a new reader s attention without demanding too much of that reader s energy The strong narrative voice sounds distinctly like oral storytelling One can almost imagine a small group of young people seated in a circle at the storyteller s feet That image captures the essence of these animal tales They are light bright peeks into a complex and beautiful world a world any girl or boy may want to pursue through study or personal explorations As humanity faces the daily loss of animal species stories that delight readers and listeners that encourage them to learn about and respect the creatures of the non human world deserve our renewed attention and respect This book is part of the Standard Ebooks project which produces free public domain ebooks **Bulletin** United States.
