Cooney, 1996 The Environmental Crimes Deskbook will help environmental professionals understand the rapidly growing and complex area of criminal enforcement of environmental law and avoid the field's abundant traps for the unwary Environmental Crime in Transnational Context Toine Spapens, Rob White, Wim Huisman, 2016-06-10 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity The increasing cross border scope of environmental crimes and harms is one of the

reasons why governments and the enforcement community have trouble in finding the proper responses Law enforcement cooperation between western industrialized states is often time consuming and problematic and the problems increase exponentially when environmental criminals take advantage of situations where government and law enforcement are weak This book provides an overview of the developments and problems in the field of transnational environmental crimes and harms addressing these issues from perspectives such as enforcement deterrence compliance and emission trading schemes Divided into four parts the authors consider global issues in green criminology responses to transnational environmental crimes and harms alternative methods to combat environmental crime and specific types of crimes and criminological research Discussing these topics from the view of green criminology sociology and governance this book will be of great interest to all those concerned about the transnational dimensions of crime and the environment

Environmental Crime

Yingyi Situ, David Emmons, 1999-10-11 Yingyi Situ and David Emmons in *Environmental Crime* address a neglected area in Criminology and Criminal Justice and do so with masterful attention to details of environmental law law enforcement enthralling examples and up to date cases Well written scholarly and incisive in its commentary and stellar in organization their work will be well received by both undergraduate and graduate students Frank E Hagan Ph D Chair Graduate Program in Administration of Justice Professor of Sociology Criminal Justice Mercyhurst College Pennsylvania We and our environment are at risk Air water and soil pollution hazardous waste disposal global warming acid rain and reduction of the ozone layer threaten the natural environment and endanger people's health Within the last decade however environmental violations have been defined as crimes and violators viewed as criminals and criminal prosecution of the accused and criminal sanctions against the convicted have accelerated This accessibly written book examines the criminalization of environmental wrong doing Designed as a textbook for environmental crime courses at the undergraduate or beginning graduate levels it is comprehensive and logically organized The text explores the nature causes investigation prosecution and prevention of environmental crime Special emphasis is placed on the human economic social and psychological impacts of the environmental crime by corporations criminal organizations the government and individuals Although examples throughout the book reflect not only North America but the world a final chapter is devoted to global environmental law The chapter also reviews promising approaches being used by other nations in fighting environmental crime

Environmental Crime in the United States

Karen Clark, 2024-07-24 *Environmental Crime in the United States* provides an introduction to the laws that govern environmental crime how these laws are implemented and enforced and the impact they have had since their passing in the twentieth century and their continued applications Environmental crimes such as wildlife trafficking over fishing artisanal mining and deforestation are lucrative contributors to a global illicit trade market and sources of cheap resources for corporations to exploit This book presents a review of U S based laws and regulations regarding such environmental crimes at the state and federal level combined with examples of international convention or trade agreements

which can be prosecuted within the United States It examines attempts to modify these laws the exceptions granted to prevent enforcement and the ability of political and social groups to address inefficiencies of the laws or their implementations Both criminal and administrative laws are reviewed to assess how laws governing the environment compare to other areas of law that seek to protect and improve social well being and public health this includes a review of how environmental crimes overlap with general crimes and how these crimes fuel illicit commerce while strengthening international crime syndicates Trends such as the actions taken by non governmental organizations and other entities other than law enforcement to stop environmental crimes such as poaching will be explained with a discussion of how environmental crimes spurn illicit markets and provide lucrative schemes for international crime rings as well as corporations This book will be of great interest to students of environmental crime and justice green criminology environmental conservation natural resource management and environmental law **Environmental Crime and**

Restorative Justice Mark Hamilton, 2021-03-01 This book explores the use of restorative justice approaches in the context of environmental crimes It critically assesses regular criminal justice approaches with regard to green crimes and explores restorative justice conferencing as an alternative Focussing on justice approaches in Australia and New Zealand it argues that court processes following environmental offending provide minimal to no offender and victim voice interaction and input rendering them invisible It proposes a third measure of justice that of meaningful involvement beyond that of fair procedure and outcome It suggests the use of restorative justice conferencing a facilitated dialogue between stakeholders to crime or conflict as a vehicle to operationalise and achieve justice as meaningful involvement This book speaks to those interested in green criminology victimology and environmental law **Transnational Environmental Crime** Rob White, 2018-10-08 This

book provides a comprehensive introduction to and overview of eco global criminology Eco global criminology refers to a criminological approach that is informed by ecological considerations and by a critical analysis that is global in scale and perspective Based upon eco justice conceptions of harm it focuses on transgressions against environments non human species and humans At the centre of eco global criminology is analysis of transnational environmental crime This includes crimes related to pollution of air water and land and crimes against wildlife including illegal trade in ivory as well as live animals It also includes those harms that pose threats to the environment more generally such as global warming In addressing these issues the book deals with topics such as the conceptualization of environmental crime or harm the researching of transnational environmental harm climate change and social conflict threats to biodiversity toxic waste and the transference of harm prosecution and sentencing of environmental crimes and environmental victimization and transnational activism This book argues that analysis of transnational environmental crime needs to incorporate different notions of harm and that the overarching perspective of eco global criminology provides the framework for this Transnational Environmental Crime will be an essential resource for students academics policy makers environmental managers police

magistrates and others with a general interest in environmental issues

Environmental Crime in Europe Andrew Farmer, Michael Faure, Grazia Maria Vagliasindi, 2017-12-14 Environmental crime is a growing challenge for policy makers and law enforcers This is an important and timely study which examines in depth how environmental crime is treated at national level within the European Union and the impact of the 2008 EU Directive on environmental crime on national systems It will be required reading by anyone concerned with making environmental law more effective Richard Macrory Emeritus Professor University College London The aim of this important new collection is to explore how environmental crime is controlled and environmental criminal law is shaped and implemented within the European Union and its Member States It examines the legal framework looking in particular at Directive 2008 99 EC and the specific competences of the EU in this domain In addition it provides a detailed analysis of environmental criminal law in seven Member States focusing inter alia on the basic legislation the way in which environmental pollution is criminalised and the main actors in place to enforce environmental criminal law In so doing it provides a much needed explanation of the evolution of environmental criminal law in Europe at Union level and how this is implemented in selected Member States

