Who'S Behind the Mask? Allen McCray,2014-09-15 Too often we live our lives on automatic pilot We make our choices at a subconscious level and these choices are most often driven by negative or outdated values and beliefs of which we may not even be aware Our minds drive us to live in the past By living in the present however you can discover the real you and gain an understanding of the underlying elements that reinforce both your positive and negative behaviors As you learn what values beliefs and behaviors are sabotaging your future you can unlock the potential that is within The power of living in the present can give you a greater self awareness and empower you to have a greater level of self regulation It allows you to escape the land of status quo and move into your often hidden potential Through a series of self explorations and personality studies as well as faith based advice this guide seeks to help you discover the real you By taking these steps you can stop living in the shadow of the past and start moving into your future
