

Enlightenment In Germany

Maiken Umbach

Enlightenment In Germany:

Enlightenment in Germany Paul Raabe, 1979 **Impure Reason** W. Daniel Wilson, Robert C. Holub, 1993 Based on the premise that the modern discourse of enlightenment and its self critique began in the eighteenth century *Impure Reason* provides a fresh look at the controversy through cultural social and political history confronting the often abstract theories of a dialectics of enlightenment with concrete historical studies of the Age of Enlightenment This volume brings together current research on the German Enlightenment in order to familiarize an American audience with the period that gave rise to Lessing Kant and Goethe as well as to other important figures who are practically unknown outside of German studies Leading scholars on eighteenth century German society politics literature and culture bring a uniquely American perspective to the project with critiques that generally have not been voiced in Germany Their essays which represent a wide range of attitudes toward enlightenment cover topics as varied as the debate on colonialism the difficulties of diversity the use and abuse of reading male sexuality in enlightenment self critique medicine patriarchy and heterosexuality art and social discipline disturbed mourning and the Enlightenment's flight from the body and women possessed by the devil Modern critics and defenders of enlightenment who are discussed in the essays include Horkheimer and Adorno who are themselves subjected to a genderbased critique Jürgen Habermas Jean François Lyotard Manfred Frank Richard Rorty and Christa Wolf *Impure Reason* will interest scholars in German studies gender studies history philosophy psychology pedagogy and other fields The volume will also help introduce scholars and other interested readers outside the area of German studies to the particularly German tradition of Enlightenment critique and its status today **The Radical Enlightenment in Germany**, 2018-07-03 This volume investigates the impact of the Radical Enlightenment on German culture during the eighteenth century taking recent work by Jonathan Israel as its point of departure The collection documents the cultural dimension of the debate on the Radical Enlightenment In a series of readings of known and lesser known fictional and essayistic texts individual contributors show that these can be read not only as articulating a conflict between Enlightenment and Counter Enlightenment but also as documents of a debate about the precise nature of Enlightenment At stake is the question whether the Enlightenment should aim to be an atheist materialist and political movement that wants to change society or in spite of its belief in rationality should respect monarchy aristocracy and established religion Contributors are Mary Helen Dupree Sean Franzel Peter H yng John A McCarthy Monika Nenon Carl Niekerk Daniel Purdy William Rasch Ann Schmiesing Paul S Spalding Gabriela Stoicea Birgit Tautz Andrew Weeks Chunjie Zhang *Federalism & Enlightenment in Ger* Maiken Umbach, 2000-01-01 *Federalism and Enlightenment* identifies two connected features of great but underrated importance in German history the strength of devolved federal government inside the Holy Roman Empire and the influence of ideas imported from England Both stood out against the militaristic absolutism and admiration of France associated with Prussia The German Enlightenment has usually been seen as an extension of the French Enlightenment yet the influence of English

ideas in agricultural education and constitutional issues had a considerable impact especially at the smaller courts Whig constitutionalism had a strong appeal to and influence on many German princes something that the tradition of historical writing begun by Ranke in which the triumph of centralised government was the dominant theme has tended to obscure Prince Franz of Dessau the champion of the Fuerstenbund the league of German princes opposed to Prussian expansion was influenced by Stowe far more than by Versailles at his palace at Woerlitz While the federal constitution of the Holy Roman Empire was abolished in the aftermath of the Napoleonic Wars the subsequent centralisation of Germany was not as inevitable as it has often been assumed Even today the German government is the most federal in Europe reflecting a long term reality

The German Enlightenment and the Rise of Historicism Peter Hanns Reill, 1975-01-01 Material

Delight and the Joy of Living Michael North, 2008 Eighteenth century Europe witnessed a commercialisation of culture as the marketing of culture became separated from its production and new cultural entrepreneurs entered the stage Cultural consumption also played a substantial role in creating social identity In this book Michael North systematically explores this field for the first time in regard to the European Continent and especially to eighteenth century Germany Chapters focus on the new forms of entertainment concerts theatre opera reading societies and traveling on the one hand and on the new material culture fashion gardens country houses and furniture on the other

Light in Germany T. J. Reed, 2015-03-02 In this book T J Reed clears the dust away from eighteenth century Germany bringing the likes of Kant Goethe Friedrich Schiller and Gotthold Lessing into a coherent and focused beam that shines within European intellectual history and reasserts the important role of Germany's Enlightenment Provided by publisher