Environmental Crime and Criminality Sally M. Edwards, Terry D. Edwards, Charles B. Fields, 2013-08-01 First published in 1996 One of the primary goals of this series has been to explore new areas of criminology and criminal justice topics that constitute the frontiers of the field This work edited by Sally Edwards Terry Edwards and Charles Fields exemplifies that purpose in its coverage of environmental crime While corporate and political crime developed slowly into mainstream criminology over the last half century environmental crime as an area of emphasis is still in its infancy It is unusual to have many varied and informative perspectives early in a subject's development This volume however demonstrates that many people are already examining environmental crime perhaps as an extension of both the greater environmental movement and the broadening of the popular parameters of crime

Environmental Crime and its Victims Toine Spapens, Rob White, Marieke Kluin, 2016-05-06 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity These types of crime however do not always produce an immediate consequence and the harm may be diffused As such the complexity of victimization in terms of time space impact and who or what is victimized is one of the reasons why governments and the enforcement community have trouble in finding suitable and effective responses This book provides a diverse and provocative array of arguments critiques and recommendations from leading researchers and scholars in the field of green criminology The chapters are divided into three main sections the first part deals with specific characteristics of some of the major types of environmental crime and its perpetrators the second focuses explicitly on the problem of victimization in cases of environmental crime and the third addresses the question of how to tackle this problem Discussing these topics from the point of view of green criminological theory sociology law enforcement community wellbeing environmental activism and victimology this book will be of great interest to all those concerned about crime and the environment

Following the Proceeds of Environmental Crime Gregory Rose, 2014-06-27 Huge quantities of natural resources are illegally harvested and their proceeds laundered in the Asia Pacific region fostering corruption and undermining environmental governance Most illegal exploitation and pollution occurs in countries with poor governance capacities but much of the sale for profit and money laundering occurs in mature markets with well developed governance capacities Their asymmetrical enforcement capacities can complement each other This book explores ways to combat illegal fishing and logging in Asia Pacific region by the use of cooperative legal

measures particularly anti money laundering and confiscation of proceeds techniques Contributors to this volume cover themes including the nature of transnational environmental crime patterns in laundering of illicit fish and forest products networks for distribution of illicit products weaknesses in current systems for assurance of the legality of products and international legal cooperation to enforce anti money laundering laws in relation to illicit products In considering these topics the book explores how the innovative use of anti money laundering measures and the seizure of criminal proceeds can as policy options to combat transnational fishery and forestry crimes The book will be of keen interest to scholars and students of environmental law and criminal law and excellent use for practitioners in natural resources conservation law

[A Research Agenda for Environmental Crime and the Law](#) Ricardo Pereira,Teresa Fajardo,2025-06-09 This Research Agenda evaluates the current state of scholarship in the field of environmental crime and law identifying priority areas and future trends in academic research It explores the evolution of the law accounting for current and new global environmental threats and examining ontological questions around environmental law enforcement Leading experts provide insight into research methodologies and topical themes such as transnational corporate crimes ecocide artificial intelligence biodiversity crime and climate justice

The Geography of Environmental Crime Gary R. Potter,Angus Nurse,Matthew Hall,2016-06-30 This book critically examines both theory and practice around conservation crimes It engages with the full complexity of environmental crimes and different responses to them including poaching conservation as a response to wildlife crime forest degradation environmental activism and the application of scientific and situational crime prevention techniques as preventative tools to deal with green crime Through the contributions of experts from both the social and ecological sciences the book deals with theoretical and practical considerations that impact on the effectiveness of contemporary environmental criminal justice It discusses the social construction of green crimes and the varied ways in which poaching and other conservation crimes are perceived operate and are ideologically driven as well as practical issues in environmental criminal justice With contributions based in varied ideological perspectives and drawn from a range of academic disciplines this volume provides a platform for scholars to debate new ideas about environmental law enforcement policy and crime prevention detection and punishment

The Role of EU Agencies in Fighting Transnational Environmental Crime Valsamis Mitsilegas,Fabio Giuffrida,2017-02-06 The last decades have witnessed a growing emphasis on the relationship between environmental law and criminal law Legislation aimed at tackling environmental crime has been adopted at national EU and international level and has been gradually evolving over time These developments notwithstanding the current legal framework faces a number of challenges in tackling the largely inter related phenomena of transnational organised and economic environmental crime This study by Valsamis Mitsilegas and Fabio Giuffrida addresses these challenges by focusing on the role of the European Union and more specifically its criminal justice agencies Europol and Eurojust in tackling transnational environmental crime The study analyses the role of Eurojust and Europol in supporting

and coordinating the competent national authorities dealing with investigations and or prosecutions on transnational environmental crime and it shows that for the time being the full potential of these agencies is not adequately exploited with regard to fighting this phenomenon effectively
