Mining Environmental Policy Michael S. Hamilton,2017-11-30 Illustrated by a detailed comparative examination of mining regulations and environmental impact assessment EIA in the USA the second largest producer of coal in the world and Indonesia the eighth largest and most rapidly growing this book argues that the degree of policy integration often determines the success or failure in controlling environmental effects of mining operations Comparison of surface mining regulation in the two countries provides some stark contrasts some surprising results concerning the diffusion of policy innovations from one country to another and instances of both policy success and failure The book provides significant new

insights into international relations and comparative environmental policy particularly as they affect rainforests and biodiversity It also suggests that if mining environmental policy were to be effectively implemented the environmental degradation caused need not be permanent

Environmental Effects of Mining Earle A. Ripley, Robert E. Redmann, 1995-08-01 Research funded by the Centre for Resource Studies Queen's University Kingston Ontario Canada

Environmental Impacts of Coal Mining & Utilization M.J. Chadwick, N.H. Highton, N. Lindman, 2013-10-22 As coal is considered as a substitute for other fuels more serious attention is being given to the environmental impacts of the whole coal fuel cycle mining transport storage combustion and conversion This volume presents an up to date account of these environmental impacts and the recent developments to combat and control them A feature of the book is the way in which it discusses not only the experience and developments in North America and Western Europe but also presents much information made available for this study on the developments in the socialist countries of Eastern Europe

The Impact of Mining Lifecycles in Mongolia and Kyrgyzstan Troy Sternberg, Kemel Toktomushev, Byambabaatar Ichinkhorloo, 2021-09-26 This volume investigates how mining affects societies and communities in Mongolia and Kyrgyzstan As ex Soviet states Mongolia and Kyrgyzstan share history culture and transitions to democracy Most importantly both are mineral rich countries on China's frontier and epicentres of resource extraction This volume examines challenges communities in these countries encounter on the long journey through resource exploration extraction and mine closure The book is organised into three related sections that travel from mine licensing and instigation to early anticipation of benefit through the realisation of social and environmental impacts to finite issues such as jobs monitoring dispute resolution and reclamation Most originally each chapter will include a final section entitled Notes from the field that presents the voice of in country researchers and stakeholders These sections will provide local contextual knowledge on the chapter's theme by practitioners from Mongolia and Central Asia The volume thereby offers a distinctively grounded perspective on the tensions and benefits of mining in this dynamic region Using Mongolia and Kyrgyzstan as case studies the volume reflects on the evolving challenges communities and societies encounter with resource extraction worldwide The book will be of great interest to students and scholars of mining and natural resource extraction corporate social responsibility and sustainable development