The Society of the Enlightenment Richard van Dülmen, 1992 This book is a comprehensive and engaging account of the society and culture of the German Enlightenment Focusing on the social environment of ideas in Germany during the late seventeenth and eighteenth centuries Van Dulmen chronicles the emergence and growth of the many different societies clubs and associations of the Enlightenment from language societies to the masonic lodges from the reading circles to secret societies Van Dulmen shows how these new forms of organization provided an important focal point for the articulation of a great variety of interests He argues that these various societies constituted a unified movement out of which he suggests emerged a bourgeois elite that was self confident not only culturally but also socially and politically This book would be of interest to students and researchers in European history especially of the Early Modern period historians of Enlightenment culture and society and students and researchers in German studies

China in the German Enlightenment Bettina Brandt, Daniel Purdy, 2016-05-12 Over the course of the eighteenth century European intellectuals shifted from admiring China as a utopian place of wonder to despising it as a backwards and despotic state That transformation had little to do with changes in China itself and everything to do with Enlightenment conceptions of political identity and Europe's own burgeoning global power China in the German Enlightenment considers the place of German philosophy particularly the work of Leibniz Goethe

Herder and Hegel in this development Beginning with the first English translation of Walter Dörmel's classic essay *How the Chinese Became Yellow* the collection's essays examine the connections between eighteenth century philosophy German Orientalism and the origins of modern race theory Anthropology and the German Enlightenment Katherine M. Faulstich, 1995

What was the role of anthropology in the German Enlightenment Why did this discipline emerge as one of the most popular modes of inquiry in the eighteenth century permeating fields as disparate as aesthetics medicine and law As the essays in this volume show the body of Enlightenment knowledge was by no means universal During the German Enlightenment the study of nature humanity and everything that humanity created was the topic of the day But the period that defined moral reason as the sovereign human faculty also applied its scrutiny to the body that such a mind inhabited What did it look like Could moral superiority be deduced from physiognomy In the massive effort to educate the German populace on what were seen to be the fundamental a priori differences physical and moral between the sexes and the races the European bourgeois man was considered to embody all human virtues and talents and stem from the only race and sex capable of ruling itself democratically and rationally To examine the role of anthropology in this enterprise contributors to this volume were asked to investigate what constitutes the German Enlightenment's interaction between its self-proclaimed rationalism and the pervasive presence of the non-rational that is the corporeal

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Dialogues of the Dead of the Early German Enlightenment* Riccarda Suitner, 2021-12-13 For the first time this book reconstructs the fascinating story of a series of anonymous dialogues of the dead published in Germany in the early eighteenth century The texts stage fictional debates between some of the most famous thinkers of the seventeenth and early eighteenth centuries such as Descartes Leibniz Thomasius and Bekker The dialogues were originally published as cheap prints and very few copies now survive until today the links between these texts and the very existence of this textual corpus have remained unknown Starting from the little reliable information available Riccarda Suitner conducts an exciting investigation of the authors production illustrations circulation and plagiarism of these texts in the intellectual world of the early eighteenth century proposing a new image of the German Enlightenment The German edition of this book was awarded the prestigious Geisteswissenschaften international prize *The Holy Roman Empire* Brian A. Pavlac, Elizabeth S. Lott, 2019-06-01 Reference entries overview essays and primary source document excerpts survey the history and unveil the successes and failures of the longest lasting European empire The Holy Roman Empire endured for ten centuries This book surveys the history of the empire from the formation of a Frankish Kingdom in the sixth century through the efforts of Charlemagne to unify the West around A.D. 800 the conflicts between emperors and popes in the High Middle Ages and the Reformation and the Wars of Religion in the Early Modern period to the empire's collapse under Napoleonic rule A historical overview and timeline are followed by sections on government and politics organization and administration individuals groups and organizations key events the military objects and artifacts and key

places Each of these topical sections begins with an overview essay which is followed by alphabetically arranged reference entries on significant topics The book includes a selection of primary source documents each of which is introduced by a contextualizing headnote and closes with a selected general bibliography

Justus Möser and the German

Enlightenment Jonathan B. Knudsen, 2002-08-08 A biography of Justus M ser often called the Edmund Burke of Germany and the father of German conservatism

