**Climatic Change and Its Impacts** Martin Beniston,2005-12-30 Climatic Change is a rapidly evolving domain that has prompted the publication of numerous scientific works in recent years reflecting both the public and scientific interest in the topic. This book focuses upon climate processes, variability, and change and applies the general principles related to these issues, particularly in Switzerland. Although a small country, Switzerland is characterized by complex topography where climatic processes are often enhanced due to the presence of the Alps. In addition, there is a remarkable density of observational data in both the natural and social sciences that enable a comprehensive assessment of climate processes, their long-term trends, and their impacts. This book draws upon recent scientific work by the author as well as by close colleagues working within scientific networks both in Switzerland and Europe in order to provide the reader with up-to-date information on climate processes in the course of the 20th and 21st centuries. This book is intended for students from the undergraduate level onwards and researchers interested in climate issues specific to the alpine region.

Analyzing Adventure Time Paul A. Thomas,2023-07-06 In 2010, Cartoon Network debuted a new animated series called Adventure Time, and within just a few short years, the show became both a pop culture phenomenon and a critical darling. But despite all the admiration, not many works of scholarship have assessed the show through a critical lens. This anthology is an attempt to fill this scholarly oversight and spark a wider conversation about the show's deeper themes. Across 15 scholarly essays, this book's contributors study Adventure Time from a variety of angles, proving just how insightful the series really is. From a consideration of BMO's

queer identity to a psychoanalytic reading of Lemongrab and an examination of how anime has impacted the show the topics explored in this anthology are diverse and unique and are likely to appeal to scholars and fans alike     *The Publishers' Circular and Booksellers' Record* ,1922     **The Spoils of War** Bryan Caldwell,2015-10-17 The shining empire of Casamair is the beacon of light and the most powerful nation in the civilized realms of men Emperor Maldicor the just and fair ruler of the empire seeks the fabled weapon Anias the sword said to have vanquished the dreaded Sheath over two millennia ago Will his search for a weapon some call a myth lead to the destruction of his house and family Or is there a deeper meaning in seeking the weapon and a true danger awaiting the people of Casamair and even the lands beyond its borders     *The New Statesman* ,1924     Biennial Report of the Auditor General of the Commonwealth of Pennsylvania for the Two Years Ending May 31 ...