The Hidden Origins of the German Enlightenment Martin Mulsow, 2023-07-13

The early German Enlightenment is seen as a reform movement that broke free from traditional ties without falling into anti-Christian and extremist positions on the basis of secular natural law an anti metaphysical epistemology and new social ethics But how did the works which were radical and critical of religion during this period come about And how do they relate to the dominant moderate Enlightenment Martin Mulsow offers fresh and surprising answers to these questions by reconstructing the emergence and dissemination of some of the radical writings created between 1680 and 1720 The Hidden Origins of the German Enlightenment explores the little known freethinkers persecuted authors and secretly circulating manuscripts of the era applying an interdisciplinary perspective to the German Enlightenment By engaging with these cross regional

clandestine texts a dense and highly original picture emerges of the German early Enlightenment with its strong links with the experience of the rest of Europe

Enlightenment Underground Martin Mulsow, 2015-11-30 Online supplement Mulsow

Additions to Notes drawn from the 2002 edition of *Moderne aus dem Untergrund* full versions of nearly 300 notes that were truncated in the print edition Hosted on H C Erik Midelfort's website Martin Mulsow's seismic reinterpretation of the origins of the Enlightenment in Germany won awards and renown in its original German edition and now H C Erik Midelfort's translation makes this sensational book available to English speaking readers In *Enlightenment Underground* Mulsow shows that even in the late seventeenth century some thinkers in Germany ventured to express extremely dangerous ideas but did so as part of a secret underground Scouring manuscript collections across northern Europe Mulsow studied the writings of countless hitherto unknown radical jurists theologians historians and dissident students who pushed for the secularization of legal political social and religious knowledge Often their works circulated in manuscript anonymously or as clandestinely published books Working as a philosophical microhistorian Mulsow has discovered the identities of several covert radicals and linked them to circles of young German scholars many of whom were connected with the vibrant radical cultures of the Netherlands England and Denmark The author reveals how radical ideas and contributions to intellectual doubt came from Socinians and Jews church historians and biblical scholars political theorists and unemployed university students He shows that misreadings of humorous or ironic works sometimes gave rise to unintended skeptical thoughts or corrosively political interpretations of Christianity This landmark book overturns stereotypical views of the early Enlightenment in Germany as cautious conservative and moderate and replaces them with a new portrait that reveals a movement far more radical unintended and puzzling than previously suspected

Women and Philosophy in Eighteenth-century Germany Corey

Dyck,2021 This volume showcases the vibrant and diverse contributions made to philosophy by women in 18th century Germany and explores their under appreciated influence upon the course of modern philosophy Thirteen women are profiled and their work on topics in logic metaphysics aesthetics and moral and political philosophy is discussed **The Merchant in German Literature of the Enlightenment** John Walter Van Cleve,1986 **Liberal Imperialism in Germany** Matthew P. Fitzpatrick,2008-09-01 In a work based on new archival press and literary sources the author revises the picture of German imperialism as being the brainchild of a Machiavellian Bismarck or the conservative revolutionaries of the twentieth century Instead Fitzpatrick argues for the liberal origins of German imperialism by demonstrating the links between nationalism and expansionism in a study that surveys the half century of imperialist agitation and activity leading up to the official founding of Germany's colonial empire in 1884 **Germany and the Americas** Thomas Adam,2005-11-07 This comprehensive encyclopedia details the close ties between the German speaking world and the Americas examining the extensive Germanic cultural and political legacy in the nations of the New World and the equally substantial influence of the Americas on the Germanic nations From the medical discoveries of Dr Johann Sievert surgeon general to Simon Bolivar to the amazing explorations of the early 19th century German explorer Alexander von Humboldt whose South American and Caribbean travels made him one of the most celebrated men in Europe Germany and the Americas examines both the profound Germanic cultural and political legacy throughout the Americas and the lasting influence of American culture on the German speaking world Ever since Baron von Steuben helped create George Washington's army German Americans have exhibited decisive leadership not only in the military but also in politics the arts and business Germany and the Americas charts the lasting links between the Germanic world and the nations of the Americas in a comprehensive survey featuring a chronology of key events spanning 400 years of transatlantic history **Enlightenment's Reformation** Michael O'Neill Printy,2024 Between 1750 and 1830 two key cultural achievements the sixteenth century Reformation and the late eighteenth century birth of German philosophy became fused in public discussion Enlightenment's Reformation explores how the Reformation was transformed into a narrative of progress and why it has had such a long standing impact
